

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

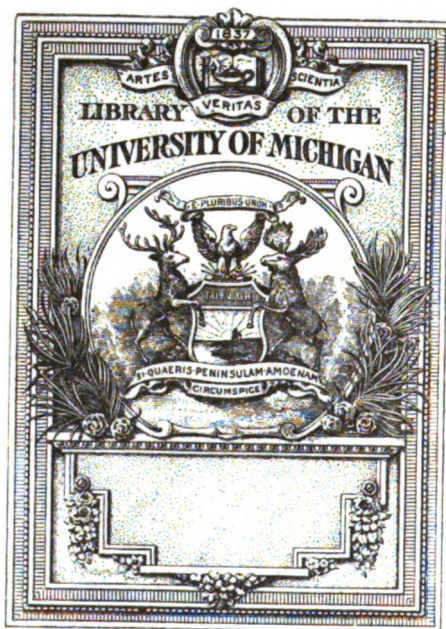

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

COMMON COUNCIL.

[OFFICIAL.]

DETROIT, Tuesday, Jan. 14, 1879.

The Aldermen elect were sworn in by the Clerk, Louis Dillmann.

On motion of Ald. Rousseau, the Council proceeded

to another ballot, which resulted as follows:

Whole number of votes cast	25

Charles Ewers received	2
Blank	4

Ald. Monaghan having received a majority of all

the votes cast, the Clerk declared him duly elected.

On motion the Clerk appointed Ald. Guiney and

Jackson to escort the President to the chair.

The President in taking the chair addressed the

Council as follows:

Gentlemen of the Common Council:

I return my warmest thanks for the great honor you have done me in electing me to preside over your deliberations for the ensuing year. In return for this evidence of your esteem I can but promise to endeavor to discharge the responsible duties of the office in such a manner as will meet your approval. In doing this I think that you will require of me that I should protect the rights and privileges of all the members, preserve the dignity and decorum becom-

ing the Common Council of a great city, and, in or that personal and political feeling may be held in abeyance to the end that the attention of the Council may be more steadily directed to our public duties, enforce, without partially, the rules of debate. In an endeavor to carry out what I deem to be your wishes in this regard I bespeak your assistance and forbearance, for it is no ordinary task that you impose upon me, and, having had but little experience, mistakes are sure to follow.

On motion the President appointed Ald. Russell and Herrick to notify his Honor the Mayor that the Council was fairly organized and ready for business.

The committee retired, and after a brief absence returned, accompanied by his Honor Mayor Langdon, who was introduced by Ald. Herrick.

The Mayor then addressed the Council as follows: To the Honorable the Common Council:

Gentlemen—Twelve months have intervened since I had the honor of addressing you in this Council chamber. During the interim, as a body and as a city we have much for which we should be thankful; a divine Providence has dealt gently with us; none of our immediate members have been removed by death, and while a portion of our country has been subjected to a dreadful scourge, sweeping thousands upon thousands before it, overshadowing that portion in deep sorrow and gloom, paralyzing every branch of industry, from which it will take years to recover, our city has been unusually healthy (the number of deaths being 420 less than in 1877), free from all devastations, either of pestilence or fire, with a healthy revival of business, confidence in a great measure re-established and a more cheerful outlook for the future. Never before in the history of Detroit have the receipts of grain from the agricultural districts of the State been as large as during the past year, aggregating in round numbers twelve millions of bushels (12,000,000), of which 11,500,000 was wheat. It is conceded that, with prosperity in the agricultural portion of a State, the cities and towns in the State must likewise be in a prosperous and healthy condition.

No additional bonds were issued during the year 1878. There was paid during the year bonds as follows, viz.:

Redemption bonds issued		
1858	50,000 00	52,000 00
Total bonded debt Jan. 1,		
1879		\$1,810,400 00

No trace can be found of the Berthlet Market bonds enumerated above \$400, though they are long past due, and they have been advertised for and interest on them has long been stopped.

Of this bonded debt of the city there falls due:
Past due and probably lost.....\$ 400 00

By strict adherence of the Receiver of Taxes to the law imposing an additional percentage to delinquent taxes and assessments, the effect has been to insure more prompt payment of taxes and assessments than heretofore. Such addition to delinquent taxes collected the past year amounted to the sum of \$17,-975 95, being in excess of the amount of the pay rolls in the office for same time, of \$9,524 31. The pay rolls for the year amounted to \$8,451 64.

I trust the City Charter will be so amended at this session of the Legislature that no citizen, handing in to the Receiver the stipulation which he wishes to pay taxes on or before July 1st, can pay them any time before the 10th of August of the same year without percentage. However, did our citizens pay the same attention to their city accounts that they do to their business engagements there would be no necessity of any change, and whether the same neglect will not exist after the change is made is a matter of doubt.

There has latterly been considerable argument in regard to the Controller borrowing from the commissioners of the sinking fund (and by some who should know better) up to the amount of the appropriation of the fund for which the loan is made. *Do our taxpayers not understand that if the taxes were paid promptly there would be no necessity for borrowing?* Such is the fact.

The following tabular statement will show you the condition of the different funds January 1, 1878, and January 1, 1879:

A decrease of the debt of our city in 1878 of. \$ 125,225 57

During this period there falls due.....	184,000 00
---	------------

Assuming that no more bonds will be issued by the city, it will thus appear that in seven years at the most, from this date, the means on hand to pay our bonded, and only, debt will equal in amount the entire debt outstanding; thus the City of Detroit will be practically out of debt.

If the income of this fund should be increased, as it likely will be, the time for the accomplishment of this desired end will be correspondingly shortened.

No reference is here made to the debt of the Water Board, as the income of that board is considered sufficient to retire their indebtedness as it matures.

TAXES.

The cash receipts in the office of the Receiver of Taxes for the year ending December 31, 1878, amounted to the sum of one million, three thousand three hundred and sixty-nine dollars and forty-four cents, as follows: \$1,003,369 44.

FISCAL YEAR.

It has long been deemed desirable to change the fiscal year from February 1 to July 1, making it correspond with the financial year. I trust that may be accomplished at this session of the Legislature. This will necessitate making provision for seventeen months' expenses of the city government, instead of twelve.

To accomplish this purpose, the Controller, Hon. H. P. Bridge, suggests that the Legislature be asked to empower the Common Council to make a temporary loan to carry the general fund to July, 1879; which loan he proposes to spread over four years, commencing by a tax levy in 1880, one-fourth of said loan to be assessed each year. This suggestion meets with my full indorsement, as I trust it will with your approval, and as it is necessary this change be brought about, I would recommend that it be done without delay.

UNCOLLECTED TAXES AND "TAXES AND CITY BIDS."

At the date of my last annual address the uncollected taxes from 1846 to 1870, inclusive, were placed at \$12,000, the actual amount being \$12,917 64; during the past year there have been collected of these the sum of \$3,273 09, thus reducing these old matters nearly one-third. The following figures show the amount of uncollected city bids at March 31, 1870, with the subsequent sales and collections to December 31, 1878:

On referring to the trial balance of the City Treas-
ury, I find several accounts which have remained in
the same condition in the ledger for some years, and
being worthless would be better closed out. If only to
save time and the material necessary to record them
month after month. I refer, among others, to the
Fire and Marine, Life and Accident Insurance taxes of
1871. There are also the worthless personal taxes of
1875, '76 and '77, which being worthless or uncollect-
able, the Controller should be empowered to charge
them back to their respective funds according to their
several interests in the same; and if any
other obsolete accounts cumber the books of
the city. I would recommend that a committee
with the Controller and the respective heads of the
offices in which such accounts are found, be em-
powered to examine and dispose of the same for the
best interests of the city. I respectfully refer you to
my remarks on this subject of a year ago.

\$ 316,583 95
Of the receipts, \$41,987 01 were from city tax levy,
the balance from the ordinary resources of the board,
mainly water rates.

Of the amount expended \$96,000 were for the pay-
ment of bonds matured August 1, 1878; \$108,678 61
for interest on bonded debt; \$97,549 78 for construc-
tion and current expenses.

The total pipeage of the works is 1999½ miles, of
which eight and one-half miles were laid the present
season.

The total quantity of water pumped in 1878, was
4,943,559,390 gallons.

In reply to my inquiry as to the necessity of the
board issuing \$300,000 in bonds January 1, 1876, I re-
ceived the following answer, which I deem of interest
to our citizens, as this matter has been much com-
mented upon:

Hon. George C. Langdon, Mayor of Detroit:

DEAR SIR—I have the honor to acknowledge the
receipt of your note of the 8th inst., inquiring "why
\$300,000 in bonds were issued by the Water Board,

June 1, 1876, with a balance in bank January 1, 1876,
of \$111,808 10, and July 1, 1876, a balance in bank of
\$163,532 43."

In reply I beg leave to say that while \$300,000 of
the bonds sold in 1876 bear date June 1, 1877, but
\$100,000 were sold at that date; the other \$100,000
were sold in October 1, 1876, accrued interest being
paid by purchasers.

The only reason I can imagine why the board sold
these bonds is that in the exercise of their best judg-
ment, they deemed it necessary to meet their obliga-
tions incurred in the building of the new water works.
Their opinion was based upon the existing contracts
and the carefully prepared estimates of their chief
engineer. The failure of contractors, contrary to the
expectations and despite the efforts of the board, left
a balance in bank at the close of the year much
larger than it would have otherwise been. A consid-
erable portion of that balance was retained percentages
of contract prices. I send herewith a copy of the es-
timates mentioned. It will be seen that the
sum estimated by the Chief Engineer to be ex-
pended for the new works in 1876, was \$490,845 76.
The actual expenditures were \$336,493 68. Take the
difference (\$33,853 08) from the bank balance Jan-
uary 1, 1877 (\$98,921 25), and there would have been
on hand then but \$15,068 17.

It may be proper to say that this same matter was
the subject of inquiry before a special committee of
the Council appointed at the instance of Ald. Hawley,
and of which he was chairman in June, 1877. After
taking testimony the investigation was discontinued.
No report was ever made. I take the liberty of
sending you a statement in regard thereto signed by
two of the members of the committee (the only ones
I have seen since receiving your letter).

Your obedient servant,

HENRY STARKEY, Secretary.

Henry Starkey, Secretary Water Board:

Sir—In answer to your inquiry, I have to say, that
we were members of a special committee of the Coun-
cil of June 18, 1877; that the matter of the issue of
bonds of the board in 1876, with reference to the
necessity of such issue, was gone into, and the evi-
dence taken fully sustained the action of the board.
That and several other charges were so fully met that
the whole matter was abandoned and the committee
never reported.

Yours etc.,

JAMES D. WEIR,
SEYMOUR FINNEY.

Taking into consideration that the members of this board are subject to changes (by death, resignation or other causes) as are the other boards of the city, the large amount of money at their command and for which the city has no security, sound policy would dictate that the members of this board should furnish sureties adequate to indemnify the city against loss; and to preserve the propriety of asking sureties for positions in the city, the city I consider it, however, worthy of consideration in view of the chances that are liable to occur.

PUBLIC SCHOOLS.

The cost of the High School building as taken from the record of the Board of Education, June 27, 1873, was \$30,400 85; cost of maintaining same, \$18,756 56; teachers' salaries, \$15,650, not including any portion of the Superintendent's salary. With a seating capacity as at present provided for 710 pupils, with the cost of maintenance, is for each pupil attending the High School \$26 41½, the teachers' salaries only (they calculating 28 41½ for each pupil) the report of the Board of Education of June 27, 1873, gives the cost per pupil \$30 80. Besides the English branches the pupils are educated in "Virgil," "Latin Prose," "Orations," "Cicero," "Roman History," "Greek Prose," "Drawing," "French" and "German" all of which are unnecessary for an ordinary business education. from these roads) has ceased to be necessary to defray the expenses of the State, and there seems to me to be no reason why the property of the railroads within the city limits should not be subject to the same taxation as the property of individuals. This is the rule in New York, and the New York Central Railroad is taxed in each township and city through which it passes; and in my judgment it is time the cities and towns through which these roads pass in our own State should take this matter in hand. I would respectfully recommend that this subject be referred to the City Counselor and City Attorney, and if they report that it is within the power of the Legislature (as I believe it to be) to return *all* the railroad property in the city to the city for purposes of taxation, then I would recommend that a memorial be prepared from the city government to the Legislature asking that this may be done. If granted, it will add several millions of taxable property to our tax lists and so far diminish the taxes of every one of our citizens.

The fact that the State derives so large a revenue from the railroads centering in our city and for privileges that are no more valuable (if as valuable) than those accorded to them by the city, is calculated to make the city alive to its interest and its rights in this matter, and inasmuch as the net debt of the State is only \$359,149 97, while the net debt of the city is \$752,317 57, or only about \$300,000 less than the whole debt of the State of Michigan and the proportion of the State taxes paid by the city, is twelve and a half to fifteen per cent., it is not just nor right that such valuable property enjoying local advantages should be exempt from local taxation, because the State reserves a prior right from the companies owning such property. I trust I will not be misunderstood in this matter. I am speaking for the interest of the City of Detroit and from a strong conviction that our city should derive some pecuniary benefit in the way of taxes in return for the valuable franchises and protection extended to these roads.

The Board of Public Works, as it is one of the most important branches of our city government, should not too closely be restricted to the amount of money it should expend during the year. The season has much to do with its expenditures; with a late spring and an early winter less money would be needed for practical improvements, repairs and cleaning of streets, than would be required were the season longer; for that reason it is almost impossible to form an accurate estimate of the amount of money needed by the expenditure of a previous year.

Your officers feel very much annoyed, knowing that certain improvements should be made, streets cleaned, men begging, almost, for work, and they are powerless for the reason that the appropriation is exhausted.

Our citizens enjoy having our streets, side and cross walks clean and in good repair. They feel complimented when strangers remark as to the cleanliness and neatness of our city (as is very frequently the case).

If our citizens will look more closely into the workings and expenditures of this board, the vast territory under their supervision, and take into consideration the amount of money required to do their work with any sort of satisfaction to themselves as public servants or the public at large, our citizens generally will award them the credit they deserve. There being no apparent necessity for improvements of greater magnitude, the board have confined themselves during the past year principally to road work, paving and the construction of sewers.

THE PUBLIC SERVICE.

"Eternal vigilance is the price of liberty." These are words that come home to us, breathing almost the spirit of inspiration and a most solemn warning. Vigilance untiring is the only price commensurate with a boon so dear to us and so dearly purchased. What is true of liberty is equally true of good government. The same causes which destroy the one will as surely undermine the other, and watchful care can alone avert these evils. We speak of good government generally, having special reference to the national or State administration thereof; but I appeal to you, my fellow-citizens, who have here your business enterprises, your families and homes, have you not a deep and abiding interest in good local government, and the proper administration of our city's affairs? Who can estimate the benefits that accrue to

us in our business relations at home and abroad from the enviable reputation our city has attained by economy and good faith in the conduct of its finances and the absolute security guaranteed to life and property in the wise administration of its laws? It belongs to every good citizen to ask himself the important question: How far have I, by my individual efforts, contributed to such good results and what effort am I making that these may continue to be to us a source of pride and a blessing?

The principles upon which the government of a city is established become of little consequence if such principles are to be ignored and disregarded by those to whom their administration is confided. How important it is then that the public service should command competent and faithful officers to whom we commit public trusts with the same confidence that we would commit trusts affecting our own private business affairs. The public officer holds the same relation to the public whom he serves as the trusted agent does to his principal, and his appointment to office should proceed from the same sources which originate the relations of principal and agent and ordinary business life.

Who of our citizens will permit another to appoint for him an agent to conduct a business in which both are equally interested? And yet this is what we too often see in public affairs when taxpayers and business men carelessly absent themselves from the primary meetings called to nominate public officers.

When the fruits of this bad system shall have ripened for us a harvest of evils it will be too late a time for our citizens to realize the importance of their fulfilling their whole duty in this regard.

BOARD OF PUBLIC WORKS.

PAVING.—One hundred and nine thousand one hundred and seventy-six one hundredths the square yards of wood pavement and 37,618 28-100 square yards of stone pavement (of which 7,085 88-100 square yards were Medina stone) were laid in 1878, and measured in length eight and three-quarter miles and cost \$173,521 21, or an average of about \$1 18½ per square yard. In addition to the foregoing twenty-one alleys were paved with cobblestone, and contained 18,196 46-100 square yards and measured in length one mile and 3,288 feet and cost \$18,489 03, or an average of \$1 01½ per square yard. Ninety miles and 3,436 feet of street pavement has been laid in this city since 1849 which cost \$3,049,314 12. In addition to the above, ten miles and 1,027 feet of alleys have been paved, which cost \$165,227 26 in all expended since 1849. One hundred miles and 4,463 feet of pavement at a total cost of \$3,214,541 38.

SEWERS.—Public—Two miles and 638 feet were constructed in 1878 and cost \$43,619 27, or an average of about \$3 93 per lineal foot. Included in the above amount is the cost of constructing an outlet at the foot of Randolph street which materially augmented the cost per foot for sewers.

LATERAL SEWERS.—Seventy-one lateral sewers or seven miles and 436½ feet were constructed during the past year and cost \$18,457 74 or an average of about 49½ cents per lineal foot. Since 1835 seventy miles and 3,916 feet of public sewers have been constructed which cost \$1,841,298 94 and in addition thereto, eighty-five miles and 486 feet of lateral sewers were constructed and cost \$468,781 25, making a total of 155 miles and 4,382 feet of sewerage in the city, at a cost of \$2,310,090 19 expended for sewerage purposes.

RECEIVING BASINS.—Ninety-five receiving basins, 182 pipe basins, 24 grates and 8 patent traps were constructed, and cost \$12,539 99. To construct these basins and make the necessary connections therewith it required 10,270 lineal feet of 12-inch pipe, 1,102 lineal feet of 9-inch pipe, and 302 feet of 4-inch pipe; also 884 curves, branches and traps. Most of these basins were constructed on streets preparatory to paving the same.

REPAIRING PAVEMENT.—The board caused to be repaired in 1878 64,144 square yards of wood pavement, of which 37,630 square yards were in the Eastern District and 26,494 square yards were in the Western District, and cost \$11,967 02, or an average of 16½ cents per square yard. In addition thereto 24,638 square yards of stone pavement were repaired, and cost \$2,132 80, or an average of about 8½ cents per square yard.

Owing to the large amount of travel on Woodward avenue, between Grand River and Jefferson avenues, the board has been compelled to constantly keep laborers thereon in order to keep the pavement in a passable condition. This avenue requires and should be repaved as early as practicable in the spring.

PLANK AND STONE CROSSWALKS—Three thousand five hundred and twenty-five and a half lineal feet of plank and 9,880 square feet of stone crosswalks were constructed, and in addition thereto 6,904 square feet of stone and one mile and 178 feet of plank intersection sidewalks were constructed.

PLANK AND STONE SIDEWALKS—Twelve miles and 1,178 feet of plank and 82,871 square feet of stone sidewalks were constructed in 1878.

GRADING AND WORKING STREETS—The streets in the several wards worked and graded the past year measured 78,930 square rods and cost \$2,890 28, or an average of about 18½ cents per square rod.

CLEANING PAVED STREETS—The paved streets in the several wards cleaned during the past year measured about 240 miles or 3,772,425 square yards and cost \$13,478 15, or an average of about \$56 18¾ per mile, or three-eighths of a cent per square yard.

PAVEMENT.

Of the ninety miles of streets paved in our city fifty-eight (58) miles are of wood. I have not changed my views as to the extravagance (though seemingly cheap) of wood pavements since my last message. I have repeatedly remonstrated against any being laid the past year. Our citizens demanded them. I shall be much pleased if they do not prove a source of great expense for repairs in the years to come.

THE FIRE COMMISSION

Is under the same official control as a year ago. I can only repeat what I said at that time. It needs no commendation at my hands, or in fact from any quarter; the department speaks for itself; its economy, discipline and equipments, with its complete system of electric fire-alarm telegraph, are unsurpassed by any department of its size in the country. The valuation of the department property is \$365,190 50, with no debt of any kind.

The department consists of 117 officers and men, uniformed, drilled and disciplined. The territory of this department comprises 13 44-100 square miles, to protect which it has eight engines, two chemical engines, two hook and ladder companies, besides two extra engines and hose carts equipped as a reserve. The commission commend very highly the office of Fire Marshal, lately created, any say at no time in the history of the city have the ordinances governing fire prevention been so well enforced, and regard it as an indispensable economy.

POLICE DEPARTMENT.

I have been unable to procure any data from this board not contained in my last message. Nor have I changed my opinion in regard to the propriety and advisability of the city governing itself without any interference or influence from the State in its municipal appointments and management. The gentlemen comprising this commission are well-known citizens, and need no landations from my pen.

Owing to the fact that the fiscal year does not close until February 1, I am unable to give the profits of the House for the past year at this time.

I notice Gov. Croswell alludes in his message to the refusal of the authorities of the House of Correction to receive female prisoners sentenced from parts of the State other than the County of Wayne.

The Governor neglected to refer to the fact that an imprisonment in the House of Correction in such

cases, in the absence of a contract with the Commissioners of the State Prison for the keeping and custody of such offenders, would be illegal, and the city would be without redress to recover compensation for such keeping.

CITY ACCOUNTANT.

The propriety of creating this office has been fully demonstrated to our citizens. There can no doubt exist now in the mind of any candid person that had the office been made 20 years ago it would have been the means of saving to the taxpayers of the city a very large sum of money. Remove the pecuniary saving from the argument, the simple, though very important fact, that the taxpayer (the same as the merchant in his counting-room) knowing that the municipal books are correct, is worth a great deal more than the office costs the city.

CITY POOR.

We have them with us always. My views in regard to this subject have not changed one iota, since a year ago. I thought then as I think now, that the system as conducted is all wrong. If there is any propriety in the city's buying wood for the poor, is there any reason why the city should not buy other commodities necessary for their support? I am in favor of purchasing everything needed at the lowest prices they can be had for, distributing them from a store-room furnished for that purpose; registering every name that applies for aid, and if any doubt is entertained as to the person being worthy of help, withhold it until the doubt is substantiated or removed.

The Association of Charities, inaugurated last winter, adopted a system of personal visitation, by which the advantages of such system were clearly established; a marked decrease in the number soliciting aid from house to house, and many unworthy ones were exposed by them, and the aid which would otherwise have been given to the unworthy was extended to those who needed it. I respectfully ask my fellow-citizens to give this association all the aid in their power. There are many worthy poor among us whom our citizens would be willing and glad to relieve, but they are so often imposed upon they hardly feel safe in extending aid to any. The proper charity is that which discriminates in the distribution of its bounty between those who are and those who are not worthy.

THE BOARD OF CHARITIES AND CORRECTION.

Under the management of Mr. Bradford Smith, is in my judgment productive of much good to the city as well as to the children over whom he has supervision. The number sent to the House of Correction through this board is 40; the number sent to the Reform School, 100; the number discharged under suspended sentence, 230; the number of offenders brought before the board by parents and others interested in their welfare for advice, correction or assistance is about 400. The parties referred to are boys and girls under 16 years of age. It occupies most of his time in looking after the well-being of this class, visiting their places of abode and in conversation. All this work has been done for years without one dollar of remuneration from the city. Can our citizens ask that it should be done so much longer? Will they pay for a portion of the good accomplished? The results of his philanthropy have been his only remuneration thus far. The merit of his work is universally conceded; which recognition is unquestionably a source of pleasure and gratification to the commissioner, would it not be fair and is it not time that a more substantial recognition was given to his labors by a fair compensation therefor?

THE SANITARY CONDITION

Of our city is unexcelled, if equalled, by any city in the Union of its population. In 1876, with an estimated population of 114,152 the number of deaths were 1,908, or 17.49 per 1000; in 1877, estimated population 115,203, the number of deaths were 1,955, or 17.04; in 1878, estimated population 119,921, the number of deaths were 1,535, or 12.91—estimating the month of December in 1878—and showing 420 deaths less in 1878 than in 1877. This estimate is taken from the Water Board books, allowing or adding thereto 5,000 for floating population.

The following tabular statement shows the relative number of cases of small-pox, measles, scarlet fever, intestinal diseases and cholera infantum for the years above given, showing a marked decrease in all except scarlet fever, and a marked increase in that dis-

case since 1876; and I am informed that it is as prevalent in the higher grades of life (where the atmosphere and sanitary condition are as perfect as may be) as it is among those of lower degree:

Diphtheria.....	29	55	39
Typhoid fever.....	40	55	30
Intestinal.....	122	92	66
Cholera infantum.....	126	87	74

It is a subject most worthy the careful investigation of our medical experts.

ORDINANCES.

It occurs to me our citizens do not rightly consider this matter. I am inclined to think they, as a general thing, feel about them as I did before I had (or took) any particular interest in their enforcement. We meet our acquaintances in the street and complain to each other for an hour at a time about something that we think is, or is wrong, but we would not spend five minutes of our time to go into the City Hall and report to the proper officers our grievances. We take it for granted that such a man is Mayor, such a man is Superintendent of Police, such men are members of the Board of Public Works, we pay them and why in the name of all goodness do they not attend to the matters?

When I assumed the position I now occupy, I presume I took as little active interest in municipal affairs as any of our citizens. I am sorry to feel obliged to make such an acknowledgment; it is a fact, nevertheless, and I am inclined to believe there are scores of our best citizens who feel to-day as I did then. Since I have assumed the responsibility of office I can see clearly the trifling influence I might have brought to bear to aid the several officers in the discharge of their official duty; would, if all had done likewise, have made their duties much lighter, more pleasant and the general result would have been decidedly more satisfactory to our citizens at large.

It is the duty of, and it should be the pleasure of, every good citizen to assist their officers as much as in their power, to respect and see that their neighbors respect the ordinances as they exist (if they are not too burdensome, and, if so, there is a proper way of having them amended), and to assist their officers as much as in their power to enforce them. Without such co-operation on the part of our citizens it is impossible to have good government, and I can assure each and all of our citizens if they will in a business way call the attention of any official to any matter that should be mended (either by letter or word of mouth), it will receive prompt attention, or, if they will communicate with me by letter, I will hold myself responsible for the result.

With our book of revised ordinances the citizen and officer can see at a glance what the duty of citizen and officer is, and become familiar with that duty. With continual change, it is utterly impossible to keep familiar with them, and for that reason, if no other, ordinances should be changed as seldom as possible.

In regard to the violation of an ordinance, the penalties in each case should be sufficiently heavy to enable the court in its discretion to impose such fines as will do away with the disposition now shown in many cases to pay the penalty as a matter of economy rather than comply with the terms of the ordinance.

I contend an ordinance should be enforced or repealed and I assure my fellow-citizens I shall most rigorously and impartially enforce every and all ordinances on our statute books. If any are burdensome they will the sooner be amended.

GAZ.

What shall be said of it, an inexhaustible subject and a source of annoyance wherever used? Our citizens, particularly, have been much interested in this subject during the past six months. They, I believe, have none to blame but themselves for the inconveniences they have been subjected to during that time. Their representatives so reduced the appropriation for lighting our streets that their officers had no recourse except to light the city as it has been lighted for the past six months, or have our streets in total darkness a portion of that time.

The litigation begun about one year ago, by the Mutual Gas Light Company, to enjoin the city from repealing its charter, is now at issue in the United

States Court, and will be decided probably before many days. Pending such decision the city should remain in a position which will not prejudice any of its rights. When the decision is finally made, either favorable or unfavorable to the position taken by the city, the consideration of this matter, affecting so general a public convenience and interest, will then demand thoughtful consideration and prompt action. By what appeared from the action of the companies, in creating a monopoly in our city, the only redress left the city was to seek an adjudication of its rights as has been done, and I believe such action receives the unanimous approval on the part of our citizens. The means adopted to create this monopoly, and the defiance bid to public right thereby, will justify such action on the part of the city as will frustrate a scheme so palpable in its object.

As a citizen, and on behalf of many others of our citizens who have received like insult and abuse from the representatives of the Mutual Gas Light Company, I desire to enter a protest against the unjust and unwarranted manner in which the business of that company is conducted. I appreciate the fact that as a city government we cannot intervene to regulate the manner in which citizens shall deal with each other, but in the case of citizens or corporations having contract relations with the city, intending to give protection to the citizen, and to insure him fair and honest dealing, I believe it to be our duty to see that such contracts are rigidly enforced. One of the unwarranted acts (and it is only one among many) perpetrated by the corporation referred to, and of which there is frequent and just complaint on the part of our citizens, is the threatened refusal of the company to receive, without percentage, money tendered them in payment of private bills, by those who are present in the office of the company, in the afternoon preceding the day upon which per centage accrues, and prepared to pay such money. I trust we shall not much longer have to submit to such dictation and unwarranted arrogance on the part of the representatives of this corporation.

"OLD FOGY."

Our city has long had the reputation of being an "old foggy town," much to her benefit and credit. Its bonds always command a premium; it could borrow millions to-morrow, but it never will borrow a dollar. Generally speaking, the reputation of her business men corresponds with that of the city—their "word is as good as their bond"—old foggy in business as well as in town, until the business warranted moving out of the old store into the new, to accommodate the increased business brought to the doors of our merchants by their frugality and economy when the business was young. Who that has not visited our city in the last thirty years would recognize the City of Detroit to-day?

The growth in wealth and population of the City of Detroit will warrant its moving out of its perhaps too conservative ways into paths that are more progressive. When we take into consideration, as we must, the expenses of our city with its new population of 190,000 as compared with its population thirty years ago; the difference in the desires of our citizens now as compared with those of that time; the many conveniences enjoyed by them now, of which they at that time were deprived, and the comparative expenses of our city with cities of its own size and importance around us, who will not say ours is an economical city? Too close calculators as individuals perhaps in some things, we should hold out every inducement practicable to manufacturing interests for which our city is most admirably located and offers facilities unequaled by any other. Every manufacturing interest located within our limits adds to the wealth of all classes; they not only add to the business of the merchants, but give employment to some who are now perhaps dependent upon public charity. We should make our city as attractive as possible and not find to much fault about expenditure without proper examination. I believe in economy; but parsimony is not economy. It is not economy, but a lack of public spirit and pride to allow public parks to grow to weeds or to see them surrounded by dilapidated fences for lack of the proper appropriation to keep them in order. It is a mistaken idea of our merchants in comparing the salaries of those in their employ (who are gaining a knowledge of business and an opportunity of advancement) with those in the employ of the city government, whose

term of service is uncertain—employed to day and idle to-morrow. The city can well afford to pay a liberal compensation for services *faithfully* performed, while it is doubtful if the absence of fair compensation would command such faithful performance. On general principles men who are not successful in conducting their own affairs cannot successfully conduct the affairs pertaining to municipal government.

In comparing our per capita tax I have the following very satisfactory results from comparison, as below:

*Detroit Fire Department pays water tax, making a difference of \$17,794.56; deducting which would make the net running expenses \$84,958.38.

+Water debt not included.

Excepting the City of Detroit, street railway companies in other cities pay city and county taxes on real and personal property owned by them.

In connection therewith I give you a tabular statement which will explain itself, which I believe will be of great interest:

RECOMMENDATIONS.

The advisability of having large portions of the adjacent townships added to the city becomes more and more apparent. Persons living in such townships enjoy many advantages accorded to residents within the city without bearing a share in the burden of taxation, which such benefits entail upon our citizens. As soon as such annexation can be lawfully made it should be sought after. While our powers and authority as a city government are confined within territorial limits, this is exemplified, in the establishment of cemeteries beyond the city limits, the approaches to which are often rendered practically impassable by means of the neglect of township authorities to give proper attention to such approaches. A notable case of the nature referred to is seen in the

generally impassable condition of Fort street west leading to Woodmere Cemetery, and also the approach to Mt. Elliot Cemetery (the stockholders of which, in the first case mentioned, are reputable citizens of our city who have often pledged their word to have the approach to this cemetery put in good condition). If any measure can be adopted to remedy these evils, it should be devised at once.

I would recommend that the hack stand on Jefferson avenue be moved to the south side of the street railroad track, so as to leave a space on the north side of the track clear for travel going into Woodward avenue north and coming from Woodward avenue south. The location occupied by such stands are centers of the greatest business activity, and the vehicles standing thereon often become an obstruction to public travel. Street cars running in the same direction should not be allowed to approach each other within a distance of 100 feet. A notable instance of the necessity of enforcing this rule is presented in the case of Woodward avenue, where cars of several companies often move simultaneously upon their several tracks—for the time being, occupying the greater portion of the traveled part of such street and occasioning extreme danger to persons using said avenue and to those getting on and off said cars.

No train of cars or locomotive should be stopped across any street within the city limits, except by an unavoidable accident; in that case, the trains should be cut so as to clear said crossing. No locomotive or train of cars should be allowed to stand under any bridge or within 200 feet of any bridge or crossing within the city limits.

Toll gates now within the city limits should be removed one mile therefrom. It seems to me unjust that our citizens should be obliged to pay tribute for driving over a roadway which, in some instances, they have paid for building, and are annually taxed to keep in repair. If necessary, I would recommend that a memorial from the city government be presented to the present Legislature having this object in view.

If any public improvement could be inaugurated which would add to the attraction of our city and to the comfort and enjoyment of our citizens, and at the same time give employment and support to many worthy families who would prefer work at even moderate wages, and thereby preserve their independence, than by my judgment, public charity, I would recommend that it would be a matter of economy to the City of Detroit, besides doing without seeming to do so, a Christian and charitable work. Some years ago the project of opening a boulevard around the city was agitated. I believe now is the time to carry out that project, and early spring should find 100 or more men at work on it. If any man is not so negligent as to recommend that it be so, I believe the Legislature now in session.

Public attention has recently been called to the condition of Eleventh street, between Fort street and the river, which portion of said street is now practically occupied by the Michigan Central Railroad Company for its own private uses. Some years ago a public sewer was built in said street leading from the culvert at the intersection of Fort street. At that time the city obtained certain rights from the owners of the property through which said sewer extended, and for a long time after its completion the street remained open to public travel. Within the last few years, however, it has been exclusively occupied by the railroad company. I deem it advisable that some action should be taken immediately to assert the city's jurisdiction over the space referred to, and to determine the public rights therein.

I would recommend that the refunding of taxes be entirely dispensed with, excepting on undeniable evidence of sickness or absence from the city, demonstrated so clearly that there is no doubt about the inability of the parties being able to lay their grievances before the Board of Review.

This board is in session for the purpose of correcting all errors of this kind, and if taxpayers who are aggrieved cannot during their session (and which is the proper time) take the trouble to go before this board and have their grievances attended to, it is not right that the city should be put to additional expense on account of their carelessness and neglect.

CONCLUSION.

I extend my thanks to the members of the last Council for the courtesies I have received from them during the past year. Our official intercourse has been the most satisfactory, and, I trust, for the best interests of the city we have the honor to serve.

As officers of this city, meeting in this chamber as Aldermen of the City of Detroit, and having her best interests at heart, I take the liberty of cautioning you to lay aside all personal and party feelings during your debate.

I would recommend the business which comes before you should be dispatched with as little delay as the subject matter of them demands.

I would recommend resolutions or business of any nature should not be allowed to remain upon your table longer than two sessions at least.

No business before your body should be negatived except for good cause, as by so doing, it delays business and entails additional expense.

During the next twelve months, God willing, I shall endeavor to do my duty faithfully and fearlessly. Any action by you, as a body, which does not meet with my approval I shall not hesitate to veto—in no spirit of personal or party spite, believe me, but as my judgment dictates, for the best interests of the city we are called upon to serve.

Should you deem it best (in the same spirit) to pass any measure over my veto, I shall submit, I trust, with the courtesy befitting the office which I occupy.

I shall be pleased to consult with you on matters of import to the city or for our mutual understanding and accomplishment of such interests at the Mayor's office between the hours of 11 and 12 a. m.

I will not magnify or underrate the positions we occupy as public servants, honorable or otherwise as we fulfill or do not fulfill the trusts reposed in us.

We serve our State and whole country by serving our city well and faithfully.

COMMON COUNCIL.

[OFFICIAL]

DETROIT, TUESDAY, Jan. 14, 1879.

The Council was called to order by the President,
HON. JOHN MONAGHAN.

Present—Ald. Alter, Boydell, Chene, Connor, Daly, Ewers, Finney, Foster, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—85.

Ald. Russell asked for a question of privilege, and leave being granted submitted the following:

STATE OF MICHIGAN, } ss.
COUNTY OF WAYNE, }

William H. Connor, being by me first duly sworn, deposes and says that he is a resident and Alderman of the Sixth Ward in the City of Detroit; that as such Alderman at an irregular session of the Common Council of said city, held in the Council Chamber of the City Hall of said city on Wednesday morning, January 15th instant, upon a second ballot therein had for President of said Council, he delivered to the teller and voted a ballot bearing on one side in writing, in ink, the following words, to wit: "For President, John Monaghan," and on the other side in his own handwriting, in pencil, the following words, to wit: "Preston, F. G. Russell," said ballot is by him to state in evidence, fully identified and sworn to as the actual ballot, by him cast, in said election. He further says that said ballot was handed to him with said writing thereon as aforesaid, and he omitted to erase the same before writing thereon himself and voting thereon as aforesaid that said ballot should have been counted for said Russell and not for said Monaghan, and further saith not.

W. H. CONNOR.

Sworn to and subscribed before me this 17th day of
January, A. D. 1879.

THEO. OTJEN,
Notary Public,
Wayne County,
Michigan.

STATE OF MICHIGAN, }
COUNTY OF WAYNE, } ss.
Francis G. Russell, being by me first duly sworn, de-
poses and says that he is Alderman of the Fifth Ward

in the City of Detroit, and as such was present at an unlawful and irregular session of the Common Council of said city in the Council chamber of said city on the morning of Wednesday, January 15th inst., and that at such session acted as teller for collecting and counting the ballots cast for President of said Council; that the second ballot taken for said office showed that John Monaghan received thirteen out of twenty-five ballots, and that said Monaghan was then, upon the direction of the City Attorney, declared elected by the Clerk of said Council. Deponent further says that he protested against said declaration by said Clerk at the time, and believing that said Monaghan was not elected and that there was occasion to examine the ballots cast upon said second ballot, took all of the said ballots into his possession, and that all of said ballots excepting one marked "A," attached to the affidavit of Ald. Connor, herein referred to, are hereto attached; that said ballots have remained in possession of deponent from the time of his taking them into his possession until the present time.

Deponent further says that Alderman Haller, of the Ninth Ward, was another teller upon said occasion, and received the ballot of Alderman Connor, of the Sixth Ward. Deponent further says that at the time of the taking said second ballot he did not examine both sides of each ballot to determine whether there was writing on both sides or not. He further says that he has read the affidavit of Alderman Connor's identifying the ballot by him cast on said occasion, and knows that the ballot therein described and identified is one of the ballots which was voted on said occasion and counted for said Monaghan.

Deponent further says that he does not believe that the said Monaghan was lawfully elected the President of the said Council, and he protests against his acting as such.

F. G. RUSSELL.

REPORTS OF COMMITTEES.

On leave the committee of investigation on the election of President reported as follows:

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee to whom, with the City Counselor and City Attorney, was referred the affidavits of Aldermen Russell and Connor, relative to the ballots cast for the election of President of the Common Council at the session held on the evening of the fifteenth day of January, A. D. 1879, would respectfully report as follows:

We find from the ballots cast on the final vote, and preserved by Alderman Russell, one of the tellers, that there were twenty-five votes cast, as follows:

Twelve for John Monaghan.

Three for F. G. Russell.

Three for Paul Gies.

Two for Chas. Ewers.

Four were blank ballots and one contained the names of John Monaghan and F. G. Russell.

We find that the last mentioned ballot was cast by Alderman Connor, of the Sixth Ward, and was counted for John Monaghan, whereas the same should not have been counted at all.

Your committee deem it a duty to condemn the action of the teller who assumed to take possession of the ballots cast. Such action was entirely unwarranted, and to a large extent seems to destroy the secrecy which voting by ballot is intended to guarantee. Although in the case before your committee the action of the teller has resulted in disclosing a mistake, yet the precedent is one from which serious

evils may result, and tends to deprive the voter of a valuable privilege.

Respectfully submitted,

SIMON C. KARRER.
CHAS. M. ROUSSEAU.
WILLIAM C. MAYBURY,
City Attorney.

F. A. BAKER,

City Counselor.

I approve of the above report except so far as it assumes to call in question the action of Mr. Russell, one of the tellers on the occasion therein referred to. Respectfully submitted,

SEYMOUR FINNEY.

Accepted and adopted.

Ald. Monaghan then addressed the Council as follows: Gentlemen of the Council:

In justice to myself I may be allowed to say that in assuming to exercise the duties of President of this Council, I supposed I had received a majority of the quorum then present, but after hearing the evidence taken by the special committee, and the report of that committee, by which it appears that I only received twelve votes that could be legally counted, I therefore relinquish the office, hoping that the Council will be able to perfect its organization at this session, and resume its functions as a part of the city government.

Ald. Jacob, President pro tem., took the chair.

Ald. Mitchell moved that the resignation of Ald. Monaghan be accepted.

Carried.

Ald. Mitchell moved to proceed to elect a President.

Carried.

Ald. Foster and Gross were appointed tellers.

FIRST INFORMAL BALLOT.

Whole number of votes cast, 26, of which Ald. Ewers received 14, Ald. Monaghan 11, blank 1.

FIRST FORMAL BALLOT.

Whole number of votes cast, 26; of which Ald. Ewers received 14; Ald. Monaghan, 12.

On motion Ald. Monaghan and Ald. Finney were appointed to escort the President to the chair. Ald. Monaghan declined. Ald. Ryan was substituted.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE MAYOR.

To the Honorable the Common Council:

Gentlemen—I most respectfully ask your honorable body to pass a resolution prohibiting any person to hitch a hand-sled behind a vehicle drawn by a horse for the purpose of said persons riding upon said hand-sled. Also prohibiting any person from coasting or sliding down, or on any sidewalk or street in the city to another sidewalk or street. In view of the many accidents happening to children in other cities (and the same are liable to occur here) and inasmuch as parents do not seem to realize the danger of such pastime to their children, I deem it my duty to call your attention to this matter.

Very respectfully yours,

GEO. C. LANGDON,
Mayor.

Referred to the City Attorney with instructions to bring in the proper ordinance.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I most respectfully return to your honorable body without my approval each of the following resolutions adopted at your last session:

Resolved, That William A. Throop be and is hereby appointed Chief Clerk in the Assessor's office.

Resolved, That Daniel Shehan be and he is hereby appointed clerk in the Assessor's office.

Resolved, That George H. Morrison be and he is hereby appointed clerk in the Assessor's office.

Resolved, That John H. Thompson be and he is hereby appointed clerk in the Assessor's office.

Resolved, That E. C. D. Clark be and he is hereby appointed clerk in the Assessor's office.

Resolved, That John W. Thomson be and is hereby appointed Assistant Receiver of Taxes.

Resolved, That William Boenninghausen be and he is hereby appointed clerk in the office of Receiver of Taxes.

Resolved, That James McKay be and he is hereby appointed clerk in the office of the Receiver of Taxes.

Resolved, That Conrad Bettinger be and he is hereby appointed clerk in the office of the Receiver of Taxes.

Resolved, That John E. Hurst be and he is hereby appointed clerk in the office of the Receiver of Taxes.

Resolved, That Hiram S. Finney be and he is hereby appointed entry clerk in the Controller's office.

Resolved, That Josiah J. Norris be and he is hereby appointed book-keeper in the Controller's office.

Resolved, That John F. Martin be and he is hereby appointed clerk in the City Treasurer's office.

Under an ordinance authorizing it the persons now holding the clerkships or positions mentioned in said resolutions were nominated and recommended by the Controller, Receiver of Taxes and the Assessor respectively, and said recommendations were concurred in by the Common Council.

The ordinance in question does not contemplate any change in the clerks appointed under it during the term of the officers making the nominations, except for misconduct reported by the officer to the Common Council. The ordinance only requires the heads of departments to recommend suitable persons for subordinate positions in their respective offices at the commencement of their official terms, and is based upon the theory that the responsible head of such office or department who has given bonds for the faithful execution of the duties of his office shall have a voice in the selection of his clerks and assistants, for whose conduct he is officially responsible and subject to liability on his official bond.

I do not understand that the clerkships mentioned in the above resolutions are offices within the meaning of the charter, or that the incumbents thereof can be regarded as officers. I can find no ordinance or resolution of the Common Council creating any such offices, and in the absence of any such action the clerks in question must be regarded as occupying contract relations with the city rather than official. They are mere employees, and under the express and implied terms of their employment are subject to discharge at any time by the city, but as they are not officers the question whether they shall be discharged

or not comes within the veto power of the Mayor the same as any other matter concerning the contracts of the city.

Disapproving, as I do, of any interference with the clerks in the offices named, unless at the request of the officers themselves, and believing that the ordinance to which I have referred is correct in its policy, and that it should be enforced, I deem it my duty to veto each of said resolutions, and trust that upon a reconsideration of the same your honorable body will see the injustice of forcing a clerk upon any city officer, especially those who are required to give official bonds.

Very respectfully,

GEO. C. LANGDON, Mayor.

Detroit, January 24, 1879.

Ald. Monaghan moved that the communication be received and that the resolutions therein referred to be reconsidered.

Ald. Russell moved to lay the whole matter on the table.

Carried.

FROM THE CONTROLLER.

The following approved account is respectfully submitted:

Hubert Brossard, second estimate on wood for city poor, Western District.....\$738 27

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE RECEIVER OF TAXES.

To the Honorable the Common Council of the City of Detroit:

Gentlemen—Certain persons appointed as assistants in the office of the Receiver of Taxes have made personal demands upon me to be installed in the positions to which they were sought to be appointed. Under all the circumstances I deemed it my duty to refuse to accept the services of such parties until the opportunity could be afforded me of presenting my protest against the action taken by your honorable body in the premises. It is well known to you that my official bond is for a large amount, and it is but reasonable to suppose that the sureties thereon contemplated a contract to protect the city against any unlawful acts, and those amenable to me, and not to protect the city against the acts of persons strangers to me and in whom I have no reasons for reposing confidence.

Of the persons appointed by your honorable body three are entire strangers to me, and two but slightly known. Nor is it calculated to inspire confidence that one of such appointees presented himself for duty while under the influence of liquor.

The present corps of assistants are persons who hold appointments under my recommendation, and for their acts I am legally responsible. I am not aware that either of said assistants have been guilty of any malfeasance or misfeasance in office, nor are they charged with incompetency or neglect of duty. I therefore most respectfully but earnestly protest against what, in my opinion, is at once an injustice to myself, my sureties, and the present employees in my office, and request your honorable body to reconsider your action of the last session, so far as relates to the appointments aforesaid.

ROBT. E. ROBERTS,
Receiver of Taxes.

Accepted and placed on file.

FROM THE POLICE JUSTICE.

To the Honorable the Common Council:

Gentlemen—On the 14th instant, as a matter of duty imposed upon me by an ordinance of your body, duly approved on the 18th of July, 1877, I caused to be presented to you for consideration a communication nominating James Daly, Esq., as Clerk of the Police Court of Detroit.

No action of which I am advised has since been taken upon the same. I am, therefore, led to believe that the gross breach of the rules which govern and regulate official intercourse between departmental officers, by which my said communication has not been, as yet, acted upon, is the result of an oversight of your honorable body in the confusion incident to the inauguration of a new Council.

Believing, gentlemen, that respect for the position I now hold, as well as respect for your honorable body, forbids that this slight should pass

unnoticed. I am convinced that nothing further is required than to again call your attention to the subject matter of said communication, to insure it a respectful consideration at your hands.

I therefore, gentlemen, respectfully, again recommend and nominate for the office of Clerk of the Police Court of Detroit, James Daly, Esq.

Very respectfully,

JOHN MINER,
Police Justice.

Ald. Monaghan moved to accept the communication and lay it on the table for one session.

Ald. Russell moved to amend, to receive the communication and place it on file.

Carried.

Ald. Gies moved to reconsider the vote by which the communication of Justice Miner was placed on file.

Carried.

The question then being on the motion to table the communication for one session, the same prevailed as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—None.

FROM THE COUNTY TREASURER.

To the Honorable the Common Council:

Gentlemen—The Collector of the Third Ward not having filed his official bonds with this office, as required by law, I desire to call the attention of your honorable body to the same, that you may take such action as is necessary in the matter.

Respectfully submitted,

CALVIN B. CROSBY,
Wayne County Treasurer.

BY ALD. MONAGHAN.

To the Honorable the Common Council:

The undersigned, sureties on the official bonds of the Controller, Receiver of Taxes and Assessor, respectfully protest against the action of your honorable body in removing the subordinates employed in the offices of the officials named and who were appointed on the recommendation of said officers. Our confidence in the ability and integrity of the gentlemen referred to has not abated, but your recent action has entirely changed the nature of their obligations and of ours as their sureties. By a custom long observed and which was in terms formulated in an ordinance now in force, the incumbents of city offices were required, on qualifying for their official positions, to submit to your honorable body the names of parties they desire to have appointed as their subordinates. In compliance with this custom and the ordinance in that behalf made, the present incumbents submitted such names, which were duly confirmed by your honorable body and the parties entered upon their employment. Under such circumstances and confidently expecting a continuance of a custom and rule which both experience and reason approve, we were requested to become sureties on the official bonds of the gentlemen holding the official positions hereinbefore mentioned. The recent action of your honorable body in appointing as subordinates to the persons named persons to them entire strangers, and in whom they have no reasons for reposing confidence, has so changed the nature of our contract that it is neither just to the incumbents or to us. We, therefore, request that your honorable body rescind your former action or take such steps as will relieve the incumbents and ourselves from further responsibility on the bonds filed with the City Clerk.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

Gentlemen—The general fund will be nearly or quite exhausted by the close of the present fiscal

year, which terminates on the 31st of the present month.

The reduction from the estimates for this fund (as determined upon by your honorable body) which were made last spring by the Board of Estimates, together with the large increase in the expense of printing, occasioned by the publishing in the German language of all official proceedings and advertising, most of which has heretofore been in synopsis only, are the principal causes why this fund is now in so weak a condition; but since the State law, as at present in force, requires such printing in the German language, and to have done otherwise would have affected the legality of our tax levy, this could not have been avoided.

It is well known that the city charter forbids the drawing of any warrant after the fund constituted and raised therefor has been exhausted, and all contracts made against an exhausted fund are void as against the city. The general fund having almost entirely exhausted, not only all its cash collections and resources, but having also availed itself of that provision of the charter which permits the borrowing of money to the extent of its appropriation balance, will at the beginning of the new year be entirely unable to pay, or even contract a debt against it, and this helpless condition must continue until the Board of Estimates meet again in the spring and new appropriations are made, when an immediate recourse must be made to the borrowing clause of the charter, to provide means to pay expenses until the taxes of 1879 fall due, on the first of July next.

The interest fund is in a like condition. It is hardly necessary to enter into any extended explanation of the cause. It is due to the non-collection of worthless personal taxes for several years back, and that provision of the charter which forbids the levy of a greater amount of money for interest purposes than falls due during the year, for which such levy is made.

This difficulty with the interest fund might be very properly and thoroughly remedied by the acceptance of the \$25,000 surplus funds tendered by the Superintendent of the Detroit House of Correction, or at least a portion of them, if it is found that that institution could dispense with such surplus, without detriment to its future successful working. This would seem a very proper disposition of this money since the interest fund has paid in the past as it is now paying annually the interest on \$100,000 in bonds issued for the use of that institution.

To supply the deficiency in the general fund I would recommend that application be made immediately to the State Legislature now in session for an extra appropriation in the way of a temporary loan the amount of such loan to be determined as soon as the actual deficiency can be ascertained, the loan to be paid in four (4) years after 1880, each year a fourth (¼) part, which amount should be added to the tax levy. Thus the public debt would not be increased, nor would the taxpayers suffer from any extraordinary burden. The amount of this loan would depend upon whether it was to cover the expenses of three (3) months, when the new appropriations will be made, or five (5) months until July 1, at which time it is now contemplated to terminate the fiscal year. I would further recommend that the Legislature be requested to so amend the act requiring official proceedings to be published in the German language, as to require the publication of such matter only as the Common Council may direct.

I have in frequent communications to your honorable body expressed my views in regard to the custom of borrowing money in anticipation of appropriations. While, in general, I disapprove of the system, I can see no way to prevent it under the present charter. A change in the fiscal year, making such year to begin July 1, when the general tax levy becomes due, would, I believe, greatly reduce the necessity of resorting to this provision. Thus, with an adequate appropriation from the Board of Estimates, and renewed and more vigorous action in the collection of back taxes, together with a proper economy, will, I believe, soon place us beyond the reach of such necessity.

The City of Cleveland, paying no regard to appropriations, exceeded her revenue through a series of years until the amount reached the enormous

sum of \$1,800,000, for which that city has recently been obliged to issue bonds. Such an example should admonish us to confine ourselves strictly within the charter, contracting no debts beyond the cash collections in the treasury to the credit of each fund.

Respectfully submitted,

Controller.

FROM THE SAME.

To the Honorable the Common Council:
 Your Committee on Ways and Means and City Controller to whom was referred the resolution of Ald. Russell, relative to the distribution of the surplus funds of the House of Correction, beg to report as follows:

We find that the interest fund is overdrawn to the extent of more than \$16,000, with no present provisions to supply the deficiency. This deficiency has mostly arisen from failure during the last fifteen years to realize the full amount of appropriations and assessments for interest. As it is very material to the credit of the city that all interest on indebtedness should be paid promptly, we believe that of said surplus the sum of \$17,000 should be paid over and applied to the interest fund.

The balance of the surplus should in our judg-

ment go to the general fund. We therefore recommend the adoption of the annexed resolution.

F. G. RUSSELL,
 HENRY GROSS,
 A. W. RAYNOR,
 Committee.
 H. P. BRIDGE,
 Controller.

The following is the resolution:

Whereas, The Superintendent of the House of Correction has reported a surplus of funds on hand belonging to said institution and not needed for its successful operation, amounting to \$35,000, which he desires to pay over to the City Treasurer; therefore,

Resolved, That the Superintendent of the House of Correction be and he is hereby requested and authorized to check out and pay into the city treasury, from the surplus funds in his hands, the sum of \$17,000 for the benefit of the interest fund and the sum of \$8,000 for the general fund.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—25.

SPECIAL—MAJORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned, of your special committee appointed to investigate the charges made against Ald. Herrick, beg leave to report as follows:

1. That a meeting of said committee was held at Ald. Russell's office on Saturday afternoon last, the next day after the appointment of the committee, for the purpose of organization; that at said meeting it was agreed that a meeting for the examination of witnesses should be had at the Council Chamber on Tuesday, the 28th inst., and that Ald. Herrick and Ald. Chene and Lawrence Rennick should be summoned to appear, together with any other parties whom any of the Aldermen might desire to have present for examination; that Ald. Monaghan was present at said meeting and agreed to and recommended the arrangement for examination referred to; that Ald. Karrer subsequently appeared, was duly informed in relation to said arrangements, and acquiesced in the same.

2. That said parties were duly subpoenaed, and the

whole of the committee met in the Council Chamber, pursuant to adjournment, for the purpose of proceeding with the investigation; that upon being called to order Ald. Karrer and Monaghan presented the paper hereto attached and declined to serve with the committee. Ald. Herrick was present for examination and insisted that the same should proceed. Ald. Chene and Lawrence Rennie failed to appear, and, as the undersigned believe, because of the position taken by the Democratic Aldermen of the committee. In view of all the circumstances, the undersigned, repelling the insinuations of the Democratic portion of the committee and affirming their readiness to reach and report all the facts in the matter, decided to report the facts in the case to your honorable body and await further instructions.

Very respectfully,

F. G. RUSSELL,
PETER J. RALPH,
JAMES I. MITCHELL,

Special Committee.

The following is the protest above referred to: To the Special Committee on Investigation of Charges against Ald. Herrick:

The undersigned members of the committee appointed by the Common Council to investigate the charges of bribery and corruption made against Ald. Herrick, beg leave to say that they are advised that this committee has no power to issue subpoenas and to compel the attendance of witnesses, or to compel them to testify if they do attend. It is, therefore, plain that no thorough or satisfactory investigation of the grave matters committed to them can be made by this committee.

It is also important to be mentioned that the charges against the Aldermen of improper and corrupt combinations among themselves and others in relation to the matters lately occurring in the Council extended to some of the members of this committee.

These charges have been publicly made and published. Certainly, Aldermen so situated are not the proper persons to conduct the needed investigation into these matters.

For these reasons we must decline to enter upon an investigation with this committee, which can not possibly lead to any useful or satisfactory results.

Respectfully submitted,

SIMON C. KARRER,
JOHN MONAGHAN.

Accepted and placed on file.

MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned, a minority of the special committee appointed at the last session to investigate the charges of corruption and willful malfeasance in office preferred against George W. Herrick, a member of this body, would respectfully report that, after having considered the matter fully, we concluded to withdraw from the committee and our reasons for so doing are set forth in a protest filed with the chairman of such committee. We are advised that the Council has no authority to compel the attendance of witnesses, or to compel them to testify if they did attend. Investigation, thorough and complete, into the charges made is unquestionably demanded by the public. It not only censures the good name of individuals, but the honest administration of the city government. If the charges made are true, grave crimes against the public welfare have been committed, and signal punishment is due the offender. We are satisfied that a sufficient investigation of these charges can only be sufficiently carried out in the courts, where all persons having knowledge of the offense can be compelled to attend and testify fully, and where a jury of impartial citizens may pass upon the guilt or innocence of the accused. We think the proper thing to be done is to have the charges reported, referred to the Police Justice, who has authority to call witnesses, and if he finds the charges sustained to hold the offender implicated for trial.

For these reasons we decline to enter upon an investigation with this committee, which cannot possibly tend to any useful or satisfactory result.

We recommend the adoption of the following resolution:

SIMON C. KARRER,
JOHN MONAGHAN.

Resolved, That the City Counselor be and he is hereby instructed to report to the Police Justice for his action in the premises, all charges of criminal misconduct by Aldermen that have been made in the public prints of this city, that a proper investigation may be made and justice done.

Ald. Russell offered the following as a substitute for the resolution:

By Ald. Russell:

Whereas, Insinuations have been made by The Detroit Free Press and Evening News and divers and sundry persons touching the conduct of several members of this body in connection with appointments to office made or proposed to be made by the Common Council for the past and ensuing year; and,

Whereas, It is the right and duty of this body to see that all charges of corruption and dishonesty on the part of its members and of city officers generally, are duly investigated; therefore,

Resolved, That a committee of six Aldermen be appointed, composed of three Democrats and three Republicans, to be selected by the Democratic and Republican Aldermen respectively, whose duty it shall be, together with the City Counselor, to thoroughly investigate the whole matter in controversy and under criticism; to take the testimony of every Alderman, of every city officer or clerk and any other person having knowledge in the premises and report at the earliest possible date the facts to this Council, together with such recommendations as may be deemed proper under the circumstances, and that the City Counselor be and he is hereby instructed to take the necessary steps to secure the prosecution criminally of any person against whom there is fair cause for complaint.

By unanimous consent the resolution submitted in the minority report of the committee and the substitute of Ald. Russell were joined in a series and both adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—25.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE MAYOR.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, the resolution adopted at your last session authorizing the Superintendent of the House of Correction to pay into the treasury, out of the moneys now in his hands, the sum of \$25,000.

The law establishing the House of Correction places its general management and direction in the hands of the Board of Inspectors provided for in the act, and it does not appear that said board have been consulted in this matter.

I do not believe that this money should be transferred to the city until the Inspectors have looked into the question and ascertained whether the institution is in such condition that the transfer can be made without detriment to its future welfare. If, after a full inquiry, it appears that the transfer can be safely made it will have my hearty approval. I think the Board of Inspectors should be consulted and fully heard in regard to it.

Very respectfully,

GEORGE C. LANGDON,
Mayor.

Ald. Russell moved that the communication be received and placed on file, and further consideration be postponed for two weeks.

Ald. Monaghan moved to amend that the vote by which the resolution was adopted be reconsidered.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—None.

The communication was then referred to the Committee on House of Correction and the Board of Inspectors of the House of Correction.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I herewith return to your honorable body, without my approval, a resolution adopted at your last session appointing James H. Kelly Assistant City Clerk. This appointment is similar in the manner in which it is made to those disapproved in a former communication, and what was then said might be herein repeated with equal applicability and force. From the record before me, it does not appear that the City Clerk has recommended this appointment, and pending such recommendation I deem it a violation of the spirit, if not of the letter of an existing ordinance, to make appointments as this is sought to be made.

Very respectfully,

GEO. C. LANGDON,
Mayor.

Ald. Russell moved to lay the communication on the table.

Ald. Haller moved to amend to accept the communication and to reconsider the vote by which the resolution was adopted.

The question being on Ald. Russell's motion to lay on the table the same prevailed as follows:

Yeas—Ald. Connor, Finney, Gross, Herrick, Jacob, Manning, Mitchell, Raynor, Russell, Ryan, Warriner and the President—12.

Nays—Ald. Alter, Boydell, Chene, Gies, Griffin, Guiney, Haller, Jackson, Karrer, Monaghan and Rousseau—11.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I herewith nominate, and most respectfully ask your honorable body to confirm the nomination of Samuel Barrett as Inspector of Chimneys in the Western District.

Very respectfully,

GEO. C. LANGDON,
Mayor.

The communication was accepted and the nomination confirmed, as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—None.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

Gentlemen—I herewith report to your honorable body that the fines and costs imposed in the Recorder's Court, during the January term thereof, for violations of city ordinances, amount to three hundred nineteen dollars and fifty cents (\$319 50). I would further report that fines to the amount of

three dollars, imposed during the December term, have been remitted.

To the Honorable the Common Council:

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom were referred the reports of the City Controller, Receiver of Taxes, City Treasurer, Market Clerk, License Collector, Poundmasters of the Eastern and Western Districts, City Collector, for week ending January 25, and also the report of the Market Clerk for the week ending January 18, have examined the same, and believing them correct, except as hereinafter stated, recommend their approval.

An irregularity exists in the signing of the Market Clerk's reports and the certificate thereto attached of Mr. Rush, notary public, which your committee will not hereafter feel at liberty to overlook.

Respectfully,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,

Committee on Ways and Means.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means to whom was referred the communication of the Controller in relation to the general and interest funds have considered the same, and believing the recommendations therein contained both timely and judicious, recommend the adoption of the following resolution:

Respectfully, etc.,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,

Committee on Ways and Means.

Resolved, That the City Attorney and Counselor be and they are hereby instructed to report at the next session of the Council proposed amendments to the charter as follows:

1. Providing that no loan shall be made in behalf of the city except upon recommendation of the Controller, Treasurer and Chairman of the Committee of Ways and Means and a two-thirds vote of all the members of the Common Council, and no such loan, if so authorized, shall be made in any case in anticipation of the payment of the last one-tenth of the regular annual assessment and taxes.

2. Providing for a temporary loan to the amount of \$, to be collected by tax each year and paid in equal installments in four years after 1880.

3. Providing that the expense of printing in the German language shall be subject to the control of the Common Council, and in any year not to exceed the sum of \$.

Referred to the City Counselor, City Attorney and Controller.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts to whom was referred the Controller's list of approved accounts of January 23, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds, excepting vouchers Nos. 553, 554 and 560, which your committee would recommend that the persons named therein be paid the amounts due them for services in the several offices up to January 22, 1879, and the balance be held by the City Treasurer till the claimants of said offices have established their right thereto.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER.

Accepted and adopted as follows:

Yeas—Ald. Chene, Finney, Griffin, Gross, Haller, Jacob, Manning, Monaghan, Mitchell, Raynor, Russell, Ryan, Warriner and the President—14.

Nays—Ald. Alter, Boydell, Guiney, Jackson, Rousseau—5.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom were referred the official bonds of George W. Owen, Robert Knox, Frederick Hartwig and George McManus, Collectors and Wm. W. Witherspoon, Nicholas Tisler and Wm. J. Gildrey, Constables, have examined the same, and believing them to be satisfactory recommend their approval.

Your committee beg leave to state that these bonds ought to have been passed upon sooner, but they could not be by us because they were not placed in our possession by the Chairman of the Committee on Ways and Means of the old Council, until after the close of the last session of the Council. Your committee desire to call the attention of your honorable body to the fact that George McManus, whose bond is approved as above stated, was elected to the office of Collector of the Third Ward at the last annual election, and his term of office under the charter commenced on the second Tuesday of January, and that at your last session Paul Plessner was appointed Collector, according to your proceedings, of said ward in the place of Martin Fox, whose term of office had expired. There certainly can not be two collectors for the same ward at the same time, and we believe that the action of your honorable body at the last session appointing Paul Plessner should be reconsidered. The custom has prevailed of permitting the old Collector to have the books and collect the State and county taxes after the expiration of his term of office. Your committee believe that serious legal questions are involved in the matter, which may call for legislation, and they recommend that the City Counselor and City Attorney be instructed to confer with the Prosecuting Attorney of the county and report at the earliest date consistent such recommendations as they may deem proper in the premises.

Respectfully,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,

Committee on Ways and Means.

Laid on the table for one session.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the petition of Murphy & Donnan to erect a platform in rear of their premises, would respectfully recommend that the prayer of the petitioners be granted.

Yours respectfully,

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING.

Adopted.

LIQUOR BONDS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Liquor Bonds, to whom was referred the bonds of persons engaging in the traffic of liquor, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of H. J. & M. C. Elann, H. L. Brown, John Connolly, Thomas Kelley, Frank Kuhn, Mathias Romanick, Rudolph Cobiol, James F. Snow and Joseph Norck.

Respectfully submitted,

JOHN CHR. JACOB,
SIMON C. KARRER.

Adopted as follows:

Yea—Ald. Alter, Boydell, Chene, Connor, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—None.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

February 4, 1879.

To the Honorable the Common Council:

Gentlemen—The Weighmaster of the Western District, duly appointed by your honorable body on the 22d of January last, informs me that the former occupant of that position refuses to surrender to him possession of the books, papers, etc., pertaining to that office.

I am also informed that no regard is being paid to the ordinance lately adopted in regard to the fees for weighing hay, straw, etc.

No report of collections has been made to this office from this district, and I deem it my duty to report these facts to your honorable body for such action as you may deem fit.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Referred to the Committee on Ways and Means, City Counselor and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—On examination of the condition of the general road and several of the district road

funds, I find the small cash balance to the credit of these funds will soon be exhausted should the present demands upon them continue. The Board of Public Works, acting under a resolution of the Council, fixing the price of labor at 15 cents per hour or \$1 50 per day, will require just one-third larger appropriation or one-third less work. When the cash balance of any of these funds is exhausted work must stop; no warrant will be drawn on any exhausted fund.

When we consider that the Board of Public Works cannot employ more than one-tenth of those who apply for street labor, all of whom would be thankful for work at the usual per diem, is it the part of wisdom in dealing with labor to adopt a policy which must deprive so many of that class from earning their daily bread?

I would respectfully suggest that the matter be referred to the Board of Public Works with power.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Referred to the Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Owing to the fact that the general fund is so nearly exhausted, and that the charter forbids the entering into any contract affecting an exhausted fund, I have not as yet applied to your honorable body for authority to advertise for proposals for the annual contracts for the fiscal year 1878. These contracts expired on the 31st of January last, but I am informed that the present contractors are willing to continue to furnish such work or material as the city may desire under the old contracts, until such time as new contracts are made. Under all these circumstances I have thought best to await the action of the Common Council and the State Legislature in reference to the temporary loan for the use of the general fund.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Referred to the Committee on Ways and Means.

FROM THE INSPECTORS OF THE HOUSE OF CORRECTION.

To the Honorable the Common Council:
Gentlemen—The Inspectors of the House of Correction take great pleasure in laying before you honorable body the seventeenth annual report of the Superintendent, and also the report of the physician and teacher of the said institution.

The report of the Superintendent herewith transmitted will, we trust, prove satisfactory to your honorable body, to the citizens generally, as it unquestionably is to the Board of Inspectors.

Although the depressed state of business has continued throughout the country, you will observe that the Superintendent's report shows the very gratifying result of the year's business, to be a net profit of seventeen thousand eighty-four \$2-100 dollars.

It is but simple justice to the retiring Superintendent to express our unqualified approbation of his management of an institution in which the City and State are deeply interested. To his fitness, capacity and practical knowledge of all the requirements which should be expected and exacted from the incumbent of a position of such importance and responsibility we cheerfully bear testimony.

WILLIAM FOXEN,

REPORT OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom was referred the communications of the City Controller concerning the exhaustion of the general fund and expiration of the usual annual contracts, also concerning the condition of the road and district road funds and the amount to be paid for labor, beg leave to submit the following:

We find that no new contract can be entered into for moneys to be paid out of the general fund until money is supplied that fund by taxation, settled estimates or otherwise. As it has become necessary to supply said fund by loan under the provisions of an act of the Legislature, which it is believed soon will be passed for that purpose, we believe that time would be saved and the interest of the city promoted, if the Controller proceeded to advertise for proposals for the regular annual contracts, and we recommend such action upon his part.

As to the other matters your committee believe that \$1 25 per day is not too large a sum to pay for a good day's work by the city or anybody else, and that fifteen cents per hour for labor is not excessive for fractional parts of a day, up to and not exceeding one-half day. We recommend that the regulation in relation to compensation of laborers be made to conform to the prices above stated.

It has been said by those in authority that if the compensation of laborers is fixed as above indicated it will be necessary to have the general work of the city done by contract, and that consequently a large number of old men will be kept out of employment. Your committee would suggest that the city is not maintained for charitable purposes. We believe its business should be performed upon the same principles and according to the same rules characterizing the operations of first-class business men. If the work of the city can be done better by contract and for less money under all the circumstances than under the methods pursued by the Board of Public Works for the last two or three years, we believe it should be done by contract. It must be remembered in this connection that the exhaustion of road and district funds, referred to by the Controller, is at the present time certainly not the result of the recent increase of the compensation of labor. The whole matter, however, is one deserving full and prompt consideration, and your committee recommend that it be referred to the Com-

mittee on Streets, Board of Public Works and City Controller, with instructions to report their recommendations at the earliest possible date.

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

A. H. RAYNOR.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts on the 4th of February, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend at they be paid from the proper funds. Also, voucher No. 82, which was rejected at a former session of the committee, is now approved, and we recommend that it be paid from the proper fund.

SEYMOUR FINNEY,
WM. E. WARRINER,
DANIEL GUINEY.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts to whom was referred the claims of Peter Zens and Joseph Muer, for measuring City Poor wood in the Western and Eastern Districts, would respectfully recommend that said claims be referred to the Controller, so as to be presented to the Council in proper form.

SPECIAL—MAJORITY REPORT.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary and the City Attorney and the City Counselor, to whom was referred the communication of the bondsmen of the City Controller, City Assessor and Receiver of Taxes, protesting against any change in the clerks in the departments under the control of the officers named, respectfully report that in our opinion the change contemplated by the recent action of the Council, will not, in law, release the bondsmen from their liability, but experience has shown that if any very strong equities are created in favor of sureties on official bonds, it is almost impossible to obtain a favorable verdict from a jury, and we are therefore of the opinion that, as a matter of policy, the action of the Council in question ought to be rescinded. It must also be remembered that the action of the Council has been vetoed by the Mayor. It is assumed that because the Mayor's veto does not extend to appointments to or removals from office, that the veto in this instance has no force or effect; but your committee are of

the opinion that the clerks in the offices named cannot be regarded as "officers" within the meaning of the charter. They are not named as officers in the charter and no such offices have been created by an ordinance or resolution of the Council. The Mayor certainly has the right to veto any such ordinance or resolution, so that it cannot be successfully argued that these offices have been created by the resolution making the appointments.

We recommend the veto of the Mayor be taken from the table and sustained.

JOHN MONAGHAN,
WILLIAM C. MAYBURY,
City Attorney,
F. A. BAKER,
City Counselor.

MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned, of the Judiciary Committee, with the Counselor and Attorney, to whom was referred the protests of the bondsmen of the City Controller, Assessor and Receiver of Taxes, regretting our inability to agree with the balance of the committee, beg leave to report as follows:

We are of the opinion that said bondsmen signed the bonds of said officers either with full or without any knowledge of the ordinance they refer to; that if with knowledge, they must have known that by its terms the Council could do as it pleased in relation to appointments, and if without knowledge, it is not in good taste to submit a protest under the present circumstances. In any event, we find and report that the parties should not be released, and that the Common Council has no power to release them.

We furthermore believe that said protest is one of the incidents resulting from the failure of one of the political parties of this body to control and make the usual annual appointments; that it was obtained on account of partisan feeling by the personal efforts of the heads of the departments affected, and that it would never have been thought of by the bondsmen themselves had not the paper been presented to them for their signatures.

Further, we believe that the clerks in these offices are "officers" within the meaning of the charter; that the terms of those occupying said offices for last year terminated on the third Tuesday of January, and that it was the duty of the heads of said offices, if they had any preferences in the matter, to express them, by proper communications, to the Council, recommending for appointment the persons desired.

We believe the officers named would be entitled to greater consideration in the premises had they not apparently co-operated very actively with others during the last three weeks, to obstruct the business of the city, and bring odium upon certain members of this body, and other persons not of their political convictions.

We favor and recommend an amendment to the charter which will authorize the heads of departments to nominate their assistants, subject to confirmation by the Council, such amendment to contain such restrictions as will prevent such departments being used or operated for political or partisan purposes under any circumstances.

F. G. RUSSELL,
PETER J. RALPH.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of France Relpier, asking to be refunded taxes paid on east 16 feet of lot 9, on Mullett street, between Chene street and Campau avenue, for the years of 1876, 1877 and 1878, report that, on examination, the duty of the petitioner was to have examined the assessments made at the proper time, as ample provision is made for such cases, and that in the year 1878 the assessment is correct, and we consider the interest of the city should not suffer for the petitioner's inadvertence. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Mrs. C. Clara, asking to be refunded the amount of \$38 15 for a paving assessment on lot No. 158, east half, on L. Moran farm, for the reason that this tax by mistake has been twice paid, report that we find, on examination, the facts set forth by the petitioner to be true, and recommend that the amount stated be refunded, and submit the following resolution:

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Resolved, That the Controller be and he is hereby authorized to draw his warrant on the proper fund for \$38 15 in favor of Mrs. C. Clara, on the production of the proper receipts showing that the tax on lot No. 158, east half, has been twice paid.

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President pro tem.—34.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets and City Controller, to whom was referred the petition of J. E. Costello, A. G. Kruger and others, occupants of yankee notion stands in the Central Market, asking for a reduction of rents, respectfully report that as the time between this date and April 1—the time when the market rents will be fixed for the year—is so short, less than two months, we do not deem it advisable to recommend any reduction of rents, leaving the subject for the general revision of market rules which takes place April 1, and therefore report adverse to the petition:

HENRY GROSS,
GEORGE A. FOSTER,
GEORGE W. HERRICK,
Committee.

H. P. BRIDGE,
Controller.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The flag is again at half-mast, not for show or form, but its folds waving above the City Hall bear to every one of our citizens the intelligence of another grief to be borne, another name to be honored and another memory to be cherished.

The court room is silent, and the chair so long graced with gentleness, patience, wisdom and judicial purity is vacant. Plaintiff and defendant, father and son, mother and daughter, the quiet citizen and excited attorney, all who have known him and seen his pleasant face, regardless of sex, class or nationality bow their heads in sorrow, startled at the dispensation which has so suddenly snapped the silken cord of life and taken from the sphere of his great usefulness, Lyman Cochrane,

the first judge of our highest municipal court of civil jurisdiction. The great poet has said:

"The oak shall send his roots abroad and pierce thy mould;

Yet not to thine eternal resting place

Shalt thou retire alone, nor couldst thou wish

Couch more magnificent. Thou shalt lie down

With patriarchs of the infant world, with Kings,

The powerful of the earth—the wise—the good,

Fair forms, and hoary seers of ages past,

All in one mighty sepulchre.

As the long train of ages glides away, the sons of

men,

The youth in life's green spring, and he who goes

In the full strength of years, matron and maid,

And the sweet babe, and the gray headed man,

Shall one by one be gathered to thy side.

Thou art gone, not like the quarry slave at night,

Scourged to his dungeon; but sustained and soothed,

Like one who wraps the drapery of his couch

About him, and lies down to pleasant dreams."

Gentlemen—The committee appointed by your honorable body, in behalf of the public generally and of all the officers and departments of the city government, beg leave to submit the following resolutions:

Resolved, That Lyman Cochrane, to an unusual degree, possessed qualifications for the high judicial position made vacant by his unexpected decease, and that his character for kindness, generosity, fairness and integrity shines forth as a guiding star to all who aim to make true manhood the grand end and purpose of life.

Resolved, That by his death the city has lost a learned and prudent friend, the State an able and most valuable citizen and the people an advocate who suffered in their misfortunes and rejoiced in their success and prosperity, a judge whose aim and delight were to do exact justice to all persons without distinction.

Resolved, That to his bereaved and stricken family we tender our warmest consideration and sympathy, and that the City Clerk be, and he is hereby instructed to present to them a properly engrossed copy of these resolutions.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

Gentlemen—I herewith submit to your honorable body a statement showing that there has been collected through this office during the past fiscal year \$32,734 45 of back city taxes, and \$10,738 71 in interest and charges, making a total amount collected of \$43,473 52; with a balance yet due the city of \$91,745 52 for general city taxes and special assessments.

Owing to the great amount of labor required to find the owners of property and the serving of a personal notice, it has been impossible for the help employed to go over the entire sales of the various years, and as a large portion of the unpaid taxes of 1877 have not been reached, and the tax sale of 1878 will soon be in this office, and in consideration of the above facts, I respectfully ask permission of your honorable body to retain Wm. G. Springer, who is familiar with the business, and has proved himself very efficient in connection with Mr. Martin, appointed by your honorable body. I believe that the present system of notifying parties of delinquent taxes, has resulted in a gain to the city of many thousands of dollars, has corrected errors where the property was sold for taxes, which had been paid but was not canceled on the books, and resulted in many benefits to the taxpayers of the city.

Respectfully submitted,

WM. PARKINSON,
City Treasurer.

On motion of Ald. Haller the communication was received and the nomination was confirmed as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—23.

FROM THE SAME.

The Committee on Streets and the Board of Public Works, to whom was referred so much of the message of the Mayor as relates to hack stands, street cars, cars and locomotives and toll gates, after giving the subject matters mature consideration, respectfully report as follows:

HACK AND HACK STANDS.

Hacks are an indispensable public necessity and should be located at such points as could be most readily obtainable, but at the same time the privilege thus extended should not interfere with the convenience of the public. Jefferson avenue at the intersection of Woodward avenue is the center of business activity, and with the street railways terminating at that point, vehicles standing on the north side of said avenue form an obstruction, thereby causing not only inconvenience, but at the same time hazarding the lives of those crossing the avenues at that point. To obviate this difficulty your committee fully concur in the recommendations of the Mayor, and recommend that the City Attorney be directed to prepare and submit to this Council an ordinance locating hack stands four feet south of the railroad track on the south side of Jefferson avenue, between Bates street and Woodward avenue, and between Woodward avenue and Griswold street, and not less than seventy-five feet from the crossings either east or west.

STREET CARS.

The Mayor recommends that street cars running in the same direction should not be permitted to approach each other within a distance of 100 feet. It is at times noticeable on Woodward avenue, between Jefferson avenue and the Campus Martius, several cars are running alongside or the length of a car behind, thereby forming an obstruction to the street and rendering the signs indicating the direction of the car obscure. To remedy this evil your committee recommend that the City Attorney be directed to prepare and submit to this Council an ordinance regulating the running of cars on Woodward avenue, between Jefferson avenue and the north side of the Campus Martius.

LOCOMOTIVES AND CARS ON STREET CROSSINGS.

Your committee fully concur in the recommendations of the Mayor in prohibiting locomotives and

railroad trains from standing on crossings or under or within 200 feet of a bridge within the city limits. At the foot of Eleventh street, in making up the trains, at times, an interminable obstruction is formed and is a source of much complaint among those who have business in that direction.

It is therefore recommended that, if within the power of the Common Council to remedy this evil, the City Attorney be directed to prepare and submit the necessary ordinance.

TOLL GATES.

To pay toll for driving over a roadway within the city limits, which the citizens are required to keep in repair, is not only arbitrary but unjust, and should not be tolerated for a moment. It is true that by an act of the Legislature the plank road companies have the power to exact this toll, and it is also true that their charters are about to expire, and in re-enacting them for the protection of the taxpayers in the future, the act should be so framed that they shall have no power to exact toll for driving over roadways within the corporate limits now or hereafter, and your committee respectfully recommend that the City Attorney be directed to draft a memorial to be presented by the Common Council to the present Legislature having this object in view.

Respectfully submitted

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON,
Committee on Streets.

WM. FURCELL.

F. and J. L. Maloney, Charles Krabbe, Charles Rutley, Anthony Bucher, Max Kemter, James L. Maloney & Co. and Patrick Hager.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

Gentlemen—I herewith respectfully submit my second annual report, covering the financial transactions of this office during the fiscal year which closed January 31, 1879. This report exhibits the condition of the various funds, with complete tabular statements of the receipts and disbursements during the fiscal year, as the requirements of the city charter make it my duty to present to you at this time, together with such other items of interest as I have deemed of sufficient importance to submit to the consideration of your honorable body.

The cash in the treasury January 31, 1879, was..... \$ 273,873 05

Receipts during the year..... 1,848,107 44

Total..... \$1,621,980 49

Disbursements during the year..... 1,848,987 15

Cash balance in treasury January 31,

1879..... \$272,993 34

It is with exceeding satisfaction that I allude to our financial condition, and I make this allusion because I believe that while our citizens have a general idea that the City of Detroit is financially in a flourishing condition, yet they do not realize the fact that, as statistics obtained from various sources and in the official reports and messages of other cities, plainly indicate, no city in the Union presents so favorable a showing as does this city. This statement applies not only to our city, but also to our State and county as well, as the following tables will abundantly show:

The entire bonded debt (except the debt of the Water Commissioners) February 1, 1878, was..... \$1,262,400 00

Of this amount there fell due and were paid during the year

redemption bonds issued in 1838	\$50,000
Also two bonds, due in 1875 but not previously presented for payment	2,000
	<u>52,000 00</u>

Total bonded debt of the city February 1, 1879..... \$1,210,400 00

The indebtedness as stated is classified as follows:

Berthlet Market bonds (past due and probably lost).....	\$ 400 00
Redemption bonds, due 1879.....	30,000 00
House of Correction bonds, due 1879.....	\$ 50,000 00
House of Correction bonds, due 1881.....	24,000 00
House of Correction bonds, due 1883.....	10,000 00
House of Correction bonds, due 1885.....	16,000 00
	<u>100,000 00</u>
City Hall bonds, due 1888.....	80,000 00
City Hall bonds, due 1888.....	148,000 00
City Hall bonds, due 1889.....	300,000 00
City Hall bonds, due 1890.....	100,000 00
City Hall bonds, due 1891.....	74,000 00
	<u>600,000 00</u>
Public sewer bonds, due 1882.....	100,000 00
Public sewer bonds, due 1883.....	100,000 00
Public sewer bonds, due 1884.....	100,000 00
Public sewer bonds, due 1885.....	100,000 50
Public sewer bonds, due 1886.....	40,000 00
Public sewer bonds, due 1887.....	40,000 00
	<u>490,000 00</u>
Total.....	\$1,210,400 00

Means on hand for paying the debt:	
Cash in charge of Commissioners of the Sinking Fund.....	\$ 179,075 05
House of Correction bonds.....	40,000 00
Public sewer bonds.....	140,000 00
Street paving bonds.....	43,743 39
	<u>223,743 39</u>

Notes of H. P. Bridge, Controller, being temporary loans for use of several funds..... 36,000 00

Total redemption means Feb. 1, 1879..... \$ 438,818 44
Total redemption means Feb. 1, 1878..... 384,856 86

Increase of means over last year..... \$ 53,961 58
Decrease of debt over last year..... 52,000 00

Net decrease of debt..... \$ 105,961 58

Net debt of the city:
Bonds issued and outstanding..... \$1,210,400 00
Less means on hand for paying same..... 438,818 44

Net debt Feb. 1, 1879..... \$ 771,581 56

The debt of the State of Michigan, as furnished me through the courtesy of the Hon. B. D. Pritchard, State Treasurer, was on January 1, 1879, as follows:

Sault Canal bonds, 6's, due July 1, 1879.....	\$ 46,000 00
Renewal loan, 6's, due July 1, 1878.....	4,000 00
Two million loan, 6's, due January 1, 1883.....	591,000 00
War Bounty loan, 7's, due May 1, 1890.....	399,000 00
Non-interest bearing debt.....	15,149 97

Total bonded debt..... \$355,149 97
Means on hand for paying the same in bonds and cash in sinking fund..... \$730,351 44

Net amount of State debt above cash in treasury applicable to its payment..... \$324,898 53

This amount, \$324,898 53, is the entire net debt of the State of Michigan, notwithstanding that within the past few years the new State Capitol building, occupied for the first time January 1st last, has been built at a cost of \$1,500,000.

The indebtedness of the County of Wayne at this date, being Volunteer Relief and War bonds, is..... \$343,650 00

The county has, at present, no sinking fund, although steps are now being taken to that end.

The entire net debt, then, of our State, county and city is as follows:

Debt of the State of Michigan.....	\$ 294,898 53
Debt of the County of Wayne.....	343,650 00
Debt of the City of Detroit.....	771,581 56

Entire net debt..... \$1,350,130 09

Compare this with the fact that there is now before the Legislature of a neighboring State a bill to create an additional bonded debt of \$6,000,000 to pay for property destroyed by the violent conduct of its own people; and also that the debt of a city not far from our own and which is no larger or more important than our own is over \$7,000,000.

I desire also to allude to one other item of financial interest.

The income to the sinking fund (from which the bonded debt is paid) for the last four years has been as follows:

For the fiscal year 1875.....	\$107,570 53
For the fiscal year 1876.....	116,624 28
For the fiscal year 1877.....	92,159 43
For the fiscal year 1878.....	106,769 30

Total for four years..... \$423,153 54

Annual average..... \$105,788 38

The income to this fund (taking the present average) for the seven ensuing years will amount to..... \$740,518 66

To which add the present resources of the fund..... 438,818 44

And there would be on hand..... \$1,179,337 10
During this period there falls due bonds..... 104,000 00

Leaving means on hand, Dec. 31, 1885, \$1,075,337 10. The bonded debt on that date will be \$1,106,400.

It will therefore appear that if there should be no further issue of bonds, in seven years from this date there will be in the hands of the Commissioners of the sinking fund, means equal in amount to the outstanding city debt, and the City of Detroit will be practically out of debt. To accomplish this, there will be a direct taxation annually of but \$5,000, as provided by the city charter for the sinking fund.

It is highly probable that the State of Michigan will have accomplished this end long before this date, and the County of Wayne will have materially reduced its indebtedness.

During the fiscal year just closed, there fell due and were paid:

Redemption bonds, issued in 1838.....	\$50,000 00
Redemption bonds, issued in 1836, not previously presented.....	2,000 00

Total bonds paid 1878..... \$52,000 00

During the fiscal year 1879, \$80,000, being \$30,000 the last of our redemption bonds, and \$50,000 of bonds issued in 1836, for building the Detroit House of Correction, fall due. This amount, with the exception of \$24,000 House of Correction bonds, which fall due in 1881, is all the indebtedness which will mature until 1886.

I feel it my duty, without intimating any criticism of the Honorable the Board of Estimates, to call attention to the fact that reducing the estimates for the fiscal year of 1878, as presented by myself and adopted by the Common Council, was a mistaken policy.

It is hardly to be expected that the Board of Estimates, which meets but once a year, can be as familiar with the amount of funds necessary for the expenses of the city government as the Common Council, which body meet twice in each week, or the City Controller, whose especial business it is to know and submit estimates for the actual financial necessities for the year.

It will be remembered that the reduction in the annual estimates made last year by that board were strenuously resisted by the President of the Council, the Chairman of the Committee on Ways and Means, the City Controller and others, and the Board of Estimates were informed, at that time, that the allowance made by them for certain funds would prove insufficient. This prophecy has proved true. The general fund had, at the close of the fiscal year, hardly a dollar to its cred-

it; the entire appropriation of the last and previous years having been expended, although the money was not, and a portion of it never will be, collected, being worthless taxes on personal property, a resort having been made to that provision of the charter permitting the Council to authorize the Controller to borrow up to the entire amount of the appropriations. Under this provision of the charter \$25,000 was borrowed for the use of the general fund, which loan is still unpaid; and had not the street lamps of the city been illuminated with naphtha during the past seven months, instead of gas, the city might have been in darkness for a portion of that time, as there would have been no way, under the charter, to provide the means for doing otherwise. The fact that there is no money in the general fund and other funds, with which to defray the expenses of the city government from the 1st of February, 1879, until the final action of the Board of Estimates in the spring, has necessitated the application to our State Legislature, which, happily, is now in session, for authority to make an extra loan to supply the means to meet the necessary expenses of the city. While this measure of borrowing money in anticipation of appropriations became necessary last year, I cannot say that I entirely approve of it. There seems, however, no way to avoid a repetition of this course in future years, except that the Board of Estimates should allow a levy sufficient to pay expenses, and the Common Council, Board of Public Works and all departments of the city government confine themselves strictly to the cash collections of the various funds in all matters of expenditure. The change in the fiscal year, as is contemplated, making that year identical with the financial year, would, I believe, operate largely towards the avoidance of this system in the future.

The tables and tabular statements which accompany this report are so full and explicit that I do not deem it necessary, in these introductory remarks, to speak of other matters, but respectfully call your attention to the annual reports of the City Treasurer, the Board of Public Works, the Board of Education, Inspectors of the House of Correction and the various commissions of the city government.

Respectfully, etc.

H. P. BRIDGE,
City Controller.

FROM THE SAME.

To the Honorable the Common Council:

The cost of printing for the last two fiscal years
 has been as follows:

	1877.	1878.
Official printing, including tax sales.....	\$ 4,105 38	\$ 7,861 62
German printing, including tax sales.....	2,668 53	7,199 55
Legal printing.....	578 88	1,186 64
Job printing, including registra- tion lists.....	2,908 19	3,505 59
Total.....	\$10,255 46	\$19,743 40

Official printing explains itself. Legal printing
 is for the publishing of advertisements or such
 matter as is required by law to be published in one
 other than the official paper. Job printing is for
 printing reports and for blanks etc., etc., and Ger-
 man printing is for publishing the Council proceed-
 ings, ordinances, tax sales, notices of sewer assess-
 ments, notices of election and registration and of
 advertisements in the German language in some
 daily German newspaper published in the city—in
 accordance with a special act of the Legislature
 approved April 13, 1871.

This great increase in the cost of printing in 1878
 over 1877 is attributable to two causes, viz:

1. The prices on all the contracts for printing
 were considerably higher last year than the previous
 one.

2. The printing in the German language was much
 greater this year than ever before, because,
 heretofore, such printing had been in synopsis only,
 such portion of the proceedings of the Council, tax
 sales, etc., only being printed as, in the judgment
 of the contractor, was of interest to the German
 portion of our population. While during last year,
 under a correct interpretation of the special law
 above alluded to, the whole matter, tax sales, ad-
 vertisements, etc., etc., were printed in the German
 language in full.

I desire to call your careful attention to these
 figures, because I believe it to be a waste of money
 and that this evil should be remedied at once.

A large proportion of the amount expended dur-
 ing the last fiscal year could have been saved to the
 taxpayers if this unnecessary, as it seems to me,
 publication of the official proceedings and adver-
 tisements in the German language could have been
 dispensed with.

This class of printing is legal and necessary,
 simply because the acts of the Legislature have
 made it so.

It seems to me that the publication of our official
 matters should be confined to one paper only, and
 that paper should be published in the English
 language, and be the official paper of the city. If
 any citizen of Detroit desires to know the official
 acts and requirements of the city government, he
 should seek such information in the official
 paper of the city, and not expect to
 find such proceedings in other daily papers;
 neither should he be called upon by
 taxation to defray the expense of such publica-
 tion in so many papers. This course is not pur-
 sued in other cities. Why could it be practiced
 here?

There is now, or about to be introduced, before
 the Legislature a bill amending the act approved
 April 13, 1871, requiring the publication in the Ger-
 man language of such matter only as the Common
 Council shall from time to time direct to an amount
 not to exceed the sum of \$1,500 in any one year. I
 am aware that this suggestion will be distasteful to
 a portion of our citizens. It is likely to be opposed
 by the press of the city, as it will naturally lessen
 the receipts of such of the daily papers as will be
 affected by a change in the, at present, existing
 laws on the subject, but I am sure the great mass
 of our citizens will heartily approve of such a step
 towards economy in public affairs; and I therefore

earnestly urge your honorable body to take speedy
 action in this matter by adopting some resolution
 favoring such legislation, and that such resolution
 be sent to the Senators and Representatives from
 this city with the request that they give this mea-
 sure their immediate consideration and hearty sup-
 port.

Respectfully submitted,
 H. P. BRIDGE,
 Controller.

Accepted and referred to the Committee on
 Printing.

FROM THE CITY ATTORNEY.

The undersigned would respectfully recommend
 to your honorable body the adoption of an ordi-
 nance whereby the principals and sureties to all of-
 ficial bonds, and other bonds to which the City of
 Detroit is a party, shall be obliged to acknowledge
 the execution of such bond before a Notary Public,
 or other officer duly authorized to take acknowledg-
 ments of deeds and other recorded instruments.
 Such an ordinance will serve to relieve the Commit-
 tee on Ways and Means of much labor; will pre-
 vent forged signatures being made to such bonds;
 and, under the statutes of this State, an instrument
 thus acknowledged needs no further proof of its
 execution—a very difficult fact to establish when
 denied. I respectfully request your instructions in
 the premises.

Respectfully submitted,
 WILLIAM C. MAYBURY,
 City Attorney.

Accepted, and the City Attorney requested to
 bring in the proper ordinance.

FROM THE SAME.

In compliance with your instructions I herewith
 submit an ordinance establishing the fiscal year.

Respectfully submitted,
 WILLIAM C. MAYBURY,
 City Attorney.

AN ORDINANCE—To amend Section 1. of Chapter
 124, of the Revised Ordinances of 1878:

It is hereby ordained by the Common Council of
 the City of Detroit:

SECTION 1. That section 1. of chapter 124, of the
 Revised Ordinances of 1878, be and the same is
 hereby amended so as to read as follows:

Sec. 1. The fiscal year, in and for the City of
 Detroit, shall hereafter commence on the first day
 of July in each year, and close on the last day of
 June in each year.

Sec. 2. This ordinance shall take immediate ef-
 fect.

Read twice by title and ordered printed in the
 proceedings.

FROM THE CITY TREASURER.

Submitting his annual report of the business of
 his office for the fiscal year, ending January 31,
 1879.

Accepted and referred to the Committee on Ways
 and Means.

FROM THE SUPERINTENDENT OF THE HOUSE OF COR-
 RECTION.

To the Honorable the Common Council of the City
 of Detroit:

Gentlemen—The undersigned begs leave to call
 the attention of your honorable body to the matter
 of the confinement of prisoners in the Detroit
 House of Correction, who are committed thereto by
 the various magistrates of the County of Wayne,
 outside of the limits of the City of Detroit. There
 are several classes of prisoners who may be sen-
 tenced to confinement in this institution and the
 authority to commit them is derived from different
 provisions of the act establishing the House of Cor-
 rection.

1. Certain magistrates of any county other than
 Wayne, may, for specified minor offenses, commit
 persons to the House of Correction but not until a
 contract has been made providing for the payment
 of the expense of keeping the persons so commit-
 ted.

2. The proper courts of this State, in all counties,
 may sentence to the House of Correction persons
 convicted of offenses punishable by imprisonment
 in the State Prison, but not until a contract has been
 entered into with certain State authorities, provid-
 ing for the expense, etc., of keeping such prison-
 ers.

3. Certain magistrates of the United States may

sentence persons to the House of Correction, but not until provision by agreement is made therefor.

4. Women convicted of State Prison offenses, except murder, may be sentenced to the House of Correction from any part of the State, but no provision is made for the expense of keeping such prisoners.

5. For almost if not quite all of the minor offenses, convicted persons may be sentenced to the Detroit House of Correction from all parts of the County of Wayne, but no provision is made for the expense of keeping such convicts, as in the case of other counties.

The entire expense of building, keeping and maintaining the Detroit House of Correction, is by the statute, placed upon the City of Detroit.

When this institution was first started the proper authorities of the City of Detroit and the County of Wayne entered into a contract for the keeping of the class of convicts mentioned in paragraph number five, and the class of convicts mentioned in paragraph two, when sentenced by magistrates of Wayne County.

The rates charged were similar to those charged other counties, and were paid by the County of Wayne for several years, until January 1, 1875, from which date the Board of Auditors of that county has refused and neglected to pay for the keeping of such prisoners.

The Board of auditors now claim, I am informed: 1. That there is no liability for keeping any of the Wayne County prisoners at the House of Correction.

2. If there is a liability for keeping those persons who were committed for the minor offenses, there was no authority for the paying for the keeping of those who have been convicted of State Prison offenses, and for money wrongfully collected of the county in the latter case, the county may now claim a set-off.

The books of the House of Correction as kept under the supervision of my predecessor show an apparent unpaid claim against the County of Wayne for \$18,578 45 for the keeping of prisoners. It would seem quite advisable that this claim, if it possesses any validity, should be collected.

If it is without legal foundation it should be so determined and further accumulation upon the books ended. I would also suggest the propriety of legislation should the claim be found invalid, so that the county should in some way contribute to the keeping of these prisoners. As it stands, the City of Detroit furnishes a House of Correction for the County of Wayne.

Yours very respectfully,

JOS. NICHOLSON,
Superintendent.

Accepted and referred to the Committee on the House of Correction.

METROPOLITAN POLICE COMMISSIONERS.

To the Honorable the Common Council of the City of Detroit:

Gentlemen—This fourteenth annual report of the board upon the condition of this department respectfully refers your honorable body to the subjoined communications from the Secretary, the Superintendent and the surgeon.

These exhibit in detail such information as will enable you to obtain a full and correct view of the trust and of the manner in which the work has been done during the past year.

It is not necessary that we ask your special attention to any particular features of the reports; but we commend them to your general consideration, and solicit such action as may be within the power of your honorable body, to enable this department to attain greater efficiency in promoting and protecting the public interests, not only in respect to those branches of our duty which affect the State at large, but likewise as to such as immediately concern the municipality of which you are the representatives.

No additional stations have been established during the past year.

The average number of officers and men has remained about as during that year.

The fund placed at our command by the Board of Estimates was not expected by them to be, and has not been, sufficient to enable us to enlarge our pa-

trol service as we would have been glad to do and as the people in some quarters have reasonably asked; but it is believed that the officers and men have generally striven to discharge their duty and to meet the due public demand for their services.

While this board, in common with other departments which have special responsibilities, has felt and urged the importance of larger means for carrying on their work, they have sought to husband their annual allowances so as to fulfill all reasonable expectations.

A careful and intelligent analysis of the accompanying papers should show whether the trust has been faithfully administered.

Respectfully submitted,

SIDNEY D. MILLER,
M. S. SMITH,
JAMES E. PITTMAN,
HORACE M. DEAN,

Commissioners.

Accepted, and ordered printed and laid on the table.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 14th instant, to his Honor the Mayor for approval on the 15th, and that they were approved on the 18th day of February, 1879.

Accepted and placed on file.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Your Committee on Ways and Means, to whom was referred the reports of the City Controller, City Treasurer, Receiver of Taxes, City Collector, Market Clerk and Weighmasters of the Eastern and Western Districts, also the official bond of John Gnau, Constable of the Fourth Ward, beg leave to report that they have examined the same, and believing them correct and satisfactory, recommend that they be approved.

Respectfully submitted,

HENRY GROSS,

A. H. RAYNOR,

Committee on Ways and Means.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Foster, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—22.

Nays—Gies—1.

COMMITTEE ON TAXES.

Your Committee on Taxes, to whom was referred the petition of James Mapplebeck, praying that a tax sale of lot 224, Brevoort farm, north of Michigan avenue and west side of Williams avenue, for the year 1877, be cancelled, for the reason that the amount of the assessment was paid by the petitioner to the contractor, would respectfully report that we find that the petitioner paid the contractor, but did not pay certain costs and expenses incurred by the city in the matter, and he cannot avoid this expense by paying the contractor. We would therefore respectfully recommend that the City Treasurer cancel the sale referred to on the petitioner's paying into the treasury the sum of one dollar and fifty-seven cents, costs and charges.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—24.

Nays—None.

FROM THE SAME, CITY COUNSELLOR AND ATTORNEY.

Your Committee on Taxes, to whom, with the City Counselor and City Attorney, was referred those portions of the message of his Honor the Mayor, referring to the act creating a tax on dogs, the taxation of street and other railways, refunding taxes unjustly assessed or collected, receipt of taxes in certain cases without additional percentage, and changing the fiscal year, would report on these respective references as follows: The act creating a tax on dogs is not only defective in the means

necessary to its enforcement, but is also of doubtful constitutionality. The act is general, and is equally applicable to all parts of the State. Any changes that may be made to the act, or the advisability of repealing it altogether, are matters for legislative consideration, and we would recommend that the Committee on the Revision of the Charter present the matter to the Representatives in the Legislature from this city and request an early consideration of the matter.

The taxation of street and other railways is a matter to which the public attention has been frequently directed of late, and the opinions expressed in the message of the Mayor as to the inadequacy of the taxes assessed on this class of corporations have become universal. The peculiar local privileges and protection which they enjoy is not compensated for in the small aggregate of local taxes which they pay, nor in the general tax which they pay the State. We recommend that this portion of the Mayor's message be referred to the Committee on the Revision of the Charter, with special directions to advocate such measures as will tend to impose a more equal share of the public burdens upon the property of railway companies.

As to the changing of the fiscal year so that the same will begin July 1, of each year, we would report that an ordinance is now pending before this body to effect this result, and an act has been presented to the Legislature conferring authority upon the Council to borrow such sums of money for the current expenses of the city as this change may render necessary.

As to the matter of refunding taxes and assessments, the present charter permits no such refunding, except when the same have been unlawfully assessed or collected. This rule does not always work exact justice, and the provisions of the new charter permit a refunding where a tax or assessment has been unjustly made or collected, thereby enabling the Council to grant relief in a large class of cases where equity and justice would warrant such a course. Your committee, however, believe in holding citizens rigidly accountable for any negligence to appear before the proper boards or officers at the time appointed, in which to revise and correct tax and assessment rolls. When such an opportunity is afforded no citizen should afterwards expect the action of the Council to remedy a defect to which his own negligence has contributed, and in remedying which injustice may be done others equally interested.

As to the matter of paying general city taxes without percentage where parties have appeared in the office of the Receiver of Taxes before the expiration of the time allowed for such payments, and were unable to pay within the time by reason of the accumulation of business in that office, we would report that under the provision of the act now before the Legislature, citizens who present a list of their property at the office of the Receiver of Taxes on or before July 25 of each year, will not be required to pay additional percentage until their receipts have been made out.

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE,
WILLIAM C. MAYBURY,
City Attorney,
F. A. BAKER,
City Counselor.

Adopted.

SPECIAL COMMITTEE.

Your special committee to whom was referred the petition of Ed. W. Bissell and some thirty other persons, asking that additional powers be conferred upon the Harbor Master, would respectfully report that we find that under the present law the powers and duties of the Harbor Master are very limited and uncertain, but we are informed that under the proposed new charter full power is given to the Common Council to regulate this matter by ordinance.

In case of the failure of the charter to pass at this session of the Legislature the City Attorney, under the direction of your committee, has taken the precaution to present to one of our city members of the Legislature the title of a bill to be introduced at this time, and in case of the proposed

charter not passing, then the act regulating the duties of the Harbor Master will be called up.

Respectfully submitted,

WM. E. WARRINER,
CHAS. M. ROUSSEAU,
THOMAS MANNING.

It is hereby ordained by the Common Council of the City of Detroit:

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—On the 23d day of November last a verdict of \$5,000 for injuries occasioned by a defective crosswalk was rendered against the city in favor of Edward C. Norris, of Massachusetts, in the Circuit Court of the United States for this district. I entered a motion for a new trial and when it came up for argument Judge Brown ordered it to stand over until Judge Baxter should be here, when it would be considered by the full bench. The object of this is, if possible, to secure a certificate of division from the two Judges, which will send the case to the Supreme Court of the United States. I have this day received a proposition from Joslyn and Freeman, attorneys for Mr. Norris, offering to compromise the case for \$3,000, and I transmit the proposition to you for consideration.

Your obedient servant,

F. A. BAKER,
City Counselor.

Detroit, Feb. 19, 1879.

Referred to a special committee of three, viz.:
Ald. Monaghan, Ralph and Haller.

FROM THE CITY ENGINEER.

FROM THE CITY ASSESSOR.

To the Honorable the Common Council:

Gentlemen—I hereby recommend the appointment of Thomas L. Nolan to be clerk in the Assessor's office to fill vacancy in the clerical force of said office caused by the resignation of Wm. Stagg, said appointment to take effect from the 8th day of February, A. D. 1879, and respectfully request that your honorable body will confirm the same.

Respectfully,

GEO. W. GILBERT,
City Assessor.

Accepted, and Ald. Monaghan moved to confirm the nomination of the Assessor.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Daly, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Karrer, Manning, Monaghan, Rousseau and the President—15.

Nays—Ald. Connor, Finney, Jacob, Ralph, Raynor, Warriner—6.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 18th inst., to his Honor the Mayor for approval on the 19th, and that they were approved on the 21st day of February, 1879.

Accepted and placed on file.

REPORTS OF COMMITTEES.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of February 13, 1879, respectful report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds; excepting vouchers No. 11, 14 and 27, which are not approved by the committee.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER.

Ald. Guiney presented the following:

MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned, a member of the Committee on Claims and Accounts, respectfully reports that he cannot concur in the action of the majority of such committee in refusing to report favorably on the pay rolls submitted for the payment of clerks in the offices of the Controller, Assessor and Receiver of Taxes, respectively. I am satisfied that the appointment of the clerks referred to, on the recommendation of the incumbents of these offices, was intended to last during good behavior, and limited by the term of the incumbent. I do not believe that these employees of the city have ever been legally discharged from their duties, or their successors legally appointed. It appears that the persons whose names are mentioned in the pay rolls in question have performed their customary labors during the month, under the orders of their superiors, and I can see no reason why they should not be paid. I would therefore recommend the approval of the pay rolls submitted to the committee at the last session of this body.

Respectfully submitted,

DANIEL GUINEY.

Ald. Guiney moved the adoption of the minority report, which prevailed as follows:

Yeas—Ald. Alter, Boydell, Chene, Daly, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Karrer, Monaghan, Rousseau—13.

Nays—Ald. Connor, Finney, Foster, Jacob, Manning, Ralph, Raynor, Warriner and the President—9.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts to whom was referred the petition of Thos. Fitzsimmons, late assistant janitor, would respectfully report that when the pay roll of janitors for the last week in January came before this committee, it was understood by the committee, as well as by the Controller, that the difficulties between the two men had been settled by each agreeing to

take one half of the week's wages, and said roll was thus approved. One half the money has been paid the other claimant, therefore, your committee report adverse to said petition.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER.

Accepted and Ald. Guiney presented the following.

MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned member of the Committee on Claims and Accounts wishes to submit the following minority report on the petition of Thomas Fitzsimmons, asking that he be paid for the last week's work in January:

On the 23d of January the Council appointed one assistant janitor, leaving the other place without filling until the 1st of February, in the mean time all their men doing the work, and also, as there is no limit to the number of assistant janitors, it being the custom of the Controller and janitor to hire and discharge help as necessity requires. Therefore, in view of all these circumstances, and inasmuch as the work being done by the petitioner in good faith and not being asked by any authority to resign, I think it proper that he be allowed one week's wages.

Respectfully submitted,

DANIEL GUINEY.

Ald. Jacob moved to lay both reports on the table.

Carried.

PRINTING.

To the Honorable the Common Council:

Gentlemen—Your Committee on Printing to whom was referred the preamble and resolutions introduced by Ald. Monaghan at the last session relative to official printing, in the German language and the special act of the Legislature, in relation thereto, respectfully report: That having duly considered the same and concurring in the views therein expressed, except as to the amount or limit of such expenditure in any one year, would recommend their adoption.

Your committee would recommend as a substitute for the sum named in the second preamble of said resolutions, the sum of \$2,500, believing that would not be an excessive or unreasonable amount to expend for official printing in the German language in any one year, if the same be deemed advisable and necessary by this Council, to further the public good or to conserve the interests of a large and respectable portion of our taxpayers; our German citizens having a representation of over thirty per cent. on the tax rolls of our city, as your committee are reliably informed.

Respectfully submitted,

A. H. RAYNOR,
C. M. ROUSSEAU,
GEORGE A. FOSTER,
Committee on Printing.

Ald. Jacob moved to amend the report by striking out the figures \$2,500 as the expenditure for German printing.

Carried.

The report as amended was then adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Foster, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—21.

Nays—Ald. Finney—1.

LIQUOR BONDS.

To the Honorable the Common Council:

Your Committee on Liquor Bonds, to whom was referred the bonds of the several parties, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of John T. Fisher, Lena Amberg and Jacob Bartendorf.

Respectfully submitted,

JOHN CHR. JACOB,
SIMON C. KARRER,
MICHAEL DALY,
Committee.

Accepted and adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—22.

By Ald. Herrick:

Whereas, The General Fund is at present exhausted and there is no way provided in the city charter by which it may be replenished, and

Whereas, The contract now in force with the Michigan Gas Light Company for lighting the street lamps of the city, provides that said contract may be extended under the same conditions and terms as during the past seven months, if the city so elects; therefore,

Resolved, That the City of Detroit hereby elects to accept the privilege contained in said contract with the Michigan Gas Light Company, to extend such contract until the first day of July next, under the same conditions and terms as heretofore, and as mentioned in said contract; and, further,

Resolved, That the City Controller be and he is hereby directed to notify the said Michigan Gas Light Company of this action of the Common Council, and to prepare the proper agreement of continuance of said contract, and cause the same to be duly executed by the parties interested therein.

Ald. Finney moved to amend to extend the contract for one month.

Carried.

The report as amended was then objected to and laid over.

THIRTEENTH WARD.

By Alderman Gies:

Resolved, That the rules be amended, and a new rule be added to the rules, to stand as Rule 39, and to read as follows:

39. Whenever the roll call has been ordered no member shall be allowed to explain his vote, but shall do so before the roll call has commenced.

Laid on the table.

The Council then adjourned.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means to whom were referred the weekly reports of the various city offices ending February 15, 1879, report that with the City Accountant we have examined the

same, which we find to be correct and satisfactory, and we therefore recommend their approval.

Respectfully submitted,
HENRY GROSS,
A. H. RAYNOR,
Committee on Ways and Means.

Adopted as follows:

Yeas—Ald. Alter, Boydel, Chene, Connor, Daly, Finney, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—23.
Nays—None.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, together with the Fire Marshal, to whom was referred the petition to place lumber on a lot on the southeast corner of Michigan avenue and Twelfth street, would respectfully report, that as the permission asked for conflicts with section 10 of the present Fire Limits ordinance, which prohibits the storage of lumber or other like material within the fire limits, must report adverse to the prayer of the petitioners.

Respectfully submitted,
SIMON C. KARRER,
JOHN CHR. JACOB,
THOMAS J. GRIFFIN.

Adopted.

FROM THE SAME.

Your Committee on Fire Limits, to whom was referred the resolution of Ald. Chene on the instant directing the Michigan Gas Light Company to remove the naphtha stored in a building in the alley bounded by St. Aubin, Congress, Fort and Dubois streets, would respectfully report that they have examined the matter thoroughly, and find that the company complies with the ordinance, which fact is also corroborated by the Fire Marshal, and we therefore cannot recommend the removal of the naphtha stored in the above mentioned building.

Respectfully submitted,
SIMON C. KARRER,
JOHN CHR. JACOB,
THOMAS J. GRIFFIN.

Laid on the table for one week.

FROM THE SAME.

Your Committee on Fire Limits, to whom was referred the petition of John C. Neubrunner regarding the construction of a certain shed upon his premises, would respectfully report that the matter is entirely out of the jurisdiction of your committee and we therefore ask to be relieved from further consideration of the subject.

Respectfully submitted,
SIMON C. KARRER,
JOHN CHR. JACOB,
THOMAS J. GRIFFIN.

Adopted.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom was referred the resolution of Ald. Haller, also the amendment offered by Ald. Karrer, instructing the City Controller to include in his estimate for 1879 the sum of \$5,000 for the erection of a suitable market building on the Western Hay-market grounds, respectfully report:

The Common Council has officially changed the fiscal year, so that the same shall hereafter begin July 1, instead of February 1, as heretofore. The operation of this change will necessitate a tax levy for seventeen months instead of twelve, which fact of itself will necessitate an increased demand on the taxpayers of the city for means to conduct the city government for that length of time. We therefore think that no money should be asked for except for actual necessities, and feel obliged to report adversely to the adoption of the resolution and amendment.

HENRY GROSS,
GEO. A. FOSTER,
GEO. W. HERRICK.

Adopted.

SPECIAL—REVISION OF THE CHARTER.

To the Honorable the Common Council:

Gentlemen—Your committee appointed to revise the city charter respectfully report that they have

prepared a bill for that purpose, and have had it introduced into the Legislature by Senator Weir, who was a member of this committee until his term as Alderman expired. Printed copies of this bill, as introduced, are herewith submitted. The following is a brief summary of the principal changes proposed:

I.

The legislative power of the city government is now vested in a Council composed of the Aldermen and in a Board of Estimates. It is proposed to have the Common Council composed of two bodies, an upper and a lower house, the upper house to be known as the Board of Councilmen, to be composed of fifteen members elected in the city at large, and five members to go out of office each year. The lower house to be composed of the Aldermen, who are to be elected by wards, the same as under the present charter. The members of the Upper House are to serve without compensation, and are to perform all the duties now performed by the Board of Estimates and such additional duties concerning the finances and the general conduct of the affairs of the corporation as are usually possessed by such a body. The only power of the Board of Estimates is to reduce the annual appropriations and to approve of the issue of bonds pledging the faith and credit of the city. As they only meet once a year, they do not become sufficiently familiar with the city government and with the subjects with which they have to deal, and as the Council has power to enter into contracts and to expend the money appropriated, the board is not in a position (as the Upper House would be) to insist upon its policy and measures. We, therefore, are of the opinion that upon the organization of the Upper House, the Board of Estimates should be discontinued, and the bill is drawn accordingly.

II.

The Executive Department is left substantially as now constituted, with these exceptions: The power of the Council to elect certain officers is taken away and all heads of departments are to be nominated by the Mayor and confirmed by the Council in joint convention, and the heads of departments are to appoint their own clerks and subordinates. No legislative body should exercise executive functions, and the power of appointment is executive, and not legislative, in its nature; and it is sufficient to say that the violation of this principle by the present charter has produced unsatisfactory results and has had a tendency to bring the Council into disrepute.

No change is made in the organization or powers of the corporate boards of the city. The provision requiring the Council to levy \$75,000 a year for the interest or sinking fund of the Water Board is repealed, and the Council given power in its discretion to levy taxes to help maintain the Water Works. We believe this power should exist, so that the whole expense of maintaining the water supply need not fall on the water consumers. There is a large amount of vacant or unoccupied property that is benefited by the Water Works, and which should not wholly escape the burden thereof.

The management of the poor fund is placed in the hands of three Poor Commissioners, who are to buy supplies and disburse them in kind, only making such cash disbursements as are absolutely necessary. We believe this is a great improvement, and as far as we are able to learn, it is very generally approved by the people of the city.

III.

In the chapter on taxation and finance it is provided that the annual tax levy shall not exceed one per cent. of the assessed value of all the taxable property in the city, and that the debt of the city, including that of the Water Board, shall not exceed two per cent. This will prevent the borrowing of any money whatever until the gross debt has been reduced to something less than \$3,000,000. Two per cent on the assessed value is as much, in our opinion, as any city ever ought to owe.

The collection of personal property assessments is taken out of the hands of the ward collectors and placed in the hands of the Receiver of Taxes and his subordinates. The office of City Collector is abolished and his duties transferred to the Receiver of Taxes. These changes are made on the theory

that the receipt and collection of all taxes and special assessments should be in one department, under the direction and control of a responsible head.

The commencement of the fiscal year is changed from February 1 to July 1. This is a matter of considerable importance, and a separate bill has been introduced to secure authority to make a temporary loan to defray the expenses of the general fund during the interim of five months.

IV.

There are numerous minor changes not necessary to be mentioned in this report. The principal object has been to reduce the charter to a single harmonious act, only making such change as have been suggested by experience, or are advisable for the purpose of making the provisions of the charter clear and intelligible.

Respectfully submitted,

CHAS. M. ROUSSEAU,
JOHN MONAGHAN,
Committee on Judiciary.
GEO. C. LANGDON,
Mayor.
H. B. BRIDGE,
Controller.
F. A. BAKER,
City Counselor.

FROM THE SUPERINTENDENT OF POLICE.

To the Honorable the Common Council:

Gentlemen—I most respectfully ask your honorable body to appoint a committee to inquire into and investigate repeated cases of swindling "reported to me by various persons," by J. D. Burton, doing an auction business on Woodbridge street by virtue of a license from the city. I desire to submit evidence to your committee with a view of having the license revoked.

Very respectfully submitted,

A. J. ROGERS,

Superintendent of Police.

Referred to the Committee on Licenses.

FROM THE INSPECTORS OF THE HOUSE OF CORRECTION.

To the Honorable the Common Council:

The attention of the undersigned having been called to the matter by the Superintendent of the House of Correction, we have made careful personal inspection as to certain needs of the institution in the way of repairs and improvements.

We therefore present our decision as to those matters only which we think require immediate attention.

As the expenditures which we recommend are for repairs or improvements which may not be considered "ordinary," it is our duty under the law to ask the sanction of your honorable body before appropriating money for the purpose.

The supply of water to the premises is barely sufficient for ordinary purposes. In case of a fire there is practically no supply on the premises which can be resorted to. It is a fact which we have tested, that when water is being drawn for ordinary uses in one part of the premises the supply is thereby cut off in other parts.

The insurance usually carried on the buildings and contents costs from \$1,500 to \$2,000 per annum, and it has been usual to carry insurance upon the valuable stock in lumber, timber and choice woods in the yards.

We recommend increasing the water supply and giving to the institution facilities for protecting itself from fire. This may be done by the introduction of a six-inch inlet pipe, from the north side, at a cost estimated at \$500, and by a fire pump and connection, at an estimated cost of \$1,100.

With these we think the insurance might be reduced and a very valuable property protected, which now has no insurance.

Secondly: The boilers which supply the steam throughout the buildings are in an unsafe condition. It is a matter of immediate need that new boilers be supplied. They should be placed in a boiler house built for them.

Considerations of humanity, to say nothing of property, require that this should be done. The necessity for new boilers and boiler house is so well known a statement of reasons seems unnecessary. The cost we estimate at \$5,500.

Thirdly: There is no ventilation, properly speaking, of the cane shop, halls, hospital and certain other work rooms.

The air of some of these rooms in cold weather, when filled with working men and women, is simply too foul for any living creature to breathe.

No man can pass through the cane shops when the people are at work and recover from the evil effects of filling the lungs with that air in hours. Yet these poor people stand and breathe, it from morning till night. There is no more crying evil in the institution than this, and we most respectfully urge that you will as promptly as may be, sanction an appropriation for the ventilation of these rooms,

Our estimate of the cost is fifteen hundred dollars (\$1,500).

The other repairs recommended by the Superintendent are of an ordinary character, and it is unnecessary that we should bring them to your attention.

All of which is respectfully submitted.

WILLIAM FOXEN,
DON M. DICKINSON,
Inspectors House of Correction.

Accepted, and on leave the following resolution was offered:

By Ald. Karrer:

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means to whom was referred the report of the clerk of the Recorder's Court for the year 1878, showing the amount of fines collected to be \$1,988 40, report, that, with the City Accountant, we examined in detail the books of the Recorder's Court, and also the books of the City Attorney, and find the amount stated to be correct. We therefore recommend that the report be accepted and placed on file.

Respectfully submitted,

F. G. RUSSELL,

HENRY GROSS,

A. H. RAYNOR,

Committee on Ways and Means.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Your Committee on Ways and Means to whom was referred the reports of the city officers for the week ending February 21 report that they have examined the same and find them correct with one exception, to wit: The report of the Weighmaster of the Western District. In this report there appears a shortage of forty-six cents, which said officer should make good to the city. This shortage arose from the manner of figuring the fees for weighing hay. The committee believe that said officer is not subject to criticism for the shortage, but believe that if he were more careful in figuring the per cent. on the fractions of hundreds which he is entitled to collect there would be no such deficit. Your committee take this occasion to call atten-

tion to the somewhat unbusinesslike methods of city officers in presenting their weekly reports in this that some of them present their vouchers a week before their report, but we see no reason why they should not be printed together, and we therefore recommend that all city officers whose duty it is to make weekly reports hereafter file the proper vouchers with such reports.

Respectfully,

F. G. RUSSELL,

HENRY GROSS,

A. H. RAYNOR,

Committee on Ways and Means.

Laid on the table for one session.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means to whom was referred the annual report of the City Controller, beg leave to submit that we have considered the matter with care and much pleasure. When many other cities are struggling for actual existence beneath a millstone of indebtedness that has fallen upon the neck of taxpayers because of extravagance and frequently corruption in office, it is and should be a matter of congratulation amongst ourselves and the good citizens whose servants we are, that the indebtedness of our city, county and State is light and will soon be extinguished.

Detroit has been styled a slow and too conservative city by some, but your committee and, as we believe, all thoughtful citizens, will not blush at such criticism, so long as our bonds command higher premiums than any other municipality; so long as our people own their own homes, and substantial prosperity and good order prevail within our boundaries. We approve the recommendations of the Controller and trust the city will always be favored by having in that office a gentleman as much entitled to confidence as the present incumbent for experience, integrity and good judgment.

F. G. RUSSELL,

HENRY GROSS,

A. H. RAYNOR,

Committee.

Accepted, and adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—25.

Nays—None.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts with the Controller, to whom was referred the petition of Peter Zeau, would respectfully report that we have had the same under consideration, but fail to find that said services were rendered to the city; we therefore report adversely to said petitioner.

Respectfully submitted,

SEYMOUR FINNEY,

WM. E. WARRINER,

DANIEL GUINEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 25th of February, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds. Also, voucher No. 15, for inspecting wood in the Eastern District, submitted by the Controller to the Council February 21, 1879, is approved and payment recommended from the proper fund.

Respectfully submitted.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

Gentlemen—Your Committee on House of Correction and Board of Inspectors, to whom was referred the communication of his Honor, the Mayor, of January 31, relative to the Superintendent of the House of Correction paying into the city treasury the sum of \$35,000 of the surplus funds on hand of that institution, would report that in handing over to the city the surplus of \$35,000 would in no wise impair the efficiency of the operation of the House of Correction in the slightest degree, and would therefore recommend the adoption of the following resolution:

Resolved, That the Superintendent of the House of Correction be and he is hereby requested and authorized to check out and pay into the city treasury from the surplus funds in his hands the sum of \$17,000 for the benefit of the interest fund, and \$8,000 for the general fund.

WM. E. WARRINER,
JAMES I. MITCHELL,

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Mrs. Maria Melmes, setting forth that in the years 1874 and 1875 she paid her taxes on lot 29, in block 24 of Joseph Campau farm, that through a mistake the clerk in the Receiver's office marked as paid lot 28 instead of said lot 29, and she now finds that her lot was sold to the city for taxes and asks that such sale be canceled, would respectfully report that we regret the petitioner did not attend to the matter before, but at this late date your committee would only recommend that the City Treasurer be and he hereby is instructed to accept from Mrs. Maria Melmes the amount, \$8 71, for which said lot was sold, and on receipt of that amount to cancel said sale.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

Accepted and adopted.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Simon C. Karrer, setting forth that he is the owner of lot 16, in block 24, of the Joseph Campau farm, and that said lot is triangular in shape; that he was assessed on said lot the sum of \$381 24, for paving Gratiot avenue in front of the same; that such assessment was too large, and therefore, he prays that an abatement be granted him; would respectfully report that we have examined the same and find that the petitioner is entitled to a rebate on such assessment, and recommend that he be refunded the sum of \$81 33 on presenting a receipt for the payment of the original assessment in full.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.
F. A. BAKER,
City Counselor.

Accepted, and on leave the following resolution was offered:

FROM THE CONTROLLER.

To the Honorable the Common Council:

Gentlemen—The special act, authorizing the Common Council to borrow for the use of the interest and general funds a sufficient sum to cover

the deficiency in these funds, to an amount not to exceed \$30,000, having passed both Houses of our State Legislature and received the approval of his Excellency, the Governor, has become a law. As there are many claims and demands against these funds, such as for lighting the street lamps, public printing, stationery, etc., etc., which cannot be paid for the want of funds, I respectfully suggest that the necessary authority to make this loan, at such times and in such amounts as may be found necessary, be now granted.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

Accepted, and on leave the following resolution was offered:

By Ald. Russell:

Whereas, The Legislature, by an act approved March 4, 1879, has changed the commencement of the fiscal year of this city from February 1 to July 1, and has authorized the Common Council with the consent of the Board of Estimates to make a temporary loan on the faith and credit of the city of a sum not exceeding \$30,000 to defray the expenses of the interest and general funds during the interim of five months occasioned by such change;

Resolved, That the sum of \$30,000 be borrowed on the faith and credit of the city for the purposes aforesaid; that the bonds of the city be issued therefor, each bond to be for not less than \$500, and one-fourth of the total amount thereof to be paid on the first day of August, 1880, one-fourth in two years thereafter, one-fourth in three years thereafter and one-fourth in four years thereafter, and to bear interest at seven per centum, payable at maturity of bond.

Resolved, That said bonds shall be executed by the Mayor and Controller, and the sale thereof shall be negotiated by the committee provided by the charter for the negotiation of all loans, but said bonds shall not be sold for less than par.

Resolved, That a meeting of the Board of Estimates to consider the question of making said loan be held at the Council chamber on Monday, the 10th day of March, 1879, at 7:30 o'clock in the evening, and that the Hon. M. I. Mills, President of the Board of Estimates, be requested to also call said board together at that time.

FROM THE CONTROLLER.

ANNUAL ESTIMATES.

To the Honorable the Common Council:
Gentlemen—I herewith respectfully submit my estimates of the amount of money required for the various funds under my official charge, together with the annual estimates of the various boards

and commissions of the city government, for the fiscal year 1879. As the fiscal year has been changed by the action of the State Legislature—so as to make that year identical with the financial year, viz., commencing with July 1 and ending with June 30—these estimates are made to cover seventeen months, viz., from February 1, 1879, to June 30, 1880. They are prepared, however, so that comparisons may be made between twelve months of the ensuing fiscal year with the last fiscal year of twelve months, the estimates for the additional five months of the year being made in separate columns, so as to be the better understood.

Respectfully, etc.,

H. P. BRIDGE,
Controller.

FROM THE BOARD OF HEALTH.

To the Honorable the Common Council:

Gentlemen—At a meeting of the Board of Health held March 5, 1879, Dr. Duncan McLeod was nominated for Health Officer.

Very respectfully,

LOUIS DILLMANN,
Secretary Board of Health.

Ald. Monaghan moved to substitute the name of Dr. Elisha Leach in place of Dr. McLeod.

Carried as follows:

Yeas—Ald. Alter, Boydell, Daly, Foster, Gies, Griffin, Groes, Guiney, Haller, Herrick, Karrer, Manning, Monaghan, Rousseau and Ryan—15.

Nays—Ald. Chene, Connor, Jackson, Jacob, Mitchell, Ralph, Raynor, Warriner and the President—10.

The question then being on the nomination of Dr. Leach, Ald. Mitchell moved to lay the same on the table for one week.

Dr. Elisha Leach was then appointed Health Officer by the following vote on confirmation:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Foster, Gies, Griffin, Groes, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—24.

FROM THE BOARD OF PUBLIC WORKS.

CITY OF DETROIT,

OFFICE OF THE BOARD OF PUBLIC WORKS,

DETROIT, March 7, 1879.

To the Honorable the Common Council:

Gentlemen—The Board of Public Works to whom was referred the proposals received by the Controller for constructing stone and plank sidewalks during the fiscal year 1879, respectfully report as follows:

For the Eastern and Western Districts Mr. Considine proposes to build sidewalks in front of private property for twenty-eight and thirty cents per lineal foot, and for sidewalks in front of city property

twenty-four cents per lineal foot. Mr. Haight, the other lowest bidder, proposes to build side and intersection sidewalks for the sum of twenty-eight cents per lineal foot. It is evident, from facts elicited, that it was intended, although inadvertently omitted to be so expressed in the advertisement inviting proposals, not to include bids for either plank sidewalks in front of city property or for intersection sidewalks, and the request referring to the same applied solely to stone sidewalks. Such being the case, the board is of the opinion that both of the lowest bids are informal, and recommend that they be rejected; also, that the Controller be authorized to readvertise five days for proposals for constructing plank sidewalks in front of private property.

For stone sidewalks the board is of the opinion that Calvin A. Cook is the lowest bidder, and recommend that he be awarded the contract.

Respectfully submitted,

WM. PURCELL,
President.

Accepted and on leave the following resolutions were offered:

By Ald. Jacob:

Resolved, That the proposals received by the City Controller for constructing plank sidewalks be rejected, and he be directed to readvertise five days for proposals for constructing plank sidewalks ordered by the Common Council during the fiscal year 1879.

Resolved, That the City Controller be directed to contract with Calvin A. Cook for constructing stone sidewalks ordered by the Common Council during the fiscal year 1879, he being the lowest bidder thereof.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Ryan, Warriner and the President—24.

Nays—None.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

Gentlemen—On account of the death of one of the parties on my official bond, I herewith submit a new one, and trust it will prove satisfactory.

Respectfully yours,

Gentlemen—Please do me the honor to accept the annexed pre-historic paper which explains itself.

Respectfully yours,

LEVI BISHOP,
Historiographer.

LOSS OF THE GRIFFIN—1879-1879.

BY LEVI BISHOP.

Read at the annual meeting of the State Pioneer Society, at Lansing, Mich., Feb. 6, 1879.

Note.—In the year 1879, LaSalle made his voyage to the west by way of the lakes. At Niagara he built a brig which he named the Griffin, in which he sailed for Mackinaw. There he sent the vessel back for supplies, but she was never heard of after. In the following composition an aged Indian chief is supposed to be standing on Duck Island, in Lake

Huron, and that he sees the brig driven to destruction in a storm, by Michabou, the great Manitou of the lakes. The rocks, caves and groves of Mackinaw were the home, palace and the capital of this Manitou. The Chief did not, of course, live to relate the loss of the Griffin, but in his supposed language, as here given, I have endeavored to exhibit the spirit of the Indian mythology, as felt and expressed in Michigan, two hundred years ago.

The Manitou is angry. Fierce He raves.

His heaving breath—that whirlwind roar.

The mighty waves He piles on mountain waves.

He hurls them to this rocky shore.

But what can thus His dreadful anger raise?

What sends Him howling far and wide?

Great Michabou, Thy name we ever praise,

But let Thy fearful rage subside.

Behold Him on the raging tempest sweep.

The spirit-god of high renown;

The monsters flee, beneath the rolling deep;

Creation trembles at His frown.

See now, He mounts the black and threatening cloud,

Swift arrows flashing from His eyes.

Hear now His voice, in crashing thunder loud.

Big tears are dropping from the skies.

Perhaps He would some goblin spirit chase,

From His proud home at Mackinaw;

Perhaps a Manitou of rival race

Would bold invade His righteous law.

But what is that I see upon the foam,

That seems to labor as for life?

Small fleeting clouds, on poles, appear to roam,

And sink and rise amid the strife.

Yea, more; I there behold, or so they seem,

Of my own race, the active form.

Despair and woe in human faces gleam;

Can men there struggle with the storm!

Yea, men and fate are moving hand in hand.

No friend can reach them from the shore.

The Manitou forbids the distant land.

He strikes. They now are seen no more.

And will the evening star's resplendent beams

Invite the stranger souls to rest?

And will their spirits rise to Land of Dreams,

That future home in distant West?

The voice of Michabou no more is loud.

He now displays the victor smile.

His painted bow He hangs on yonder cloud,

His arrows now may rest awhile.

And back He quiet sweeps to Mackinaw,

His fatal vengeance fully told.

No sailing Imp will now condemn his law;

Nor Manitou however bold.

His anger past, serene reaction comes;

The sky and lake are calm again.

The hunters now may reach their distant homes;

But Michabou alone will reign.

Accepted and placed on file.

FROM THE INSPECTORS OF THE HOUSE OF CORRECTION.

To the Honorable the Common Council:

The undersigned, members of the Board of Inspectors of the Detroit House of Correction, to whom, with the committee of your honorable body, was referred the communication of his Honor the Mayor, of January 31, relative to the Superintendent of the House of Correction paying into the city treasury the sum of \$25,000, most respectfully dissent from the report of three members of that committee, which was presented at the last meeting of the Council, signed by Aldermen Warriner and Mitchell, and Inspector Colburn, of our board.

The appropriation of so large an amount from the funds of the House of Correction, is in our judgment, to say the least, premature, as the new Superintendent has not yet completed his inventory and appraisal, or his account of bills receivable.

The institution has on hand about the sum of \$25,000, it owes nearly half of that. The contemplated repairs will cost about \$17,000.

So that this money, if paid out, is to be paid on

the strength of the probable value of the assets of the concern, which have not been converted into money.

We do not think this should be done until we know the character and the value of the assets.

The Superintendent is hard at work taking account and appraisal of the stock and other assets.

We dissent from the resolution submitted by the above-named members of your committee for the further reason that it assumes authority in your honorable body to direct the disposition of the funds of the House of Correction without the assent of the Board of Inspectors.

We most respectfully submit that no appropriation of money can be made from the funds of the institution unless such appropriation originates with the board.

Undoubtedly such an appropriation for such an extraordinary purpose like this, would require the sanction of your honorable body, but we are advised and are of the opinion that the Board of Inspectors alone can originate the appropriation.

Our meeting, held at the House of Correction on Monday, February 24, adjourned to meet with your committee by invitation the next day. On that day neither Mr. Warriner nor Mr. Colburn were present and no formal action was taken by the committee.

We were not aware that there was to be a report sent in, and knew nothing of it until we saw it in the official proceedings of your honorable body at the last meeting. Had we been invited to concur or non-concur in the report we would have sent in this communication at the same time with that report.

WILLIAM FOXEN,
DON M. DICKINSON,

Inspectors Detroit House of Correction.
Dated, Detroit, March 7, 1879.

I fully concur in the conclusions above set forth.
SIMON C. KARRER,

Of Committee on House of Correction.

Laid on the table and ordered printed in the proceedings.

PRINTING.

To the Honorable the Common Council:

Gentlemen—Your Committee on Printing, to whom was referred, at the last session of the Council, the communication of the City Controller, relative to proposals received for official and legal printing for the city for the balance of the fiscal year, ending June 30, 1880, together with the communications from James E. Scripps, President of the Evening News Association, and James H. Stone, Manager of the Post and Tribune Company, relative to an interchange of contracts between their respective papers, respectfully report that we have carefully examined the written proposals for such printing, and find that the proposals of the Evening News Association are the lowest for official printing, and those of the Post and Tribune Company are the lowest for legal printing. The propositions from the managers of these papers contemplate an interchange of contracts; that is, the Post and Tribune Company propose to do the official printing upon the terms and prices as proposed by the Evening News Association, and the Evening News Association to do the legal printing upon the terms and prices as proposed by the Post and Tribune Company. As this interchange of contracts is with the consent of all parties inter-

ested, and can result in no additional expense to the city, we see no objection to the acceptance of the propositions. We therefore recommend the adoption of the accompanying resolutions.

A. H. RAYNOR,
CHAS. M. ROUSSEAU,
GEORGE A. FOSTER,
Committee on Printing.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—The operation of the ordinance prescribing the duties of the weighmasters in the city of Detroit, approved December 31, 1873, has developed the fact that there are some impracticable features in the ordinance. I allude to section 8, which provides that all certificates of weight should be countersigned by the Controller, and that such certificate should show the name and residence of the buyer. Also section 9, which requires that the weighmaster shall, on Monday of each week, make detailed statement of all loads weighed, &c., &c. These directions or requirements are impracticable, because it is impossible for the Controller to countersign such certificates unless they are brought to him for that purpose, which I regard as an unreasonable demand upon the buyer; as the name of the purchaser is generally not known at the time of weighing, it is frequently impossible to fill that blank on the certificate. To require the weighmaster to make a detailed statement of all the transactions of the hay-scales would necessitate too voluminous a report for him to prepare without assistance. I therefore respectfully recommend that the ordinance be referred to the committee on ordinances and City Attorney for revision. Respectfully, &c.

H. P. BRIDGE, Controller.

Accepted, and reference made as requested.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Park street, from the north curb line of Adams avenue to the north line of Peterboro street, the lots and parcels of real estate situated on said Park street embraced within said limits and fronting the portion of said Park street ordered to be improved by said grading and paving, shall be and the same are hereby constituted and declared to be one local assessment district.

17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Board shall receive the report of the City Engineer showing the quantity of the grading, paving and cross-walks, and other work required on said Park street said Board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving and for cross-walks on said Park street in accordance with the provisions of the charter and ordinances of the city of Detroit.

REPORTS OF COMMITTEES.

SEWERS.

To the Honorable the Common Council:

GENTLEMEN—The committee on sewers, to whom was referred so much of the annual estimates as provides means for the construction of public sewers, respectfully report as follows:

Your committee in the first instance were disposed to return the estimates to the Council as at first submitted, but upon considering the surrounding circumstances concluded that, although improvements of this nature are a means of support to the unemployed, yet with the example that has heretofore been set it would be impracticable for your honorable body to recommend expenditures unless demanded by public necessity.

The committee therefore recommend the following as the estimates to be submitted to the Board of Estimates:

ESTIMATES—1879.

Public Sewers.

Twenty-fourth street, from present terminus to the north side of railroad, south of Michigan avenue, amount of estimates, seventeen months, \$5,000; twelve months, \$5,000.

St. Aubin avenue, from Fremont street to Warren avenue, amount of estimates, seventeen months, \$5,300; twelve months, \$5,300.

Chene street, from Frederick street to Summer street, amount of estimates, seventeen months, \$3,017; twelve months, \$3,017.

Grandy avenue, from a point 75 minutes north of Warren avenue to Ferry street, amount of estimates, seventeen months, \$5,500; twelve months, \$5,500.

Mt. Elliott avenue, from Gradiot avenue to a point 1,000 feet north, amount of estimates, seventeen months, \$1,375; twelve months, \$1,375.

Twelfth street, from Merrick street to north side of railroad, amount of estimates, seventeen months, \$4,218.

Total amount of estimates, seventeen months, \$55,559; twelve months, \$51,334.

The total amount deducted from the seventeen months estimates is \$31,065, and the total amount deducted from the twelve months estimates is \$19,800.

Respectfully submitted,

JAMES F. MITCHEL,

THOMAS J. GRIFFIN,

FRANCIS ALTER,

Committee on Sewers

Laid on the table for one session.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your committee on streets, to

whom was referred the estimates of the controller for the general road fund for the ensuing year, would respectfully report that we have considered the items contained in the estimates in detail, and find that they correspond very nearly with the expenditures made in former years for the purposes of this fund. We therefore herewith report back the estimates for the general road fund, without any changes therein, and would respectfully recommend that the amount submitted by the controller be adopted by this body.

Respectfully submitted,
JOHN CHR. JACOB.
THOMAS MANNING.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your committee on streets to whom was referred the communication of Eugene Robtson asking that he be paid the money due him upon the contract for paving Second street, between Woodbridge and Front streets, would respectfully report as follows:

We find the facts to be that the cost of the work done is less than \$500, and under the charter the Controller cannot issue a bond for a less amount than \$500. The assessment rolls have been made in the usual form and are divided into parts, payable at the expiration of one, two and three years. In some cases the parties assessed have paid one-fourth part of their assessments, and under the terms of the assessment as made they are entitled to the extension of time provided for in the rolls. On the other hand, under the terms of his contract, the petitioner is entitled to a bond or to an assessment collectable forthwith. Under these circumstances there are three methods of solving the difficulty. Either by ordering a new assessment or issuing a bond, or taking an assignment of the assessment as made. The objection to the first mentioned method is that many of the parties have already paid in part and have paid the interest accruing on parts not yet payable. If a new assessment is made under this state of things it would be of very doubtful legality. The objection to the second mentioned method is that if the Controller issues a bond for a less amount than \$500 he violates the letter of the charter in so doing, although we believe that such a violation would not be fatal to the validity of the bond. It is a precedent, however, which we do not desire to see established. The last method mentioned appears feasible and has less objectionable features than the others. If the city takes an assignment of the assessment as made—and it is undoubtedly a valid assessment—it will have the same security that it would have for payment if a bond had been regularly issued. We, therefore, recommend that the Controller be directed to take an assignment of this assessment from the contractor and to pay out of the contingent fund the balance due for the work.

respectfully submitted.

JOHN CHR. JACOB.
THOMAS MANNING.

Referred to the City Counselor.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned aldermen of the Fifth Ward, to whom was referred that part of the Controller's estimates relating to the Road District fund for said ward, beg leave to report that they have considered the same, and they recommend that the sum of \$4,968 83, as reported by said officer, be raised for the purpose of road work in said ward, according to the purpose of the charter relating to road district funds, for the fiscal year ending June 30, A. D. 1890.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your committee on markets and the City Controller, whose duty it is, annually, in the month of March, to establish and grade the minimum rent to be paid per month upon all the meat stalls and vegetable and fish stands in the public markets, and, when so established as aforesaid, to report the same to the Common Council for confirmation—respectfully report that they have considered the subject and have established the following rates for the ensuing year, which rates are the same as last year, and heretofore approved by the Common Council.

In this connection we would report that during the 12 months ending January 31, 1879, the collections from the public markets have been \$18,338 80, of which \$3,300 was the rent of the Central meat market.

We would further recommend that the rules for the government of the markets heretofore established be continued in force without change. Also that, since complaint has been made that the eating stands now located on the south side of the vegetable market are objectionable, and interfere with the regular traffic in vegetables and fruits, for which purpose that market was really established, the said eating stands be removed to the north side of the market building.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—The committee on ordinances and City Controller and City Attorney, to whom was referred the communication of the Controller defining the duties of Weighmaster and regulating the weighing of hay and straw, beg leave to report that they have considered the matter and recommend the adoption of the accompanying ordinance.

This ordinance is simply to remedy defects in the old ordinance which made that impracticable and difficult of enforcement and to reduce the fees for weighing so as to meet the wishes and demands of farmers and others bringing hay and straw into the city for sale on the public markets.

Respectfully,

F. G. RUSSELL,

JOHN MONAGHAN,

GABRIEL H. CHENE,

Committee.

H. P. BRIDGE,

City Controller.

WILLIAM C. MAYBURY,

City Attorney.

The following is the ordinance:

AN ORDINANCE to amend sections 3, 4, 5 and 6 of an ordinance approved December 31, 1878, entitled "An ordinance prescribing the duties of Weighmasters in the city of Detroit."

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. That sections 3, 4, 5 and 6 of an ordinance approved December 31, 1878, entitled "An ordinance prescribing the duties of Weighmasters in the city of Detroit," be, and the same are hereby severally amended so as to read as follows:

Sec. 3. It shall be the duty of the Weighmaster to weigh any hay, coal or straw which may be brought to the public scales under his charge, and after deducting the weight of the cart, wagon or sled he shall deliver to the owner the certificate hereinafter provided. He shall demand, and is authorized to collect from the person in charge, as a market fee, for each load of hay brought upon the market grounds drawn by two animals, the sum of thirty (30) cents, and for each load of straw, and for each load of hay drawn by one animal, the sum of fifteen (15) cents, and for each load of coal the sum of ten (10) cents, the payment of which said market fee shall be in lieu of all other charges, and shall entitle the person paying the same to the privileges of the scales. It shall be the duty of each Weighmaster to be in attendance at his office from 7 o'clock in the morning until 7 o'clock in the evening of each day.

Sec. 4. Persons owning or having in charge carts, wagons or sleds, loaded with hay or straw, shall not permit the same to stand in any street, avenue, alley or public space; but all such vehicles shall stand at or adjoining the public hay scales in such order as shall be prescribed by the weighmaster.

Sec. 5. This ordinance shall not apply to straw made up into and sold by the bundle.

Sec. 6. The Controller shall furnish each weighmaster with a book containing blank certificates printed in duplicate form, which certificates shall be numbered and stamped by the Controller. And it is hereby made the duty of the Weighmaster upon weighing any hay, straw, coal or other commodity, or any animal, to deliver to the owner or person in charge thereof one of such duplicate certificates, to be an exact copy of the certificate retained in the book. Such certificate shall show the name and place of residence of the purchaser and seller, the kind or nature of the commodity or thing sold, the gross and net weights, the amount of fees paid, and shall be signed by the Weighmaster delivering the same; provided, that while any commodity or thing is brought upon the market grounds but not weighed, the certificate shall be required to show the name of the seller and purchaser, when the same can be ascertained, and the nature of the commodity or thing, and whether the vehicle is drawn by one or two animals.

Read twice by title and ordered printed.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the remonstrance of Augustus Kaiser, M. D., against the election of John C. Jacob as a member of this body from the Seventh ward, claiming to have the majority of legal votes cast for the office of alderman of said ward, would respectfully report as follows:

Your committee held three separate sessions at the Council Chamber—the claimant, Mr. Kaiser, being invited to attend each of such meetings, which he neglected to do, finally sending a message to the chairman of the committee which is hereto appended and in which he directs the

committee to proceed according to its judgment. Under the circumstances of Dr. Kaiser's not attending the meetings and authorizing no one to represent him your committee did not deem it a duty to open and canvass the votes in his absence. It is conceded by all that the opening of the ballot-boxes when sealed can only be justified by the most absolute necessity and should only be resorted to when the parties interested are present at the count and witnesses of the manner in which it is made. No re-count of votes would be considered conclusive or binding upon the parties which was not thus made. Your committee believes that Dr. Kaiser has forfeited by his continued absence any right to demand a re-count of the votes—a right which your committee would willingly accord him if he were present and demanded the same. We ask to be discharged from any further consideration of the case.

Respectfully submitted,
SEYMOUR FINNEY,

A. J. RAYNOR,
WM. BOYDELL,
DANIEL GUINNEY.

The following was also submitted in the same connection:

S. Finney, Esq., Chairman Special Committee:
DEAR SIR—It is impossible for me to come. Act in this matter according to your judgment.
Yours respectfully,

AUGUSTUS KAISER, M. D.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, members of the special committee appointed at the session of the Council held on Tuesday, the 11th of March inst., to whom was referred the petition of C. Van Huse and 14 others, asking that the old brick building used for meat market purposes, situated in the middle of Michigan Grand avenue, be removed, and the street paved, respectfully report that, as your committee cannot agree upon the course proper to take in the matter, we herewith present our views on the subject, which we respectfully recommend to your honorable body for adoption.

We report adversely to the prayer of the petitioners for the following reasons:

The space now occupied by the brick building in question, together with that formerly occupied by the old City Hall building, is large, and is located in the most conspicuous part of the city. The present adornments of the Campus Martius, consisting of the City Hall, the Soldiers' Monument, Opera House block, and the many handsome buildings already erected, is a sufficient guarantee that the Campus Martius is destined, at no distant day, to become one of the most beautiful squares in the country.

This square is the termination or the intersection of six broad avenues, and a spectator overlooking this space is struck with its openness, and its area needs to be well filled with vehicles and pedestrians to appear at all busy.

There are many citizens who are of the opinion that there is already too much open space in and about this square. Your committee are of this opinion, or, at least, we think that any addition to the open ground in this locality would be of great detriment to the beauty of this square.

Again, to pave and occupy this space, as is proposed by your petitioners, with teams for the sale of all kinds of farmers' produce and the goods and wares of peddlers, is seriously objectionable, because the entire street is in full view from all points of the Campus Martius, and presents at all times an unsightly appearance. When empty it is generally a field of mud or dust, littered with all kinds of decayed vegetables, straw and other refuse matter, and when occupied it presents a disorderly array of teams and wagons filled with marketable produce, and the neighborhood is annoyed with the cries of the vendors.

We are decidedly opposed to the destruction

of the otherwise beautiful appearance of the surroundings of this square by the continuance of this unsightly spectacle in the very heart of the city, and especially are we opposed to any increase of the nuisance by increasing the space for the exhibition.

Again, we are of the opinion that the continuance of this nuisance is an injury and an unjust discrimination to the property immediately adjoining this locality, and we believe that, should this use of the street be discontinued, a great improvement would soon take place in the surroundings; the present inferior buildings would be torn down to be replaced by new and handsome ones.

We are entirely opposed to the use of that part of Michigan Grand avenue fronting upon the Campus Martius and opposite the Soldiers' Monument for open market purposes.

Objection is raised to this because, it is said, there is no other suitable location for the teams which daily congregate at that place. We believe a way out of this dilemma can be easily found.

If the members of your honorable body will visit the present vegetable market building the discovery will be made that this building, although a pleasant one and built as a vegetable market, is occupied quite largely with what are known as Yankee notion stands, candy and eating stands. It may safely be said, then, that this building is too large for the purposes for which it was designed, and that a smaller one would answer the legitimate purpose of a vegetable market if the so-called Yankee notion, eating and candy stands were discontinued.

We would therefore recommend that the space fronting on the Campus Martius be occupied with a handsome building, equal in size and beauty to the surroundings, and built in a style of architecture suitable for public buildings, which building should extend as far as Bates street, and the front of which should be used for the police central headquarters, in which should be located the offices of the Police Commissioners and secretary, the Chief of Police, sergeant on duty, etc., etc. The upper part of the building to be used for a police court-room, and the rear to be devoted to a well regulated meat and vegetable market, to be kept exclusively for such purpose, and that the building now known as the vegetable market be removed and the space extending from Bates street to Randolph, where the vegetable market now stands, be cleared, paved and devoted to the use of teams and wagons for the sale of farmers' produce. Should this space prove not large enough, Randolph street, extending on each side like the arms of the letter T, could also be used, thus affording abundant room for this purpose. We would also forbid, by ordinance, the use of any part of the Campus Martius or of Michigan Grand avenue adjacent to the proposed building for any market purpose whatever.

The effect of this change would, we believe, add greatly to the appearance of our beautiful square.

The rooms made vacant by the removal of the police offices now in the City Hall, could be used by the officers of the city, for which they have need, and the vexed market-question would be settled to the entire satisfaction of most of our citizens.

If this improvement cannot be made during the present year, we recommend the continuance of the present meat market—the annual income of which exceeds \$2,000—as it is, with the present unsightly use of the space referred to, until such time as the proposed building can be erected.

All of which is respectfully submitted.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully inform your honorable body that he has been served with a summons issued out of the Circuit Court of the United States for the Eastern District of Michigan, in a suit wherein James Neven is plaintiff and the City of Detroit is defendant. This action is brought to recover damages for alleged injuries sustained by reason of a defective sidewalk.

Respectfully submitted,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and the City Attorney was directed to defend the city.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—The amount due the "health officer" (\$16 66) is made payable to Dr. Elisha Leech; but Dr. Duncan McLeod, who claims to have been duly elected and qualified, presented himself at this office this morning and demanded payment of said money. I have accordingly (under advice of the City Attorney) withheld the same until your honorable body shall decide who is the proper "health officer," and who is entitled to the pay therefor.

Respectfully yours,
WM. PARKINSON,
City Treasurer.
Accepted and referred to the City Counselor and City Attorney.

FROM THE BOARD OF EDUCATION.

To the Honorable the Common Council:

GENTLEMEN—The committee on schools, text books, etc., have been directed by the Board of Education to ask your honorable body for permission to hold the meetings of said board in the Council Chamber. The room now used by the board is needed for school purposes and we therefore ask that our request be granted.

Respectfully yours,
JOSEPH NICHOLSON, Chairman.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your committee on ways and means have given the annual estimates referred to us much careful consideration. We have con-

sulted the officers and boards in charge of the several departments of the city government, compared the estimates with the actual disbursements for last year, and satisfied ourselves as to the actual needs of the city for the period on account of which estimates have been made. We trust our conclusions will be found reasonable by you and meet your approval.

The change in the fiscal year renders it necessary to raise an amount considerably in excess of that spread upon the tax rolls for last year; on this account, and because the financial distress which has so long afflicted the entire country still prevails to a considerable extent, making it almost impossible for many of our citizens to meet their obligations, support their families, and retain their homes, we have deemed it our duty to recommend a substantial reduction. The extreme care and good judgment exercised by all the officers and boards in the preparation of their estimates have rendered our task most delicate and responsible. The estimates are herewith reported back and we recommend reductions as shown in the following schedule.

Schedule of estimates for the fiscal term ending June 30, 1890, as reported upon by the committee on ways and means of the Common Council, March 25, 1879:

By the Controller.

For the sinking fund, estimated, \$5,000; recommended, \$5,000.

For the interest fund, estimated, \$84,800; recommended, \$84,800.

For the contingent fund, estimated, \$35,125; reduction, \$35,125.

For the general fund, estimated, \$111,386 53; recommended, \$105,000; reduction, \$6,386 53.

For the city poor fund, estimated, \$30,000; recommended, \$30,000.

For the Russell street cemetery fund, estimated, \$1,000; recommended, \$1,000.

By the Board of Public Works.

For the general fund, estimated, \$33,335 49; recommended, \$32,000; reduction, \$1,335 49.

For the public building fund, estimated, \$4,958 33; recommended, \$4,958 33.

By the Police Commission, estimated, \$130,935; recommended, \$125,000; reduction, \$5,935.

By the Fire Commission, estimated, \$108,905; recommended, \$108,000; reduction, \$905.

By the Water Commission, estimated, \$75,000; recommended, \$60,000; reduction, \$15,000.

By the Board of Education.

School purposes, per capita tax, estimated, \$151,829; recommended, \$151,829.

Building purposes, estimated, \$33,000; recommended, \$27,171; reduction, \$5,829.

Totals, estimated, \$309,774 35; recommended, \$238,958 33; reduction, \$70,816 02.

The charter, in our judgment, hardly warrants the raising of the item of \$35,125 for interest even under the head of contingent fund. To avoid any legal complication that might arise, respecting the tax roll if this amount were spread upon it, and because of the increased taxation in any event necessary to meet other expenditures growing out of the changes in the fiscal year, we are of the opinion that this item for contingent fund should be omitted. The contingent fund has a substantial income of about \$30,000, which goes lawfully to the sinking fund each year; if a time arrives when there is no money in the treasury with which to pay accrued and due interest, on account of the change of the fiscal year and that clause of the charter prohibiting an estimate for more than one year's interest at a time, we believe it would be entirely lawful to draw upon the existing contingent fund, a contingency then having arisen which could not lawfully have been provided for. In this connection we must heartily approve of that sound, practical sense of the Controller, which influenced him to seek preparation for this interest obligation of the city, and we trust that in the future no occasion will arise when it will be found necessary to sustain the credit of the municipality by any dependence upon such a contingency. Again, there may be some hardship to present tax-payers in a continuation of

the policy of paying off the city debt rapidly. Your committee appreciate the emolument of both public and private indebtedness; we are as much gratified as others over the excellent financial reputation and credit of the city, but in the raising of money to defray expenditures for 17 months, we can see an extinguishment of municipal obligations to an extent which, in our judgment fully justifies the leaving of the item of \$35,125 in the hands of those who pay the taxes until a more convenient season. This sum if placed in the sinking fund on deposit would draw but 3 per cent. interest. We believe it worth more than that in the hands of the people. Neither national nor municipal indebtedness can be a public blessing, but in times like the present when the great industries of the country are stifled because of the reckless investments and speculation of the past and the still senseless extravagance of the present, and while thousands of mechanics and the most worthy of our population are out of employment struggling for the ordinary necessities of life, heavy taxation may be the millstone which will involve both debtor and creditor in common ruin. There is some justice in requiring those who will in the future enjoy the permanent improvements made and being made in Detroit, to pay a portion of the expense and experience a share of the responsibility.

The main item in the Controller's estimate for the general fund is \$77,187 39 for lighting the city. We believe that if the lamps are not increased more than two hundred and a judicious re-arrangement of lamp-posts is made, the sum of \$73,000 will fairly light the city until July 1, 1890, giving naphtha for street lamps until July 1 next, and gas and naphtha for the remainder of the time to be provided for. To use gas for the iron posts will cost some \$30,000 more than naphtha, but as the light from gas would be so much greater and more certain we believe the benefits resulting would much more than compensate for the increased cost. Detroit is materially behind cities of its size in the matter of street lighting; Cleveland burns more than twice as many lamps, and Buffalo, Rochester, and Milwaukee more proportionately. More light is necessary as security for person and property; we believe that public sentiment demands it and will cheerfully pay the extra amount needed to secure it.

The estimate for the police department is placed at \$123,000, and we feel sure this sum will carry the department through efficiently and enable the board to increase the force about as much as they contemplated. The expense for salaries and ordinary purposes for the year ending June 30 amounts to \$133,379, and for the year ending June 30, 1890, is estimated at \$131,907; the receipts for the year last mentioned will be from estimates as recommended \$125,000, and from interest on deposits and other sources \$3,500, or in all \$127,500. The difference between the disbursements as stated and the receipts as estimated will maintain eight additional patrolmen.

The Water Commissioners ask for \$75,000, and claim that the law requires the Council to cause the whole of it to be raised. The departments of the city should be harmonious and co-operate, if possible, but your committee see no propriety in discussing the law question involved at the present time. The sum above named is solicited for the purpose of the construction of an additional engine. We believe the reasons given for the putting in of another engine timely and sound, but are not satisfied that \$75,000 should be raised this year for that purpose. The receipts of the board for 1879, including a balance of \$47,554 63 on hand January 1, were \$308,371 36, and the disbursements \$300,339 39, including payment of bonds, \$96,000 and interest, \$106,675 61. The committee believe the income from water rates and other sources, not including anything from taxation, will reach \$235,000, and that the disbursements, not so much interest becoming due, and no bonds to be paid, will not exceed \$195,000, leaving a balance of \$40,000, which can be applied

in the construction of the new engine. It is represented that this engine will cost from \$80,000 to \$90,000, and that it will take two years to get it in and completed. Under these circumstances we have placed the estimate at \$50,000, and believe that this sum with the balance above named will enable the board to proceed with the improvement and complete it. From our examination of the matter we are convinced that the security and rapidly increasing wants of the city require the addition of the proposed engine.

The fire commission need every dollar of the amount recommended. While the board have just pride in the department, and are ambitious to maintain its high reputation for efficiency, it must not be forgotten that they and the gentlemen composing the other municipal boards are heavy taxpayers and therefore not benefited by the imposition of burdensome taxes. The sum asked for this year is about the same as that allowed last year, although it is proposed to materially increase the working force of the department, purchase new hose and largely extend the fire alarm apparatus. This department is perhaps the most important and responsible of any in the city, it may save in an hour more than is asked to pay all of its expenses for a year. The best policy requires that money enough should be provided to preserve the morale and discipline of its employees, and to furnish it with all property and facilities necessary in the discharge of its most important trusts.

The Board of Education have reduced the per capita tax from \$5 to \$4.50, and have reduced their estimates for salaries and general operating expenses. The board ask \$38,000 for the erection of two new school buildings, one in the Thirteenth Ward and one west of Woodward avenue in such a locality as will relieve the pressure upon other schools on that side of the avenue, and enable the board to give up certain schools maintained in private dwellings and stores. It may be said that the schools are not all full; this is conceded, but it is absurd to expect that people in the Thirteenth Ward will send their children to school in the Twelfth Ward, or that the board in erecting new buildings will not provide for the substantial increase of our population. Your committee believe that liberal and equal facilities should be provided for all in the way of a good and practical common school education, and we hope that the amount recommended for building purposes will be cheerfully granted.

As to the poor fund, we are unable to see any reason for the reduction of the estimate, even if the system of distribution is changed through the establishment of a poor commission. It will be seen that for actual distribution for the relief of the poor only the sum of \$19,000 is asked for 17 months, or an annual allowance of \$13,000. None of the other items in this department can be reduced with any degree of justice.

The Board of Public Works will not suffer, in our estimation, by a reduction of their estimates for general fund \$1,385.49, especially as the most of it is from an over-estimate for salaries. We see no occasion for making any special reference to the balance of the estimates referred to us. The amounts involved have been reported according to the requirements of laws and resolutions; they represent actual and necessary expenditures, and should be approved.

It has been intimated that liberal estimates must be made as security against unreasonable reductions by the Board of Estimates. This board is composed mostly of citizens who have had large experience in business, are large property-holders, and are as much interested as others can be in aiding the substantial growth and promoting the general welfare of the city; there should be no jealousy of each other on the part of that board or the Common Council, and both bodies should co-operate as far as possible to provide the means required for all lawful and just purposes of the city.

Your committee have presented a schedule which they trust will commend itself to the Board of Estimates and receive their sanction.

In conclusion we desire to put on record our recognition of the courtesy extended to us by all the officers and boards from whom we have solicited information. In every instance great pains have been taken to furnish us with details and to fairly exhibit the condition and needs of the several departments.

We feel under particular obligation to call attention to and commend the methodical and business-like manner in which the affairs of the Boards of Fire and Police Commissioners are conducted.

All right and fair minded citizens, notwithstanding the turmoils and annoyances of local politics, are justified in asserting that good and honest government is accomplishing more for Detroit than any other influence.

Respectfully,
F. G. RUSSELL,
H. GROSS,
A. H. RAYNOR.

FROM THE SAME.

To the Honorable the Common Council.

GENTLEMEN—Your committee on ways and means, to whom was referred the bond of James M. Welch as Receiver of Taxes, beg leave to report that they have examined the same and believing it to be correct and satisfactory, recommend that it be approved.

H. GROSS,
A. H. RAYNOR.

COMMITTEE ON STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your committee on streets, to whom was referred the petition of the Woman's Christian Temperance Union, praying that the society might be permitted to erect ornamental signs in front of the restaurant operated by said society at number 328 Griswold street, also at the corner of Griswold and State streets, Griswold and Michigan avenue, and Grand River avenue and Griswold street, would respectfully report that the privileges sought by the petitioners cannot be granted under existing ordinances, and even if no provision of the ordinances was violated in granting such permission it would be doubtful policy to grant privileges to one petitioner which could not be made general in its operation. It will be readily seen that every merchant and tradesman is entitled to like consideration with the petitioners, and the streets would soon be lined with signs. We would recommend that the petitioners be accorded the same privileges given to others, and that they be allowed to erect an ornamental hitching post in front of their place of business.

Respectfully submitted,
JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING,
Committee.

Adopted.

PRINTING.

To the Honorable the Common Council:

GENTLEMEN—Your committee on printing to whom was referred the resolution of Ald. Rousseau directing the Controller to contract with the publishers of the Michigan Daily Volksblatt for publishing such printing as may be ordered in the German language at the prices contracted to be paid for printing in the official paper would respectfully report as follows: It has been customary in the past to consider the matter of public printing in the same category as other matters that are let by annual contract. In the matter of printing done in the English language this has been the unvarying custom—the same is also

true of the German printing. If, therefore, the resolution submitted to your committee is adopted it would be a departure from that course which has the sanction of usage. On what ground of utility or economy is this departure justified? It is not claimed that it will save the city money; on the contrary, it is generally conceded that when work is let for a large amount or extending over a long space of time the price is correspondingly low. Again it is clearly within the category of contracts embraced in that provision of the charter which requires all contracts involving an expense of more than two hundred dollars to be let to the lowest responsible bidder.

Again while the act of the legislature recently passed establishes the maximum price that may be charged for printing in the German language it leaves room for competition by virtue of which the price may be reduced much below the established maximum. We consider it our duty to give the city the benefits that may accrue and the saving that may follow from throwing the doors open to competition. We therefore recommend that the following be substituted for the resolution submitted to us.

Respectfully submitted
A. H. RAYNOR.

By Ald. Raynor:

Resolved, That the City Controller be and he is directed to advertise five days for proposals for publishing in the German language such advertisements and notices as the Common Council may from time to time order to be so published; said proposals to be at or below the cost price as fixed in the contract for official printing, and otherwise in accordance with the act of the Legislature approved March 4, 1879.

Objected to and laid over.

SPECIAL COMMITTEE.

To the Honorable the Common Council.

GENTLEMEN—The undersigned, members of the special committee appointed to consider the petitions recently submitted relative to the tearing down of the old building, commonly called the Central Meat Market, would respectfully report as follows:

The building referred to has long been an eyecore to the community, and will so continue until the public wishes, as expressed by the petitioners, are complied with, and it is razed to the ground. However opinions may differ upon the question of a public market and the use of the Central Market grounds, there can be no difference of opinion upon the necessity of removing the unsightly structure that now disfigures the market square. In fact, the only question sought to be settled by the petitioners is the question of the longer continuance of this building, without reference to the future policy to be pursued in improving or using the market grounds. The removal of this building is the initial step to any future policy which may be adopted in the premises.

We agree with our brethren of the committee in all that they have said upon the question of beautifying the grounds, and as a step in this direction we would clear the space of its present buildings. If the meat market ever had a legitimate place in that which pertains to a public market, or if there ever was a necessity for establishing and maintaining this as a department of the public market, such necessity is entirely removed by the commodious markets erected on the market square by private enterprise.

Again, the space encumbered by this building is needed for the accommodation of those conducting market business proper. Farmers and others, for the accommodation of whose traffic the market was intended, are greatly embarrassed and impeded in their business by the want of space and the conveniences which market grounds should supply. As a result, many farmers do not seek the public markets at all, but sell their produce through the streets, while others are deterred from engaging in the business of retailing on the markets by the absence of facilities and encouragement to do business there. The revenue lost in this way, in our opinion, is a very considerable sum. Again, we

believe the public demand this change, and cannot see why this building should longer continue to be what it now is—an abiding place for a few butchers, who enjoy the prestige of being in a so-called public market, enjoy small rents, and engage in an annual howl for a reduction of the small pittance paid by them to the city. It is a flagrant injustice to those engaged in a like calling who do not have the advantages which the city guarantees to the favored few who hold its leases, and it is a poor encouragement to the public-spirited citizens who have come forward and invested their means to supply the demand for markets if such is needed.

Again, the removal of this building is almost unanimously demanded by those owning property adjacent to the market square for many reasons which will readily occur to any thoughtful mind, and chiefly because they see the streets adjacent to the market rendered practically impassable by the vehicles of those who are crowded out because of the room given up to private interests. The results of such crowding of the streets in that vicinity is detrimental to the business callings of citizens having property thereon, and an unjustifiable trespass upon their rights. These, certainly, have cause to complain when they see the public streets turned into market grounds simply that the city may collect a few dollars in rent from those whom at the public expense it favors. The rents lost will be more than compensated for by the increased accommodations afforded those selling from wagons, and the many who will seek the market grounds who now avoid them.

Not amongst the least of the considerations which justify their removal is the necessity of ridding the neighborhood of an unsightly structure, and the paving of the entire market square so it may always be kept in a cleanly condition. The maintenance of such a building not only does injustice to the public interests, but special injustice and lack of appreciation for the enterprise of those citizens who have by their enterprise adorned the square with handsome structures. If the city desires to foster the interests of butchers and the selling of meat, with equal justice and propriety may it establish locations for the sale of all other commodities that are commonly bought and sold. The merest statement of the facts are sufficient to show the fallacy and injustice of any attempt to excuse the maintenance of this market. However opinions may differ as to the uses to which the market square should be put, there is no opinion that favors or can justify its use for what belongs to private enterprise. We therefore recommend that the prayers of the petitioners be granted, and that the Controller be directed to make no further leases with those occupying stalls in said market.

JAMES I. MITCHELL,
THOMAS JACKSON.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I return, without my approval, the proceedings of your honorable body of the 26th inst., so far as they relate to the rental, per year, of the stalls in the meat market, for the reason that, in my judgment, the establishing of a price to be charged at this time would prohibit the removal of the said building during the year, should it be deemed advisable to do so. I would most respectfully suggest that more time be granted to decide upon the desirability of its removal. Should it hereafter be decided not to remove said building, and your committee will amend their report so as to read that, in case it is decided not to remove it, the Controller shall lease said stalls, at the rates named in said report, my objections will be wholly removed. The balance of the report of the committee has my approval.

Very respectfully yours,

GEORGE C. LANGDON,

Mayor.

Accepted.

Ald. Herrick moved to reconsider the vote by which the report of the committee was adopted.

On motion of Ald. Finney the whole matter was laid on the table.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I cannot suffer to pass the objection to that part of the Controller's estimate which, under the head of "Contingent fund," is made to provide for the interest on the public debt for the additional five months of the ensuing fiscal year—made necessary by the change in the date of the termination of that year—without entering my protest against the adoption of that portion of the report of the committee which excludes from those estimates the sum of \$35,125 asked for the contingent fund with which to pay the interest on our bonds during the five months thus added to the usual length of the fiscal year. Interest on the public debt is absolute, and it is not in the power of the Common Council to change the amount of interest which will accrue during any fixed period. While the Common Council always has the power, by a discontinuance of any public improvement, such as the building of sewer, the paving of streets, or, if it be thought the best policy, to use oil for illuminating purposes in our streets, to materially reduce the estimates in any of these particulars, it is not in the power of the Council to change in any respect the amount of interest which must be paid on our bonds outstanding.

The interest which will accrue during the period covered by the estimates, viz.: 17 months—amounts in the aggregate to the sum asked for under the heads of the interest fund and contingent fund. To cut off the sum sought under the estimate for the contingent fund, as recommended by your committee, is, in my opinion, simply to fail to provide the means for paying the five months' interest on our bonds. It is of course well understood that the estimate for interest was submitted as it was, viz.: for the interest fund, 12 months' interest, \$84,800; and for the contingent fund, for five months' interest, \$35,125; simply because the city charter, as it now reads, forbids a levy for the interest fund of a greater amount, in any one year, than is sufficient to pay the interest on our public debt which may accrue during that

year. Under this provision the Controller could not estimate, under the head of interest fund, for a greater amount than sufficient to pay 12 months' interest.

The question then arose, how shall the interest for the additional five months be provided for. Since the change in the fiscal year was the act of the legislature, and the necessity for providing the means for paying the interest for these five months was clearly a contingency, there seemed to be no other way than to estimate for a sufficient sum to be raised for the contingent fund, and the estimate was therefore made accordingly to meet this contingency. It has been said that this amount can be paid from the contingent fund—which, from its expected income from the usual channels, will be in condition so to do—without a special levy for that purpose. I am of the opinion that such action would be contrary to the city charter. The contingent fund is to "defray the contingent expenses of the city;" this is what is sought to be done by the estimates as submitted by the Controller, but it seems to me that the subject having been fairly submitted to your honorable body before the tax levy is settled, if the estimates for the contingent fund should be excluded before the transmission of the budget to the Board of Estimates for approval, the contingent character of the subject would be lost and the interest could not therefore be paid from the contingent fund with any more propriety than a deficiency in any other appropriation could be paid from that fund.

While the Board of Estimates may reduce they cannot increase the estimates as approved by the Common Council, so that even should it be the unanimous wish of that board to replace this estimate for the contingent fund for the purpose named they would be powerless to do so.

I therefore earnestly recommend that the report of the committee on ways and means, before its adoption, may be amended so as to restore the amount of \$85,125 for the contingent fund for the purpose of paying the interest on our bonds outstanding for the additional five months of the ensuing fiscal year.

Respectfully submitted.

H. P. BRIDGE,

City Controller.

Laid on the table and ordered printed in the proceedings.

FROM THE CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The case of Thompson Dean against the city, involving the controversy between the city and the Mutual Gas Light Company, has been decided against the city.

The substance of the opinion of the court is that the agreement between the Mutual Gas Light Company and the Detroit Gas Light Company, dividing the city on the line of Woodward avenue, is not a violation of the provisions of the consenting ordinance prohibiting the company from entering into any combination with any other gas light company concerning rates to be charged for gas, and from selling its property, franchises or privileges to any other company.

We are of the opinion that this decision is entirely erroneous, and that it wholly overlooks the essence and substance of the ordinance. The court admits that the object of the agreement dividing the city was to do away with the competition that existed between the two companies, but holds that it is not a combination concerning rates. When it is remembered that the only object of the consenting ordinance was to create competition, and that the purport of the provisions in question was to prevent that competition from being done away with, it would seem to be a plain proposition that any arrangement or agreement between the two companies which entirely and wholly destroys such competition is a violation of the ordinance. The learned judge says that the agreement dividing the city is manifestly not in terms a combination concerning rates, but he does not state what in his opinion would in terms

be such a combination. The ordinance certainly does not mean that the only combinations prohibited are direct agreements fixing rates to be charged for gas. If that was the intention of the ordinance the general language prohibiting any combination concerning rates would not have been used. No particular form or kind of combination is prohibited. All that is required is that the combination shall concern the rates, and it will be difficult to make the people of this city believe that the division of the city by the two companies is not a combination concerning rates. That is precisely what it is. It is not anything else, and has no other end, object or purpose. We do not believe that the Supreme Court of the United States would sustain this decision, and fasten this monopoly upon us, and we respectfully ask instructions to appeal the case. The expense of obtaining a decision from the highest judicial tribunal in the land would not be large, and the people of this city cannot afford to leave a stone unturned in this controversy. Since this litigation was commenced the property of the Mutual Gas Light Company has been sold on a mortgage and bid in by Thompson Dean. A new company was then organized under the name of the Mutual Gas Company, and the property conveyed to it by Dean. This new company has never received any consent from the city to make any use of the streets and cannot sustain a right so to do except on the theory that by the purchase of the property of the previous company, it also acquired all the privileges granted to that company. In our opinion the consent given by the local authorities under the statute is not assignable and cannot be mortgaged or otherwise transferred, and we recommend that legal proceedings be commenced in the state courts to test the right of the new Mutual Gas Company to occupy and use the streets of this city for the distribution of gas. Representative Donnelly has introduced a bill in the state Legislature to authorize the local authorities to annually fix fair and reasonable rates to be charged for gas, and while there is a strong sentiment in the Legislature in favor of the bill the gas companies of the state have combined to defeat it, and we recommend that a committee be appointed to visit Lansing and urge the passage of the bill. There probably is not a city in the state but what is paying from seventy-five cents to two dollars more per thousand cubic feet for gas than it is actually worth at fair profits to the companies. Where the territory supplied is only occupied by one company, the business is inherently a monopoly and should be subject to proper legislative restraints and limitations, and this is especially so when we consider that the public confers upon the companies the right to exist and also the right to use the streets which to them is absolutely indispensable.

In this city the gas companies have deliberately, and with malice aforethought, put themselves in a position to demand whatever price they desire, and the question for the Council and the people to determine is whether they will submit to the robbery.

City Attorney.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The special committee to whom was referred the communication to the City Counselor from the attorneys of Edward C. Norris offering to settle his case against the city, respectfully report that in this case a verdict has been rendered against the city for \$5,000, and that the case cannot be taken to the Supreme Court of the United States because the verdict is not over \$5,000. The City Counselor has made a motion for a new trial, which was ordered to stand over until Judge Baxter was here, so that it might be heard by both the judges of the court, but all that can be expected is that the two judges might possibly certify the case, on a division of the court, to the Supreme Court of the United States for final decision. The proposition to settle has now been reduced from \$5,000 to \$2,500, and we believe that the interests of the city will be subserved by accepting the offer. We recommend the adoption of the resolution herewith submitted.

Respectfully,

JOHN MONAGHAN,
PETER J. RALPH,
M. HALLER.

By Ald. Monaghan:

Resolved, That the proposition of Edward C.

Norris, of Massachusetts, to settle his case against the city, now pending in the United States court, for the sum of \$5,500, be and the same is hereby accepted.

Joslyn, his attorney in fact, for the sum of \$2,500 in full settlement of the above case, and in full satisfaction of the verdict rendered therein; and that the Controller deliver said warrant to the said Chas. D. Joslyn, on his filing with the Controller proof of his authority to make this settlement.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I respectfully recommend to your honorable body that in the estimates of the current year to defray the expenses of lighting the streets of the city there be included an item sufficient to cover the cost of replacing the lamps now in use with others more modern and useful. The lamps used in our streets are too large and, as constructed, interfere with reflection of the lights therein. They present so much of a surface to storms that they are easily displaced, or so easily wrenched that the glass is oftentimes broken or drawn from the frame. The best light is operated under great disadvantage in such lamps. While not amongst the last considerations for the change advocated is found in the propriety of having lamps in our streets that add ornament to use, and are in keeping with the efforts made by citizens to enhance the beauty of our public thoroughfares. With so good a showing in favor of the naphtha light now in use, how much more satisfactory would this method of lighting be found if on street lamps, assisted rather than, as now, retarded, the reflecting power of such lights. The amount of money required for the change is trifling, when compared with the important objects to be accomplished.

Very respectfully,

GEO. C. LANGDON,

Mayor.

Accepted and referred to a special committee, Ald. Haller, Jackson and Ryan.

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Claims and Accounts.

CITY ATTORNEY AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the communication from the City Treasurer relative to the conflicting claims of Dr. Elisha Leach and Dr. Duncan McLeod to the salary of the health officer, respectfully report:

1. Local boards of health exist in this state under and by virtue of chapter 46 of the Compiled Laws of 1871. In townships the board consists of the board of township officers. [See sec. 1 of the above chapter, as amended in public acts of 1877, p. 45.] Sec. 49 of chap. 46 is as follows:

"The Mayor and aldermen of each incorporated city, and the president and council or trustees of each incorporated village in this state, shall have and exercise all the powers and perform all the duties of a board of health as provided in this chapter, within the limits of the cities or villages respectively of which they are such officers."

Under this section the Mayor and aldermen when assembled as a board of health have power to appoint a health officer to hold office for one

year and whose salary or other compensation is fixed by the board.

The statute does not make the Common Council the Board of Health, but makes the Mayor and aldermen ex-officio the members of the Board of Health, and the Mayor meets with the aldermen when a session of the board is held. In other words the Mayor and aldermen must assemble as a board of health in order to do any act which they are authorized to do as a board. Neither Dr. Leach or Dr. McLeod was appointed at a meeting of the Mayor and aldermen as a board of health, and therefore the title to the office cannot be determined by reference to this general state law.

2. The city charter confers upon the Common Council power to preserve the public health, "and if deemed necessary to establish a Board of Health and prescribe and regulate its powers and duties." [City Charter, p. 60. Amendments, p. 56.]

Under this provision the Common Council by an ordinance approved June 30, 1861, established a Board of Health, and made the aldermen whose terms of office would soonest expire, two of the city physicians and two other physicians to be designated by the Council, the members of the board. The chairman of the Committee on Health was also a member, but in 1870 his name was struck out. [See Revised Ordinance of 1863, p. 133; of 1871, p. 156; of 1873, p. 205.]

The ordinance also fixes and prescribes the powers and duties of the board, but it contains no provision authorizing the board to either appoint or nominate a health officer, and no such office exists in the city unless it is under and by virtue of the general law to which we have called attention. The charter contains no provision giving to the Board of Health which the Common Council is authorized to establish the same powers and authority as those possessed by the Mayor and aldermen when assembled as a Board of Health. The Council is authorized to prescribe and regulate the duties of the board it creates, but the Council has not given the board any power of nomination or appointment.

We are therefore of the opinion that neither Dr. Leach or Dr. McLeod is the incumbent of the office of health officer, and that as such officer neither has the right to draw any salary from the city treasury.

We are also of the opinion that the Board of Health as now constituted has no legal existence. The general law making the Mayor and aldermen a Board of Health has been in force since 1846, [R. S. of 1846, p. 183]; and when the Legislature authorized the Common Council to establish a different Board of Health in this city, it was undoubtedly the intention that the board so created should take the place of the Mayor and aldermen. The only object of displacing the statutory board must have been to put the matters under its control in the hands of another body or set of officers. That the Common Council would constitute one-half or any other number of its own members a Board of Health was never contemplated. The aldermen were already the Board of Health under the state law, and if a new board was necessary, it was only so because the aldermen could not give the subject the requisite time and attention, or could not bring to the position that knowledge and experience required from such officers in a large city.

Again: The accounts of the Board of Health are allowed by the Council, and the members of the board are subject to removal and their salaries are fixed by the Council. When the board is created by the Council, the offices of alderman and member of the board would seem to be incompatible, and incapable of being held by the same person. [Rex vs. Patterson, 4 B. & Adol. 9; Rex vs. Tizzard, 9 B. & C., 418.]

Respectfully submitted,

F. A. BAKER,

City Counselor.

WILLIAM C. MAYBURY,

City Attorney.

Laid on the table and ordered printed in the proceedings.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Russell, directing the board to transmit the proper resolution for paving Peterboro street from Cass to Woodward avenue, respectfully report.

This is the last of the unpaved streets intersecting Woodward avenue with Cass avenue, between Adams and Alexandrine avenue, and public convenience seems to demand that the gap should be closed, notwithstanding objection is made thereto by the principal property owners because the necessary connections have not been made with water and gas. It is important that these connections should be made before paving a street, nevertheless, if the property owners fail to make the same the board hold that it is not sufficient cause to delay improvements of this nature, and therefore recommend that the street be ordered paved.

Respectfully submitted,

WM. PURCELL, President.

Accepted, and by unanimous consent, Ald Jacob offered the following:

Resolved, That Peterboro street be and the same is hereby ordered to be graded and paved from the east curb line of Cass avenue to the west curb line of Woodward avenue, and that said street, within said limits, be paved 36 feet wide with cedar block, stone or cedar block and stone pavement, according to the specifications adopted by the Common Council and the estimates of the City Engineer, and it is hereby declared that this action is had under that clause of the city charter authorizing the Common Council to appropriate \$300,000 annually, without a petition of a majority of property owners.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Peterboro street, from the east curb line of Cass avenue to the west curb line of Woodward avenue, the lots and parcels of real estate situated on said Peterboro street embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and is hereby ordered and directed to estimate and determine and report such determination to the Board of Public Works, showing:

1. The quantity of all grading, paving and other work on said Peterboro street within the limits ordered to be graded and paved, excepting those portions of the intersection of cross-streets and alleys.

2. The quantity of all grading and paving of each portion of said Peterboro street included and embraced within the lines of intersection of the cross-streets and alleys with said Peterboro street.

3. The quantity of all cross walks at each intersection of said Peterboro street with the cross-streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Board shall receive the report of the City Engineer showing the quantity of the grading, paving and cross-walks, and other work required on said Peterboro street said Board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving and for cross-walks on said Peterboro street in accordance with the provisions of the charter and ordinances of the city of Detroit.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—The attention of our citizens has been directed again to the necessity of providing means by which the transit of the Detroit River may be made more easy and rapid. The certainty that such means will soon be provided elsewhere than at this point on the river has aroused our citizens to a sense of the impending danger. The consummation of this design would vitally affect the future of our city and can only be looked upon as a positive calamity. If the design of having a bridge or tunnel is carried out at Grosse Ile the necessity only becomes the greater that we should have either a bridge or tunnel here. The injury to our city is an injury to every citizen thereof. There can be no separation of interests here. They are too closely allied. The result and ruin would be equal and common. When the city becomes an undesirable place in which to transact business it will seek other quarters. With the loss of location and facilities we lose the business, and a consequent depreciation occurs in the value of property upon which the real wealth of a city is based. The interest of the city and of the individual being common, their efforts to meet the emergency should be united and harmonious. By the announcements in the public press it is seen that citizens are ready and willing to do their share, and to this end have organized to make their efforts effectual. The city can only be true to itself and to its best interests by seconding the efforts of the people. The assistance which is demanded from the city is the pledging of its credit to aid the work, and while I am unalterably opposed to loaning the credit of the city to aid projects which should command private enterprise, I consider the present interest involved of such vital public importance that it is a notable exception to the rule. It is not a question as to whether we should add to our city something which would contribute merely to the comfort of its people or enhance its beauty, but it is a question of life and death to the city's future; a question whether Detroit shall be a side-station, isolated from the great pathways of iron and steel that constitute the modern highways of commerce, or whether we shall make our city a railroad center, and progress with the times. Partaking as I do of the general pride we as citizens feel in the careful, conservative and prudent course that has made the credit of our city boundless, I believe that we have arrived at a tide in its affairs, which, as in the affairs of men, we must take at its flood, failing in this, its receding waves will bear us back, loss of prestige and decay, the inheritance of a lost opportunity. I would therefore recommend that to the bill now pending before the Legislature for the revision of the city charter there be added a section enabling the Council, the Board of Estimates concurring, to issue the bonds of the city in aid of this enter-

prise, or authorizing the city to guarantee the bonds of such enterprise, the issue to be limited to \$1,000,000, and such other conditions as would be mutually advantageous to the city and to the enterprise.

Very respectfully,
GEO. C. LANGDON,

Mayor.

Accepted and leave being granted the following resolution was offered.

By Ald. Russell:

Resolved, That a special committee of five members of this body be appointed by the chair, together with the Mayor, Controller and Counselor, to co-operate with the committees of the Board of Trade, Merchants' and Manufacturers' Exchange, and of other organizations in considering and recommending such measures as may be deemed advisable, in connection with the message of his Honor the Mayor relating to the bridge and tunnel question.

The chair appointed as such committee Ald. Russell, Ralph, Monaghan, Haller and Griffin.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I have with great reluctance approved that portion of the proceedings of your last session authorizing the settlement of the claim of Edward Norris for injuries sustained by reason of a defective sidewalk. My reluctance to approve such settlement did not arise from any objection to the acceptance of the terms of compromise offered by the claimant, for I believe such settlement to be, under the circumstances, both wise and prudent and a saving of money to the city, but I do not see why aliens and non-residents, having the advantages of suing in the United States Courts, should thereby gain rights that citizens of the state cannot avail themselves of. I, therefore, most respectfully recommend that you urge the adoption of the bill framed by the legal advisers of the city, and now pending before the Legislature, wherein citizen and alien are put upon the same footing.

Very respectfully,
GEO. C. LANGDON,

Mayor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully recommend that Woodward avenue, from Jefferson avenue to Grand River avenue, be repaved with cedar block and stone pavement.

That Michigan avenue, from Thirteenth-and-a-half street to the city limits, be repaved with Medina or Sandusky stone pavement; and

That Fort street, from Fifth street to the bridge, be repaved with cedar block pavement entire.

The pavement on the above mentioned streets is in a condition that will warrant further expenditures in undertaking to cause the same to be repaired, and it is the opinion of the board it would be a source of economy to repave the same at the earliest possible moment.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the resolution of Ald. Jacob, directing the board to report the proper resolution for paving, etc., with asphalt pavement, the central unpaved portion of Michigan Grand avenue, between Woodward avenue and the Central Meat Market building, respectfully report that this vacant space, from the accumulation of garbage and other obnoxious matter, has been a source of complaint from adjacent property owners since being set off as a public stand for farmers' teams, etc. In the summer season the malaria arising therefrom is not only offensive, but impregnates the atmosphere with loathing impurity, forming a dangerous element in case of epidemic. The board believe if it is the purpose of the city to continue the occupation of the same for the congregation of teams, the improvement should be made at an early day, and therefore transmit the proper resolution. The estimated cost for paving with asphalt is about \$5,000.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and the following resolution was offered:

By Ald. Jacob:

Resolved, That the central unpaved portion of Michigan Grand avenue, between the Soldiers' Monument and the Central Market building be, and is hereby ordered paved with asphalt pavement, and upon it being furnished the necessary estimates by the City Engineer, the Board of Public Works is directed to advertise five days for proposals for paving the same with asphalt pavement.

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith recommend and respectfully ask your honorable body to confirm the nomination of Edward A. Parkinson as Assistant Treasurer, to fill the vacancy occasioned by the death of the late Wm. McGrath.

Respectfully yours,

WM. PARKINSON,

City Treasurer.

FROM THE HEALTH OFFICER.

To the Honorable the Common Council:

GENTLEMEN—Permit me to call your attention once more to the necessity, as a sanitary measure, of an alley and lateral sewer in the block bounded by Catherine street on the north, Mullet on the south, and Ropelle on the west. In this block there are something like a dozen privies, many of them in a most offensive condition. I would call particular attention to premises No. 254 Mullet street, where the practice has been adopted as soon as one vault is full of digging another and moving the building over the latter, and covering the old ones with board, and upon the board a thin layer of dirt.

This practice has been carried on until the rear of the lot is honeycombed with vaults filled with human excreta; over some the boards have rotted away, exposing the contents of the vaults to the air and the sun's rays. It is nearly two years since I made a report asking that an alley be opened and a sewer constructed. At that time Dr. Kaiser, to whose city physician district the locality belonged, informed me that he had constantly some one of the inmates upon premises No. 223 sick, and I am informed also by the present occupant that she has had more or less sickness in her family since occupying the premises.

The evils complained of are constantly being aggravated, and, if possible, should be removed before the heat of summer is upon us, and the only effective remedy is a lateral sewer.

Respectfully submitted,

E. LEACH, M. D.,
Health Officer.

Referred to the Board of Public Works.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 1st instant, to his Honor the Mayor for approval on the 2d, and that they were approved on the 2d day of April, 1879.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Public Buildings, to whom was referred the communication of the Board of Education, requesting the use of the Council chamber for the meetings of said board, would respectfully report as follows:

The meetings of the Board of Education are held monthly in the room set apart for that purpose in the High School building. This room is too small for the purpose, and is much needed as a recitation-room for the school. Under these circumstances

your committee would recommend that the prayer of the petitioner be granted on condition of paying to the Controller a sum sufficient to cover the expense of lighting the chamber when used by the board, and also of paying the janitor of the City Hall a sum to be agreed upon annually for his services in attending the sessions of the board for the purpose of opening, lighting and closing said chamber.

Respectfully submitted,

DANIEL GUINEY,
W. H. CONNOR,
PAUL GIES.

Adopted as follows:

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Mary Horan, setting forth that she paid her taxes for 1876, and asking that the sale of her property for that year be cancelled, would respectfully report that Mrs. Horan does not exhibit any receipt for the taxes of 1876, and the books in the Receiver's office show that the same remains unpaid.

Your committee therefore recommend that the prayer of the petitioner be denied, but that she be permitted to pay the original tax, and the City Treasurer be hereby instructed to cancel the sale on receipt of the same.

Respectfully submitted,

M. HALLER,
W. H. CONNOR.

Adopted.

FROM THE SAME.

Respectfully submitted,

SEYMOUR FINNEY,
W. E. WARRINER,
DANIEL GUINEY,
H. P. BRIDGE,

Accepted, and leave being granted the following resolution was offered.

By Ald. Finney:

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the bill to revise the charter of the city of Detroit, now pending before the legislature of this state, would respectfully report as follows:

The bill in question contains so many features upon which your committee cannot agree, and, knowing that without being unanimously agreed upon, its passage by the legislature is extremely doubtful, we have decided to submit, in lieu of said bill, the annexed amendments to the charter now in force.

After a careful reading of the charter, and consultation with the heads of the various departments of the city government, we find that the changes proposed are such as the experience of said officers and the judgment of your committee approve. These amendments are simple and few in number, though the preparation of them—since the state law requires, when amendments are desired, the recital of the entire section sought to be amended—is somewhat voluminous. We would recommend that the City Counselor and City Attorney be directed, without delay, to put the amendments herewith submitted in proper shape for presentation to the committee of the Legislature having the bill of revision in charge, and that such committee be requested to report such amendments in place of the bill now pending as aforesaid.

We also recommend that the City Controller, when such amendments are prepared by the legal officers of the city, cause the same to be printed for the examination of the members of the Council.

Respectfully submitted,

PAUL GIES,
F. G. RUSSELL.

Accepted, and leave being granted the following resolution was offered.

By Ald. Gies:

Resolved, That it is the sense of this Council that the Assessor's department of the city should consist of a Chief Assessor with four assistants—two each to be chosen from the districts of the city lying easterly and westerly respectively of Woodward avenue. And further, that said assessors should perform the duties now performed by the Board of Review.

Resolved, further, That the committee of this Council having the revision of the charter in charge be and is hereby instructed to insert an amendment conforming to this resolution.

Adopted.

By Ald. Gies:

Resolved, That the City Counselor and City Attorney be and they are hereby directed, without delay, to put the amendments to the city charter, submitted by the special committee appointed for that purpose, in the proper shape for presentation to the committee of the Legislature having in charge the bill now pending before that body, and, when so prepared, that the Controller cause the same to be printed for examination by the members of this Council.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, and the President—21.

SUSPENSION OF THE RULES.

On motion of Ald. Russell the rules were suspended for the purpose of allowing the Joint Committee from the Tunnel or Bridge River Crossing Committee to introduce resolutions relative thereto. The following is the communication:

COMMUNICATION.

To the Honorable the Common Council:

GENTLEMEN—The necessity of a public park is acknowledged by all thoughtful citizens. Most other cities have recognized this need and supplied it. Detroit, from various causes, has as yet failed to secure this great public advantage. An opportunity now seems to present itself for securing a park which we think will commend itself as to location, economy, peculiar fitness, readiness of access, and freedom from all objections. This spot is Belle Isle.

The island contains over 700 acres, much of which is covered with beautiful groves, interspersed with lawns. The trees include very many fine and full-grown specimens of white oak, maples, elms, hickories, etc. It can be improved at a comparatively small expense, and made to include a large variety of forest, lawn, lake and river scenery. The drive around the island will be unequalled for its magnificent, extensive and continually shifting views of the river, the city, the Canadian shore, and the lake above.

There is not, we believe, in the world, another distinctively island park.

One of the peculiar advantages of such a park will be that it will be entirely protected from those nuisances that are apt to gather about a place of such great resort.

Such a park, added to the existing attractions of our city, would make it one of the most delightful and popular of summer resorts.

The Detroit Scientific Association would gladly avail itself of the privilege to occupy fifty or a hundred acres for a botanical garden and arboretum, and probably also in due time a zoological collection. This would add materially to the attractions of the place, and prove a great public benefit.

The fisheries on the island have been very valuable in the past, and with proper legislative and police protection, might still be made sources of revenue without interfering in any degree with the park features of the place. Small portions of the island have been leased at handsome rentals for the purpose of gathering and storing ice, and this could still be a source of revenue. The ice houses, if properly constructed, would add no unornamental feature. There are also several buildings which could be made available for park purposes.

Such an island park would add greatly to the regatta and boating attractions, for which our river is so justly celebrated.

Realizing these needs, and the advantages connected with the island, the undersigned, a self-organized committee for that purpose, caused inquiries to be made to ascertain whether the island could be purchased at a reasonable price, and they learned that owing to a combination of circumstances, the proprietors were willing to part with their several interests at a price very much below what they were heretofore considered worth. Taking advantage of these circumstances, we have obtained agreements from the several proprietors to sell their interests at a cost in the aggregate of \$300,000, payment to be made in five annual instalments, or sooner. This has been done in the hope and confident expectation that the city of Detroit would avail itself of this most favorable opportunity to provide a park that will be of unrivalled beauty.

Should the project of crossing the Detroit River, in which the public is now taking a lively and well-timed interest, include the passage across the island, we do not conceive that it could be any possible injury to its full use as a park, and it might even add an additional attraction.

We have no personal or pecuniary interest in this matter, and are prompted by no other motive than the public good. We therefore lay this matter before you, as representatives of this city, offering the city the right to purchase which we now hold, and ask of you to take such action as the best interests of Detroit demand.

FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval the proceedings of your honorable body of the 4th inst. so far as they relate to the revision of the charter in respect to the assessor's department, in which you say it shall consist of one assessor with four assistants.

For the reason that in my judgment, and it is the opinion of the assessor that such change would create confusion and jealousy. That with the change of our fiscal year the assessor has one month more time than formerly to make the assessments, which he considers ample, and that he, with two assistants, can accomplish the

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council:
GENTLEMEN—I herewith submit, without my approval, the report of the Clerk of the Market for the week ending March 29, 1879.

I cannot approve the report because it contains the reports of the payment from two individuals for rent of stalls in the Central Meat Market for the month of April.

As the rent of these stalls has not as yet been fixed for the year, and the question as to whether they shall be rented at all from April 1 has not been fixed by the Council, the Clerk of the market had no authority to collect the rent of any stall for the month of April. As soon as the fact came to my notice, which was on the evening of the 31st March, I directed the money to be returned to the individuals who had made such payments, and immediately notified them by letter of the fact, and that no money could be received for rent until the question had been settled by your honorable body.

I am informed that the parties in question refused to receive the rent so returned, and make claim that, since rent has been received for April, this will hold the city for the right to occupy said stalls for one year.

I therefore submit the matter for your action.

Respectfully, etc.

H. P. BRIDGE, Controller.

Referred to the Committee on Ways and Means.

FROM THE RECEIVER OF TAXES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully inform your honorable body that he is now engaged in preparing the annual list of property to be offered for sale for non-payment of taxes. In such list, among other items, it is required that the Receiver of Taxes shall include an amount sufficient to cover the cost of printing. In order, therefore, that the Receiver may be enabled to fix this sum as near as may be to the actual expense incurred, it is essential that he should be informed of the number of papers or languages in which such lists are to be published. It would aid him if the Council would designate its intention in the premises at the earliest day possible.

Very respectfully,

J. M. WELCH,
Receiver.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith nominate, and respectfully ask your honorable body to appoint, the following named persons as clerks in this office:

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In reply to a notice from this office Mr. John F. Prentiss on the 14th of March, 1879, with other contractors, filed with the Board of Public Works proposals for furnishing the city during the fiscal year 1879 with cedar paving blocks for repairing paved streets, and he being the lowest bidder, was awarded the contract. He has been repeatedly notified to execute a contract in accordance with a bidding bond filed with the Board conditioned that should he be found to be the lowest bidder, and awarded the contract, he would enter into a contract with satisfactory sureties for its performance. Inasmuch as he has not complied therewith it is evident that, having ascertained that the profits at his figure do not meet his expectations, has concluded to let the matter go by default. The Board therefore recommend that the bidding bond be declared forfeited, and the Board of Public Works authorized to readvertise five days for proposals.

Respectfully submitted,

WM. PURCELL,

President.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending April 5, 1879, report that, with the City Accountant, we have examined the same and find them correct and satisfactory, except the reports of the late and present Receivers of Taxes: the daily reports of Mr. Roberts, showing collections to the amount of \$5,099 85, and the weekly statement showing the amount of \$1,734 91; and the daily reports of Mr. Welsh, showing collections to the amount of \$1,659 75, and his weekly statement showing the amount of \$5,034 69; we therefore ask that the same be referred back for correction, with the aforesaid exceptions we recommend their approval.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your committee on Ways and Means, to whom was referred the communication of the Controller, submitting, without his approval, the report of the Market Clerk for the week ending March 29th last, beg leave to submit that we have carefully considered the matter, and report as follows:

We believe that, in view of the fact that the rental for meat stalls in the Central Market had not been finally determined, and that the matter was a subject of controversy in the Council, the money placed in the hands of the Market Clerk by two of the tenants of said market as rent for the month of April should not have been received. This money, however, was paid at about the usual time of paying monthly instalments of rent, and although we are led to believe that the payment was made with a view of entrapping or committing the city, we do not find that the Market Clerk was a party to any collusion or had any desire to embarrass the city authorities or compromise his position. The Controller has caused a proper tender back of the money to be made to the parties who apparently attempted to commit the city, and under all the circumstances we believe that no rights have been lost.

We recommend the approval of the Market Clerk's report for said week, excepting that part relating to said meat market rents; and further, that the Controller be directed to notify said parties who delivered to said clerk said rents for April that the money so delivered is in the city treasury, subject to their order.

Respectfully submitted,
F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,
Ways and Means Committee.

Adopted.

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 8th of April, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,
SEYMOUR FINNEY,
DANIEL GUINEY.

Accepted and adopted as follows:

FROM THE CITY COUNSELLOR.

To the Honorable the Common Council:

GENTLEMEN—As directed by the committee of the whole, last evening, I herewith submit certain amendments to the bill to amend the city charter now pending before the Council.

F. A. BAKER.

Report accepted, ordered printed in proceedings, and referred to the committee of the whole. The following are the

AMENDMENTS:

Amend section 9, page 5, of the bill by striking out the proviso and inserting the following:

The Common Council shall also have power to borrow, by issuing bonds on the faith and credit of the city as aforesaid, such sums of money as may be necessary, not exceeding in the aggregate the sum of \$700,000, with which to purchase the island in the Detroit River known as Belle Isle, and to erect a public bridge to said island over the American channel of said river, provided, however, that the gross debt of the city, not including the debt of the Water Board, and deducting the means in the sinking fund of the city, shall never exceed 2 per cent. of the assessed value of all the real and personal property in the city, and all bonds and other indebtedness issued or created in excess thereof shall be void.

Insert in the ninth line after the word "Detroit," the following:

And "Public improvement bonds of the city of Detroit."

Strike out all of section 14 of the bill, page 13, being sections 23 to 40 inclusive, relative to special assessments. They are a mere compilation of existing provisions of the charter which were grouped in the proposed general revision, and which have no place in this bill.

Insert in lieu thereof the following:

Sec. 14 That chapter 5 of said act be amended by adding the following new sections thereto, to stand as sections 59, 60 and 61:

Sec. 59 The Common Council shall have power to purchase the island in the Detroit River known as Belle Isle, and to improve and use the same as a public park, and to erect thereon any buildings which the city is authorized to build and maintain, and in all respects to devote said island to such public and corporate purposes as the Council shall deem advisable. In case said island is purchased by the city the Common Council shall have full police powers and jurisdiction over the island, the waters surrounding the same, and the bridge, if any leading thereto, the same as though the island was within the corporate limits of the city.

Sec. 60 The Common Council shall also have power to erect and maintain a bridge over the American channel between said island and the main land, and to purchase and acquire sufficient real estate on said main land for suitable approaches to said bridge from the main land, and the police powers and jurisdiction conferred by the preceding section shall extend to the land thus acquired.

Sec. 61 The Common Council shall fix the rate and provide for the collection of tolls for the use of said bridge, and may grant to railroad and street car companies the right to run their cars over said bridge upon such terms and conditions as the Common Council shall provide.

PRINTING.

To the Honorable the Common Council:

GENTLEMEN—Your committee on printing, to whom was referred the resolution of Ald. Rousseau instructing the City Clerk to prepare a manual of the Common Council for the year 1879, respectfully report that they have duly considered the same, and find that the last city manual was printed in 1877, and that the edition has been entirely exhausted, and believing that a new and revised edition would not only be very useful and acceptable to the city officers and Common Council, but would prove an interesting and instructive document to many of the officers of sister cities, whom we are informed quite frequently apply for them to secure desired information in regard to our city government, would respectfully report favorably on the subject, and recommend the adoption of the resolution with the following amendment:

Resolved, That the City Clerk be instructed to prepare a manual of the Common Council for the year 1879, and have printed 800 copies, the same to be paid for from the general fund, and the cost not to exceed \$300.

Respectfully submitted,
A. H. RAYNOR,

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The special committee to whom was referred the report from the City Attorney and City Counselor in regard to the gas case respectfully report that we have given the whole matter careful consideration, and believe that the interests of the city require that the case should be appealed to the Supreme Court of the United States. We recommend that the legal officers of the city be directed to take and perfect said appeal, and to bring the case on for hearing as soon as possible.

We also recommend that they be directed to commence the proper legal proceedings in the state courts to determine the question whether the new Mutual Gas Company has any right to use the streets of this city to lay pipes or distribute gas, and that the committee appointed to visit Lansing be instructed to urge the passage of the bill amending the law under which gas companies are organized in this state, so as to authorize the local authorities to fix fair and reasonable prices to be charged for gas.

GENTLEMEN—On the 29th of June, 1875, we entered into contract for the paving of Woodward avenue from Jefferson avenue to the river. The work was performed in accordance with the terms of the contract and was accepted, and payment therefor was ordered by a unanimous vote of the Council August 13, 1875, which action was approved by the then Mayor, Hugh Moffat.

Judgment upon this contract was rendered in our favor by the late Judge Cochrane after an exhaustive hearing of the case, which judgment was reversed by a misapprehension of the facts by the upper court.

We have been to large expense to recover these moneys so justly due, and owing to the great number of technicalities raised we have withdrawn our suit and now ask your honorable body to give the subject matter your earnest and careful attention, that justice may be done us without further costs and annoyance.

The moneys are held by the city under that clause of the contract which says the city may retain sufficient moneys to protect itself from any loss or damage in consequence of the use of any patent pavement. The contract obliging the contractors to pay all moneys necessary to be paid in consequence of the use of any such patent.

The Supreme Court in their decision use the following language, viz: When we turn to the specifications (of the contract) we find them headed Specifications for Stowe Cedar Foundation Pavement. A comparison of the specifications (of the contract) with the description or manner of laying the Stowe pavement as contained in the patent shows that it was the Stowe pavement that was to be laid. Here then we have high authority as to the patent that covers this work, and to show to your honorable body that the indemnity clause in the contract is fulfilled and that the city cannot be damaged by the use of such patent, we show to you the license from the owner of said patent to ourselves to lay said pavement in the streets of Detroit.

If the patent is invalid for want of novelty as is claimed by some, then how can the city be damaged? The city holds our bond for a large amount conditioned that we will perform all the conditions of the contract.

Now we show to your honorable body by the report of the Board of Public Works and the unanimous action of a former Council, that such contract was fully completed. And if any doubt exist in your minds, and there remains anything to be done by us to further entitle us to the moneys now so long withheld from us, we respectfully ask that you let us know what it is.

The Board of Public Works and a former Council say the work is fully completed.

The Supreme Court say the patent is covered by the Stowe patent. We show to you that we are the authorized licensees of the patent, and that all conditions are fulfilled, and we ask that our moneys may be paid us without further annoyance and expense.

Yours truly,

EUGENE ROBINSON & CO.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—As will be seen by reference to the proceedings of the honorable the Board of Estimates at the meeting of that body, held Saturday, April 13, the board again "claimed and exercised the right to make appropriations for the general fund specified;" or in other words, they claim the right to determine how much the Common Council shall expend for each and every item which make up the total of the estimates adopted by your honorable body for the use of the general fund. The board further claim and insist that the financial officers of the city have no right to expend for any particular item of the general fund a sum greater than that which the Board of Estimates may allow for such particular item, notwithstanding the Common Council may direct otherwise. For example, they deduct from the estimates submitted to the Common Council and approved by that body an amount, \$1,100, estimated as necessary for the employment of extra help in the office of the Receiver of Taxes during the summer months for the purpose of enabling that officer to receive the taxes tendered to him during that period of the year when taxes may be paid without percentage, and insist that the financial officer of the city has no right to pay for such services, even should he be ordered so to do by the Common Council, remarking, in the report adopted, "that the action of the Board of Estimates is quite as obligatory upon the executive officers of the city as the action of the Common Council."

I have hitherto held the opinion that, while the Board of Estimates has the unquestioned power to decrease the allowance for each and every fund (except, perhaps, the sinking and the interest funds) they have not the right to itemize each fund or to determine how, in each particular, the appropriation for each fund shall be expended. That power I have always held rested in the Common Council. I therefore desire thus early to place this subject before your honorable body that I may be properly informed and instructed in the matter.

Respectfully submitted,

H. P. BRIDGE,

Controller.

Accepted and referred to the City Counselor and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit the accompanying communication from the Detroit Steam Supply Company requesting permission to submit a proposition for supplying steam for heating the City Hall the coming year, which communication, I suggest, be referred to the committee on public buildings of your honorable body, and the Board of Public Works.

Respectfully submitted,

H. P. BRIDGE, Controller.

The following is the communication:
Hon. H. P. Bridge, Controller of the city of Detroit:

DEAR SIR—The Detroit Steam Supply Company having their mains for the transmission of steam from their large boiler establishment laid throughout Griswold street, and through service pipes therefrom, are now successfully supplying many large buildings with steam for heating and power purposes, and being now prepared to furnish steam for heating public buildings on and near Griswold street, do hereby respectfully request permission to submit a proposition to the city authorities for supplying steam to heat the City Hall the coming year.

The company can easily connect on to the present steam heating apparatus in the building, and beg leave to say that with high, dry steam they can thoroughly heat the whole building.

I am respectfully yours

HENRY A. WIGHT,
Secretary.

Accepted and the communication was concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Upon a closer examination of the act of the Legislature, approved March 4, 1879, "to change the commencement of the fiscal year of the city of Detroit, and to authorize the Common Council to provide means to maintain the city government during the interim occasioned by such change," it would seem that the said bill provides (by authorizing the temporary loan of \$80,000) for the general and interest fund only, and that, during this interim, from February 1 to July 1, 1879, or from the close of the last to the commencement of the next fiscal year, no provision is made for other funds pertaining to the city government, including those of the Superior and Recorder's courts; and that these funds will have no other means to meet the necessary expenditures other than the balance each fund may have on hand together with such revenues as may become available.

These balances and revenues will not be sufficient for the demands of these funds during this interim or until the appropriations, just allowed by the Board of Estimates, will become available, viz.: after July 1, or the beginning of the ensuing fiscal year.

Under a provision of the city charter, which is mandatory, the balance in the contingent fund, at the close of the last fiscal year, was transferred to the sinking fund so that there is, to-day, no means in that fund with which to meet any expense which might be considered a contingent one.

Some steps should be immediately taken to provide for this interim as, under the charter, none of the appropriations for the ensuing fiscal year can be anticipated until after July 1 next. The Legislature is still in session, and there is before that body a bill to amend the city charter and a remedy might thus be had for this difficulty if it be so found. I would therefore suggest that the subject be referred to the Committee on Ways and Means, and the legal officers of the city for consideration.

Respectfully, etc.

H. P. BRIDGE,
Controller.

Accepted and referred to the Committee on Ways and Means, City Attorney, and City Counselor, and the Controller.

To the Honorable the Common Council:

GENTLEMEN—Before transmitting a communication on Friday last to the Common Council recommending the forfeiture of the bidding bond of Mr. John F. Prentiss as surety for executing a contract in case he should be found the lowest bidder for furnishing cedar blocks for repairing paved streets during the fiscal year 1879, the board afforded him every opportunity to execute the contract if such was his desire. He was not only notified verbally, but in writing, to execute the same, and except to insist on a change of the specifications so as to regulate the quantity of 4½ and 6 inch blocks which shall be furnished, he has manifested no disposition to execute the contract. Now, after decisive steps have been taken to abrogate the contract, he appears in a communication to the board setting forth his willingness to execute the same. The board herewith transmit the communication for such action as in your wisdom may be for the interest of all concerned.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:
GENTLEMEN—I herewith respectfully transmit the accompanying communication, this day received, from the Calvert Lithographing and Engraving Company, in regard to the new map of the city, just published by that company, and which they desire should be considered by your honorable body. A sample copy of this map may be seen in the office of the City Engineer.
Respectfully etc.,
H. P. BRIDGE,

Controller.

The following is the communication:
Hon. H. P. Bridge, Controller City of Detroit:
DEAR SIR—We desire to inform you that we have just completed a new edition of our large city map, revised and corrected up to the present time.

As the maps now in use in the various city offices were issued in 1871, and so many changes and new subdivisions, together with an extension of the city limits, have rendered them almost worthless as maps of reference, we would respectfully ask you to bring the subject before the honorable Common Council. A copy of the map may be seen in the City Engineer's office.

Very respectfully,

C. H. CANDLER,

Sec'y Carvert Lith. & Eng. Co.

Accepted and referred to the Committee on Ways and Means, Controller and City Engineer.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:
GENTLEMEN—The Board of Public Works, to whom was referred the communication of the Health Officer, recommending the opening of an alley in the block bounded by Catherine, Mullett, Riopelle and Orleans streets, and causing a lateral sewer to be constructed therein, respectfully recommend that the recommendations of the Health Officer be complied with, and the City Attorney be directed to transmit to your honorable body the proper resolution for opening said alley.

Respectfully submitted

WM. PURCELL,

President.

Accepted and referred to the Committee on Street Openings.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 15th inst., to his Honor Charles Ewers, acting Mayor, on the 16th and that they were approved on the 17th day of April, 1879.

We there-

fore ask that the same be referred back for correction.

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council:

Respectfully submitted.

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets to whom was referred the resolution of Ald. Haller, also the amendments of Ald. Karrer and Finney, relative to a public market, would respectfully report that on the 26th of February last your committee submitted a report in regard to the resolution of Ald. Haller and the amendments of Ald. Karrer; but that through some clerical mistake the amendments of Ald. Finney instructing the Controller to include in his estimate for the year 1879 the sum of \$75,000 for the erection of a market building on Michigan Grand avenue, was not sent with the other resolutions to your committee, and therefore not reported upon at that time.

Your committee have had the amendments of Ald. Finney under consideration, and after careful deliberation and investigation, are of the opinion that the best interest of the city would be advanced by the erection of a market building on Michigan Grand avenue; and to satisfy themselves in regard to this matter your committee made diligent inquiry among some of our heaviest tax-

payers and find a very strong feeling in favor of such a structure at the place named.

Your committee would therefore recommend the adoption of the following resolution:

Respectfully submitted,

HENRY GROSS,
GEORGE A. FOSTER,
GEO. W. HERRICK.

Whereas, An act entitled "An act to authorize the city of Detroit to borrow money for the purpose of erecting a central public market in said city, and to issue its bonds for the payment of the same," was passed at the last session of the Legislature, and approved April 22, 1875, whereby the Common Council of said city, with the approval of the Board of Estimates, is authorized to issue \$100,000 in bonds, to be called "Central Public Market stock of the city of Detroit," and to provide out of the revenues arising from the market thus erected for the payment of the interest of said stock and to create a sinking fund to pay the same and to maintain said market and pay the expenses thereof; therefore

Resolved, That the Common Council, with the approval of the Board of Estimates, hereby consent and authorize the issue of \$75,000 in bonds for the erection of a central market, said bonds to be denominated Central Public Market stock of the city of Detroit, and the Committee on Loans are hereby directed to make all necessary arrangements for the preparation of said bonds, and to sell the same upon the best terms possible, in accordance with the provisions of said act.

Resolved, That the City Clerk be requested to call a meeting of the Board of Estimates at the Council chamber on Saturday, April the 26th, at 10 o'clock A. M., to consider the propriety of issuing bonds by the city, to the amount of \$75,000 or less, the proceeds of said bonds to be used for the purpose of erecting a Central Market building, to be located on the market grounds, between the Soldiers' Monument and Bates street, and if the approval of the board be obtained the same to authorize the issue of the bonds.

Objected to, and laid over under the rules.

LIQUOR BONDS.

To the Honorable the Common Council:

Your Committee on Liquor Bonds, to whom was referred the bond of the parties named, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of James Hamilton, James Owens and Charles McAllister.

Respectfully submitted,

JOHN CHR. JACOB,
SIMON C. KARRER,
MICHAEL DALY.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Herrick, Jackson, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—31.

Nays—None.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully request your honorable body to select from the large number of public streets, the opening and extending of which have been petitioned for, those which are most needed, and also those which will probably entail the least expense to the city. The small amount approved by the Board of Estimates for street opening purposes renders it expedient that the amount allowed should be expended as to relieve the public necessities in opening streets where the necessity is most immediate and urgent.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and referred to the Committee on Street Openings.

FROM THE SAME.

FROM THE CITY ATTORNEY AND CITY COUNSELLOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the communication from the City Controller relative to the question whether the Common Council is bound by the detailed items considered by the Council and the Board of Estimates in fixing the amount to be raised for each of the several funds of the city, respectfully report that, in our opinion, the Common Council is not bound by the amount allowed for each item of expenditure, but is simply prohibited from exceeding the aggregate appropriations for such fund. The Board of Estimates were so advised by the City Counselor in an opinion bearing date April 11, 1878, and to which reference is hereby made.

F. A. BAKER,
City Counselor.
WILLIAM C. MAYBURY,

FROM THE HISTORIOGRAPHER.

To the Honorable the Common Council:

GENTLEMEN—Please accept the following account of a river which once ran through our city, but which has long since disappeared.

Yours respectfully,

LEVI BISHOP,
Historiographer.

THE SAVOYARD.

In the olden times a small stream took its rise in or near the present Fort street east, passed through the present Central Market, entered Congress street at Woodward avenue, passed down southwesterly and out into the river at the Central Railroad depot. It served to drain the rear parts of the present Third, Fourth and Seventh wards, and a part of the Sixth ward of the city. It was seldom entirely dry, and was often quite full, so that large fish were caught in it from the bridges as far up as Woodward avenue. The old settlers and French *habitans* of Teuchsa Grondle and Detroit called this stream *La Riviere Savoyard*. Detroit was surrendered by Gen. Hull, August 16, 1812. The river is well remembered by persons now living in 1879. The Roman bard his golden Tiber sung,
The Grecian Lyre Scamander and Simois;
Beside the first the arms of Turnus rung.
And Hector's by the others and his Troy.

These petty streams, so muddy yet so proud,
Where long the poets held their watch and ward,
Why should their doubtful fame be sung so loud,
And why out run our classic Savoyard?

Propitious Muse! That wings the native air,
Of western land and lake from shore to shore,
Give us the ancient minstrelsy to share,
To sing the river that we see no more!

As mighty Jove ordained the ancient floods,
And for their fame inspired the ancient bard,
So Manitou—the rival heathen gods,
Ordained for lasting fame our Savoyard!

The shady forests overhangs the sides;
The banks, the lily and the myrtle share;
The feathered songsters light above the tides,
And with the sweetest warblings fill the air.

The hunters pass the streams, with bow and knife,
To merit, in the chase, a worthy fame;
And they, on proud return from sylvan strife,
By this bright river sit and dress the game.

The chiefs, in paint and plume, go forth afar,
To prove, beyond the stream, a mighty power;
And here again, as they return from war,
Their yells proclaim the glad triumphal hour.

And when the men and women, children, all,
In festivals, have fun of every sort;
When rarest feats the timid may appall;
They leap the river as a lively sport.

The wild beasts often reached the gentle bank,
Which thus for all most kindly was ordained;
And there they quiet stood and freely drank,
Until a flight of arrows on them rained.

And when the eyes of angry Manitou,
In fiercest lightning send their darting rays;
The thunders crash; the water rushes through;
The river and the world are all ablaze.

And sometimes, too, the crowd in terror ran
Upon the bridge, or swollen flood beside,
To save a drowning woman, child or man,
Whom accident had cast into the tide.

The French esteemed *La Petite Riviere*—
The early pioneers—*courreurs des bois*;
Garcou and demosselle sighed deeply there,
Like lovers by Scamander and Simois.

And when the rains of spring and autumn came,
And floods had filled the vales and swept the ridges;
The *habitans*, awake for every game,
Caught lively bass and pike upon the bridges.

And here, in petty fleets, were gayly seen,
As on old Tiber, Simois and Scamander—
And then in solemn march upon the green,
The duck and drake, the goose and stately gander.

And thus the river loved of all became;
It spoke a calm contentment to the full;
Till a proud flag was made to bow in shame,
And trail in sadness by the act of Hull.

The proud stream felt the burning, deep disgrace;
To its own Manitou it sent the cry;
But other gods now reigned above the place;
And then our Savoyard resolved to die.

And die it did—soon dried its bed and banks.
No Manitou was here his own to guard.
We make the record—ask not even thanks;
And thus farewell, our charming Savoyard.

Accepted, and ordered printed in the proceedings.

FROM THE SUPERINTENDENT OF THE HOUSE OF CORRECTION.

To the Honorable the Common Council:

GENTLEMEN—I respectfully ask your authority to renew the contract with Hilledale county on our usual terms and conditions.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, the City Controller and City Engineer, to whom was referred the communications of the Controller and C. H. Candler, Secretary Calvert Lithograph and Engraving Company, submit that we have considered the same and report as follows:

Some time since six maps were ordered at \$12 each, they have been distributed in the offices of the Mayor, Clerk, Assessor and Board of Public Works. Thirteen additional maps are required, and we recommend their purchase for offices as follows:

Controller 1, Treasurer 1, Receiver of Taxes 2, Attorney 1, Common Council Chamber 2, Assessor 2, Gas Inspector 1, Poormaster 1, Board of Public Works 1, and Recorder's Court 1. We have seen Mr. Candler and have been unable to get these maps for less than \$150 for the lot. As the offices named need them, we recommend the adoption of the accompanying resolution.

Very respectfully,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,
Committee.
H. P. BRIDGE,
City Controller.
JOHN McLAUGHLIN,
City Engineer.

By Ald. Russell:

Resolved, That the City Controller be and he is hereby instructed to purchase of the Calvert Lithograph and Engraving Company of Detroit, thirteen of their new city maps for the use of the offices named in the report of the special committee appointed to look after said matter, at an expense not exceeding \$150.

Objected to and laid over.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Taxes, to whom was referred the petition of Susan A. Beaubien, asking to be relieved from a sale of lot 83 L. Beaubien farm for a sidewalk assessment, respectfully report that Mrs. Beaubien and Valentine Hilsendegen, the contractor, were both before the committee; that the contractor refused to make any compromise with the petitioner as to the accrued interest, and as the city has no interest in the matter but merely holds the certificate of sale in trust for the contractor, we recommend that the petition be denied.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned special committee, to whom was referred the Controller's communication of the 15th inst., calling attention to the necessity of further legislation on account of the change in the fiscal year, beg leave to report as follows:

All of your committee excepting Ald. Raynor and Gross visited Lansing last Thursday for the purpose of looking after the proposed charter amendments and other legislation affecting the city. At a joint session of the Senators and Representatives from the city the subject matter of the Controller's communication was fully discussed and the amendments necessary to remedy the defects were unanimously agreed to and added to the charter amendment bill.

To meet certain necessary expenditures of the city, advantage will have to be taken of that clause of the charter permitting the borrowing of money in anticipation of tax collections. We believe, however, that such borrowing should be limited as much as possible, and recommend the closest adherence to the following resolution, adopted by your honorable body March 11th last, to-wit:

Resolved, That all officers and boards of the city are hereby requested and instructed to conform to those provisions of the charter and ordinances which contemplate or require that all expenditures or warrants therefor on the treasurer, shall be as against actual cash balances on hand.

Very Respectfully,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.
Committee.

H. P. BRIDGE,
City Controller.
FRED A. BAKER,
City Counselor.
WILLIAM O. MAYBURY,
City Attorney.

Adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the communication of his honor, the Mayor, of date April 1, recommending a change in the street lamps in use by the city at this time, respectfully report that, while we agree with the Mayor in his views suggesting such change, we find that the estimates for the general fund—from which the cost of such change would have to be paid—has been reduced by the action of the Board of Estimates to such figures that we are of the opinion that this desirable change cannot be accomplished at this time. We therefore feel compelled to report that we do not think it desirable to make any change in the street lamps at present.

Respectfully submitted,

M. HALLER,
THOMAS JACKSON,
JOHN B. MYAN,
Committee.

Adopted.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—As the cash balances of several of the city funds are nearly exhausted, and since no money can be realized for these funds until after July 1st next, when the payment of taxes will become due, it will be necessary to provide the means for the necessary expenses of these funds until that date by a temporary loan in anticipation of the appropriations for the fiscal year, which has just been officially fixed. On consultation with the Board of Public Works I find that that board will require for the various expenses under their immediate charge, as follows, viz.:

Board of Public Works General fund.....	\$4,800 00
Public Sewer fund.....	2,000 00
Public Building fund.....	500 00
Park Improvement fund.....	750 00
General Road fund.....	3,000 00
Road District, First Ward.....	300 00
Road District, Second Ward.....	400 00
Road District, Third Ward.....	100 00
Road District, Fifth Ward.....	100 00
Road District, Tenth Ward.....	500 00
Road District, Eleventh Ward.....	300 00
Road District, Twelfth Ward.....	300 00
Road District, Thirteenth Ward.....	500 00

There are now in this office unpaid claims against the Superior Court fund, including the pay-rolls of the officers of the court, Sheriff and deputy, amounting to nearly \$2,000 00, to pay which claims and provide for the expenses of the court until July 1st it will be necessary to borrow the sum of \$4,000 00, and for the Recorder's Court \$800 00.

I respectfully ask authority to make these temporary loans.

Respectfully, etc.

H. P. BRIDGE.

Controller.

Accepted and referred to the Committee on Ways and Means.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred petitions therefor, respectfully recommend that brick lateral sewers be constructed in the following described alleys:

In the alley between Prospect, Hastings, Ontario and Superior streets, from a point 15 feet east of the east line of L. Moran farm, to Prospect street.

In the alley between Russell, Riopelle, Maiden Lane and Ontario streets.

In the alley in the block bounded by Russell, Prospect, Leland and Ontario streets.

In the alley between Huron, Thirteenth, Iowa and Walnut streets; and

In the alley between Twenty-first and Twenty-second streets, from Lafayette avenue to a point 100 feet south of Bristol Place.

Respectfully submitted.

WM. PURCELL,
President.

Accepted, and Ald. Mitchell offered the following:

Resolved, By the Common Council of the city of Detroit, that it is deemed necessary to construct brick lateral sewers in the following alleys and streets, to-wit:

In the alley between Prospect, Hastings, Ontario and Superior streets from a point 15 feet east of the east line of L. Moran farm to Prospect street.

In the alley between Russell, Riopelle, Malden Lane and Ontario streets.

In the alley in the block bounded by Russell, Prospect, Leland and Ontario streets.

In the alley between Huron, Thirteenth, Iowa and Walnut streets; and

In the alley between Twenty-first and Twenty-second streets, from Lafayette avenue to a point 100 feet south of Bristol Place.

Resolved, That for the purpose of assessments for defraying and paying the cost of said brick lateral sewers respectively, the lots and parcels of real estate embraced within the limits of each alley and abutting thereon, through which said lateral sewers are ordered to be constructed, shall be and the same are hereby constituted and declared to be one local assessment district for each lateral sewer so constructed.

Resolved, That the City Engineer be and is hereby ordered and directed to make an assessment on the lots and parcels of real estate within the limits of each lateral sewer respectively, according to the benefit said lots and parcels of real estate shall receive from said improvements.

Resolved, That the Board of Public Works shall and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Griffin, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and President Gies—20.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully invite your attention to the condition of Chene street, northerly from Fremont street. It appears by a plat now on record in the office of the Register of Deeds that a street 66 feet wide in the line of Chene street, northerly from Gratiot avenue so-called, was dedicated, but all the fences not having been removed, those that remain form an obstruction which prevents the working and grading of said street, and making other necessary improvements thereon. Those that have acted in good faith and removed their fences insist on others doing likewise, and in compliance with their request the board recommend that proceedings be instituted to compel the refractory parties to remove obstructing fences.

Respectfully submitted,

WM. PURCELL,
President.

Accepted and referred to the Aldermen of the Thirteenth Ward and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with a resolution offered by Ald. REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means have carefully considered the Controller's estimates for money necessary to be borrowed for the purposes of the Board of Public Works, the Superior Court, Recorder's Court, public buildings, park improvement, public sewer, general road and road district funds, and do not hesitate to recommend the granting of authority as solicited.

This borrowing is an incident resulting from the change of the fiscal year and not from any miscalculation in estimating or providing for the ordinary expenses of the city.

The Controller exhibits commendable prudence in all his efforts to confine the financial operations of the different departments to cash balances and we trust the position he has taken will continue to meet the approval and encouragement of your honorable body.

Respectfully, etc.,

F. G. RUSSELL,

A. H. RAYNOR,

Committee.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, with the City Accountant, have examined the reports of the various city officers for the week ending the 19th inst., and the same appearing to be correct, we report them back and recommend their approval.

Your committee beg leave to call attention to the fact that for some time the poundmasters have occasionally released impounded property without prepayment of fees, contrary to the requirements of the ordinance.

The ordinance provides that no releases until fees have been paid shall be made by the poundmaster except upon order of the Common Council. By this limitation of power, aside from the annoyance to which it is liable to subject aldermen, hardship to owners of impounded property, and useless expense to the city, may arise from delay in acting upon cases presented for the consideration of the council. The matter should at least be so regulated that relief in meritorious cases can be given without violation of law. We therefore recommend that the ordinance be so amended as to permit releases in proper cases, by the Controller, upon the recommendation of the Superintendent of Police.

In view of the great change in finances and the large reduction in the price of labor, which have occurred since the ordinance was passed establishing fees for impounding property, we are of the opinion that a reduction of such fees ought to be made, and can be with safety and propriety. We therefore recommend that the ordinance be amended so that the fee for impounding any horse, ass, mule or swine shall be fifty cents per head instead of one dollar, and for cattle, thirty-five cents instead of fifty.

To carry out these recommendations we ask that the City Attorney be instructed to report the proper amendatory ordinance.

Respectfully,

F. G. RUSSELL,

A. H. RAYNOR,

Committee.

Adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 23d of April, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds, excepting vouchers Nos 111, 114 and 115, which are not approved by the committee.

Respectfully submitted,

SEYMOUR FINNEY,

W. E. WARRINER.

In the same connection Ald. Rousseau offered the following:

MINORITY REPORT.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, a member of the Committee on Claims and Accounts, respectfully reports that he cannot concur in the action of the majority of that committee in refusing to report favorably

on the pay rolls submitted for the payment of clerks in the offices of Controller, Assessor and Receiver of Taxes, respectively. I am satisfied that the appointments of the clerks referred to on the recommendations of the incumbents of those offices was intended to last during good behavior and limited by the term of the incumbent. The case has been decided in their favor by the Supreme Court at Lansing, and I can see no reason why they should not be paid. I would therefore recommend the approval of vouchers Nos. 114, '5 and 111, submitted to your honorable body and approved by the Controller.

Respectfully,

DANIEL GUINEY,

The report of the majority as amended by the minority report was then adopted as follows:

Yeas—Ald. Alter, Chene, Daly, Griffin, Haller, Herrick, Jackson, Karrer, Monaghan, Rousseau, Russell, Ryan and President Giles—13.

Nays—Ald. Connor, Finney, Jacob, Manning, Mitchell, Ralph, Raynor and Warriner—8.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Jacob Youngblood, for permission to occupy a small portion of the sidewalk in front of his place of business, corner of Jefferson avenue and Griswold street, would recommend that the prayer of the petitioner be granted, provided it does not interfere with the travel on that thoroughfare.

Very respectfully,

THOMAS JACKSON,
THOMAS MANNING.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of T. W. Palmer and a number of property owners on Jefferson avenue, asking that the hack stand on said avenue be removed to Woodward avenue, south of Jefferson avenue, would report that your committee to whom was referred that portion of the annual message of the Mayor of January 14, relative to the removal of said hack stands on said avenue, reported on February 14 in favor of the recommendation of his Honor the Mayor, and recommended that the City Attorney be directed to prepare and submit to this Council an ordinance locating hack stands four feet south of the railroad track south of Jefferson avenue, between Bates street and Woodward avenue, and between Woodward avenue and Griswold street, and not less than 75 feet from the crossings either east or west. On February 21 the recommendation of your committee in regard to this matter was indefinitely postponed, and your committee therefore ask to be relieved from further consideration of this subject.

Respectfully submitted,

THOMAS MANNING,
THOMAS JACKSON.

Adopted.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of John P. Flske and others praying that that portion of the city between High street, Woodward avenue, Brush and Erskine streets might be embraced in the fire limits, would respectfully report that this portion of the city is well built up with substantial brick residences, and it would be unjust to permit the erection of wooden structures in the district mentioned. We therefore recommend that the prayer of the petitioners be granted, and herewith submit the necessary ordinance.

Respectfully submitted,

BIMON C. KARRER,
JOHN CH. JACOB,
THOS. J. GRIFFIN.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—The annual report of the Board of Water Commissioners was referred to your Committee on Ways and Means some time since, but as the general business and financial operations of this board are considerably more extensive than those of any other of our municipal departments, we have delayed reporting in the matter until we could present conclusions resulting from actual and careful examination.

Your committee spent the most of last Friday looking into the general condition and detail workings of this department, first examining, at the office, its system of assessment, collecting and book-keeping, and then inspecting the new works in Hamtramck, and the reservoir. The operations at the office are conducted upon plain and practical business principles; the assessment books are arranged and made up with such accuracy and simplicity that any person of the most ordinary intelligence can readily ascertain the water history of any dwelling, business place or other property subject to water tax. The books for the present year contain nearly 22,000 assessments, the technical description of all the real estate of the city and involved the preparation and delivery of 60,000 receipts. Of course the respon-

ability of determining valuations does not pertain to this department, but when it is considered that every dwelling and business place in the city must be visited, and every vacant lot assessed annually, and that in most cases collections are made quarterly, and that the entire work of assessing and collecting is thoroughly accomplished by four assessors and two office clerks, the question becomes very pertinent whether our present system of assessing and collecting the general taxes may not be by far too expensive and complicated.

The efficiency of the department at present and the accomplishment of so much work are, without doubt, to a large extent the results of the employment and retention of gentlemen of large experience, of good business habits, and who are energetic and ambitious in the discharge of their important duties.

The system of bookkeeping is fully as simple and practical, each day's transactions are faithfully recorded, and generally so carefully and closely are all accounts kept, balanced and checked up, that any citizen can, in a few moments, at any time ascertain how much has been received or paid during the year, for a month, week or day, where the money came from, for what disbursed, how much each assessor has collected for any specified time, how much remains upon his roll to collect, how much the average loss and gains upon assessments amount to, what the balances are, and generally all points necessary for a full understanding of the condition of the department, both financially and otherwise.

A complete record is kept showing the dates of issue and payment of all bonds, and books have been provided in which are pasted securely all bonds and coupons that have been paid and canceled. In a word, your committee see no opportunities for fraud and irregularity in the office operations of this department, especially when superintended and conducted by persons as efficient and faithful as those now in charge. For this gratifying condition of affairs much credit belongs to the present experienced and accommodating secretary.

Your committee inspected the new works carefully and with much interest. We found the great engine doing its work most successfully and far beyond the expectations of its designer, the present thoroughly competent and experienced engineer. The same care, regularity and evidence of economy and good judgment are here exhibited. The important item of fuel is computed so closely that the engineer knows the forcing capacity of a pound of coal. It may be interesting for your honorable body and our citizens generally to know that the capacity or pumping power of the present engine is about 35,000,000 per day; that the average quantity of water pumped daily is 13,000,000, that each pound of coal pumps 864 gallons, and every cent's worth of coal 4,683 gallons.

The question may be asked, why should the people be taxed to construct a new engine if the present one has a capacity so much above the actual requirements? The answer is plain and direct. If the present engine should break down so that it would take a week to repair it, the city would soon be without water for its actual needs, the old works and reservoir not being sufficient to supply the ordinary demand. It may be incidentally remarked that only a short time since the city came very near seeing practically the necessity for the construction of an additional engine.

Friday was a day very appropriate for the purpose of passing upon the propriety of locating the works upon the present site and determining the question whether the receiving and settling basins possess any merits and whether the city is being supplied with such water as is ought to have for the large amount of money expended. The wind blew furiously from the southwest, stirring up the river bed in all its shallow places; along the main shore to the lighthouse, and along the northerly shore of Belle Isle up to and above its eastern extremity, extended strips of rolled and muddy water from 200 to 500 feet in

width and between them in the main channel of the river poured and surged in its downward passage the pure water of the lake as clear and beautiful as the most exacting citizen could demand. Far into this channel, hundreds of feet beyond the edges of the rolled portion of the stream, extends the huge inlet pipe, through which pours to the settling basins the 13,000,000 gallons of water now daily consumed by the city. The water in the basins had the same blue color and pure appearance as that in the center of the stream, but when it is remembered that this water is forced through strainers and has some chance to settle besides, it will not be difficult to conclude that our citizens are supplied with as good, if not better, water than any other city on the continent. Aside from getting pure water, the future will show that the Water Board of Detroit were the pioneers in inaugurating improvements which will result indirectly in the reclamation of all the low but valuable lands between the city and the lighthouse. Those build best who build for the future. Some of our best citizens have not approved the plans of the Water Board either as to location or extension of the works, but your committee believe the day is not distant when the entire population will refer with pride to the water works system of Detroit, and properly honor the foresight and judgment of the self-sacrificing gentlemen who have been most instrumental in creating and perfecting it.

The reservoir has ceased to be of material importance; it is, however, in fair condition and fully answers the purpose for which it is preserved. The use of the adjoining premises and the payment of \$100 per annum constitute the entire compensation for its superintendence and care. The present occupants and persons in charge are Mr. and Mrs. Henry R. Choate. The fine arrangement of the grounds, and the unusual neatness and good order everywhere prevailing exhibit the good taste of the keepers and the excellent judgment of the board in selecting them as custodians of this valuable property. Your committee believe the appearance of the grounds and to some extent the health of the surrounding population would be improved by a lively trimming of the large evergreen trees now lying against and encumbering the reservoir banks. The little old dwelling-house at the entrance gate ought to be thoroughly remodeled or a new and appropriate house constructed without delay.

In conclusion, we submit that the administration of the water works department, and the superior condition of all the property pertaining to it, forcibly illustrate the fact that Detroit, notwithstanding the adverse criticisms too often and unreasonably made, is favored with a reliable and efficient municipal government. It is but just that the utmost watchfulness should be exercised to prevent the perpetrating of fraud and corruption, but it is certainly is right that credit should be given where it belongs, and that the reputation of good citizens, especially those who give their time and best efforts to the city, should not be carelessly assailed and injured.

Very respectfully,

F. G. RUSSELL,
A. H. RAYNOR,
HENRY GROSS.

To the Honorable the Common Council:
GENTLEMEN—Your Committee on Judiciary, to whom was referred the communication of the Receiver of Taxes, relative to the assessment made on the postoffice property to defray the expense of repairing Griswold street, would respectfully report that under all the existing circumstances we would recommend that the Receiver of Taxes accept the amount tendered by the United States Government in full payment of said assessment, and herewith submit the necessary resolution.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred the petition of Thomas Smith praying that he might be awarded damages for injuries received while serving out a term of imprisonment in the Detroit House of Correction, would respectfully report that after hearing the petitioner's statement of the manner in which he received the injuries complained of, we are of the opinion that his carelessness alone contributed to the accident by which he lost the use of his left hand, and we find no legal liability for which the city should respond in damages. Your committee, therefore, recommend that the prayer of the petitioner be denied.

Respectfully submitted,

JOHN MONAGHAN,
F. G. RUSSELL,
PETER J. RALPH.

STREETS.

To the Honorable the Common Council:

STREETS AND CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets and the City Counselor, to whom was referred the communication from the Board of Public Works relative to the offer of John F. Prentiss to now enter into contract for furnishing cedar blocks for the year 1879, in accordance with the bid made by him, respectfully report that we find that Mr. Prentiss refused to enter into said contract when requested, and for that reason the Council forfeited his bid and ordered the Board of Public Works to advertise anew, and that in our opinion Mr. Prentiss is not now entitled to the contract.

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING,
F. A. BAKER,
City Counselor.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petitions of numerous parties protesting against the obstruction now being maintained by the Ferry Association at the foot of Woodward avenue, and also against the careless manner in which said association complies with the covenants of the agreement made with the city, would respectfully report as follows:

We have made a careful investigation of the grievances complained of, and find that while by the terms of the lease the company is required to run a ferry across the river once in every six minutes, it runs but one in every twenty minutes, to the great detriment and annoyance of the public. We find, further, that no apron has been built in the slip at the foot of Woodward avenue, as the lease requires, and pedestrians and vehicles are crowded into the wagon approach to the ferry on the east side of the street. Again, while by the terms of the lease a fence was to be built easterly of the slip, and on the line of the same, we find a cumbersome frame erected, with a fence underneath the same, and a frame toll-house, extending a distance of twelve feet beyond the line of the slip. We do not see how the right to erect or maintain any such structures as these can be justified under the contract of the company with the city. Under the circumstances, we would recommend that the Board of Public Works notify the ferry association to proceed at once to build the apron in the slip, as provided; also to remove the obstructions now on the dock on the easterly side of the street, and to put in place thereof a proper fence, built on the line of the slip; and, further, that said association be notified by the Controller to proceed forthwith to comply with the terms of the lease in the matter of running ferries on time, as therein provided.

Respectfully submitted,

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING,
WILLIAM C. MAYBURY,
City Attorney.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of P. O'Neill setting forth that for the year 1871 he paid his taxes in the office of the Receiver of Taxes; that in so doing he presented the receipts for the year before and that through a mistake the clerk made out the receipts for 1871, on lot 185 on the Brevoort farm instead of lot 185 Porter farm and consequently marked the wrong lot as paid.

This lot 155 Porter farm was sold to the city for the taxes of '87; your petitioner therefore prays that such sale may be cancelled, as he is not to blame for the mistake.

Your committee would respectfully report that they find the facts as stated to be correct, and that it was an error of the clerk in the Receiver's office and not the fault of the petitioner.

Therefore your committee would recommend that the City Treasurer be instructed to cancel such sale.

Respectfully submitted,
M. HALLER,
W. H. CONNOR,
GABRIEL S. OHENE.

MARKETS.

To the Honorable the Common Council.

GENTLEMEN—Your Committee on markets to whom, on the 18th inst., was referred the petition of Francis Benson, to be allowed a stall in the Central Market, respectfully report that the said Benson has, at several times, been an occupant of the market, and, by his unruly conduct, proved himself to be an undesirable tenant of that building. Benson was, last season, removed from the market, and although he frequently petitioned for a reinstatement the Council refused to do so.

Finally, on the 24th of February last, at his urgent solicitation and on the promise that he would not return to the city, he was given a free passage to Cincinnati, Ohio. Having now returned, he again seeks to be allowed a stand in the market. We report adverse to his petition.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom with the City Attorney was referred the communication of the Board of Public Works relative to the removal of the fences encroaching on the line of Chene street, northerly of Fremont street, would respectfully report as follows: We find that the street in question was legally opened and dedicated to the public use many years ago, but that the fences on the westerly side of the street have not been put upon the proper line. Notices were served upon the owners of the parcels of land fronting on the westerly side to establish fences on the line. In some cases the notices were complied with, but in others they were disregarded. We would therefore recommend that the City Attorney and City Counselor be directed to institute proceedings for the removal of the encroachments complained of.

FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I herein inclose to your honorable body a communication from Waterboro, S. O., which will explain itself. Please take such action upon the same as you deem best.

Very respectfully,

GEORGE C. LANGDON,

Mayor,

The following is the communication:

TO THE PUBLIC.

WATERBORO, S. O., April 24, 1879.

More than half of our town was destroyed a few days ago, by a sudden and appalling calamity, the like of which has never been heard of in this region. A black column of wind swept over the place, and in less than two minutes the greater portion of the place was more or less prostrate—the lowest cabin and the tallest houses. The spacious Episcopal Church, the fine Presbyterian and Methodist, the Catholic chapel, and the various churches of our colored population, with the Academy, are flat on the ground, with the dwellings of the inhabitants. But it is not with these latter matters that we have now to deal, but to appeal for the material wants of our suffering people. Their store-houses have, with their contents, not escaped, and even the clothes of whole families are not to be found. The community is a poor one, and as a committee to obtain pecuniary aid for the sufferers, we solicit contributions from public and private corporations, and from all who feel for those in distress, to give some habitation to our desolate people.

Charles Tracy, John D. Edwards,
John W. Burbidge, J. B. Aycock,
Robert Fishburne, A. S. Barnes,
Lucien Bellinger, John M. Klein,
C. B. Farmer, B. Stokes,
Rev. E. E. Bellinger, A. Wichman,
Rev. J. B. Dunwoody, A. C. Shaffer,
W. S. Bissell.

Committee on Finance—John W. Burbidge, chairman, A. C. Shaffer, J. B. Aycock, Rev. E. E. Bellinger, B. Stokes.

Accepted and placed on file.

To the Honorable the Common Council:
GENTLEMEN—I herewith respectfully transmit the pay-roll of the Board of Review for the session of that board from April 7 to May 8, 1879. I do not feel authorized to approve of this claim for the reason that there is a charge therein for the services of a clerk at \$5 per day.

The action of the Common Council January 7th last, fixing the compensation of city officers and employees for the year, expressly states that

the compensation shall be for "extra clerks (when employed), per day, \$3."

While I may not object to the paying of \$5 per day for this service, I am of the opinion that to do so will require further action by your honorable body.

Respectfully submitted.

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Claims and Accounts, City Counselor and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit, without my approval, the accompanying claims of Dr. Eliza Leach, services as health officer for the month of April, \$16 68, and of Dr. Duncan McLeod, for the same services for the months of March and April, \$93 33.

I cannot approve either of these claims because of the question which has been raised as to who is the health officer of the city and to whom the compensation of that office belongs.

Dr. Leach was paid for such service for the month of March by resolution of your honorable body, adopted April 18. Neither of the claimants have been paid for the month of April.

The claim of Dr. McLeod covers the month of March, for which month Dr. Leach has been paid.

FROM THE DIRECTOR OF THE POOR.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution of Ald. Russell requesting me to inform your honorable body how many assistants, if any other than Mr. Dwyer, have been employed in my office since the second Tuesday in January, A. D. 1878, etc., I would respectfully say in answer that Mr. John F. Martin was employed in my office from the above-named date until the 19th of March of the same year, when the Common Council confirmed my regular nominee, Mr. Dwyer, for that place. During the hard season of the past winter I submitted a communication to your honorable body requesting the power to employ an extra clerk at a nominal sum, which was refused me. When I made that appeal I had nothing but the interest of the people at large and the people whose care is confined to me at heart. I have long felt that large crowds filling the office from morn till night was not only demoralizing morally but physically, and coming, as a great many of them did, from the bed-sides of a victim of some contagious disease. It had a strong tendency in my opinion to augment and spread disease from one quarter of our city to the other. I therefore felt it my duty to keep as few people at one time in my office as possible. And on the refusal of your honorable body to grant what I asked for I employed a young man to aid in writing out orders, and paid him out of my private income. I might say here that the county allowed me to employ Mr. A. Orth to aid in taking insane and sick persons to the county asylum and the different hospitals, for which he was allowed certain sums by persons having authority to do so. Occasionally I allowed him a small allowance for work of a similar nature done for the city, perhaps by no warrant of law, but plenty of precedent in the conduct of my predecessors in office.

Very respectfully yours,

WALTER V. KIES,

Director of Poor.

SPECIAL COMMITTEE.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the communication from the Scientific Association asking the consent of your honorable body to the leasing to said association by the Board of Education of a portion of Central Park, so-called, beg leave to submit that we have given the matter careful consideration and port as follows.

The only objections laid before us were that it might be questionable if the use of the ground desired could be lawfully granted, and that the erection of the building proposed, together with its maintenance for 40 years would interfere with the proper extension of the Library.

The language of section 7 of the act of 1897 is as follows: "The internal space of ground in the middle of every section shall be reserved for public wells and pumps for markets, for public schools, for houses for the reception of engines or other articles for the extinction of fires and the preservation of the property of the inhabitants, for houses for the meeting of religious, moral, literary or political societies or other useful associations, and for such purposes of utility or ornament as the City Council of Detroit may at any time by law provide." If the lease is executed and the building proposed is constructed it is intended that the Historical Society will also thereby be satisfactorily accommodated. As these associations are represented by many of our best citizens, who certainly have no interest against the welfare of the city at large; and as the public will have the benefit, almost without hindrance of the valuable collections and privileges which belong and pertain to them, we are of the opinion that the use of the grounds mentioned is within the meaning and purposes of the law. In any event we are advised that the law questions in the matter will soon be presented and settled by an amicable suit for that purpose instituted.

Your committee believe that the general appearance of the grounds and of the buildings would be better if the proposed building should be brought up to and join the library. We believe that the present library building has capacity sufficient for 40 years' accommodation of proper reading material. By location of the association building according to our suggestion it would become at once and with slight expense available for library extension upon the termination of the lease.

Under all the circumstances we recommend approval of the lease, believing that the citizens of Detroit generally desire and would be benefited by the arrangement.

Respectfully,

F. G. RUSSELL,
M. HALLER,
A. H. RAYNOR,
Committee.
F. A. BAKER,
City Counselor.

I would cheerfully join in this recommendation if satisfied that there was not a precedent created thereby which would be a source of annoyance in

the future when we are called upon to discriminate between this and other private uses.

WILLIAM C. MAYBURY,
City Attorney.

Accepted, laid on the table for one session, and ordered printed in the proceedings.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—On the 14th inst. an order under the statute was granted by the Circuit Court for the county of Wayne, in chancery, vacating the Russell street cemetery as a place of burial, and a copy of the order has been recorded in the office of the Register of Deeds. The Common Council is now authorized to cause all the dead bodies and remains buried in said cemetery to be removed to Woodmere, but the removal must be made in a careful, prudent and respectful manner, and all permanent fences around graves and lots, and all tombstones and monuments must be again erected over the proper remains, and with as little injury as the case will admit. (1 C. L. 1871, sec. 3493). The statute also provides that such removal shall not be made during the months of June, July, August and September. The expense of the removal must be paid by the city, and each lot owner is entitled to have the price he paid for his lot returned to him on his executing a proper conveyance to the city.

In letting a contract for the removal of the remains from the cemetery great care should be taken to see that all the requirements of the statute to which I have called your attention are fully complied with and observed. The best

practicable means should be adopted to preserve the identity of the different graves and remains.

Accepted and adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Russell, Ryan, Warri-

LICENSES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Licenses, to whom was referred the petition of certain persons engaged in the business of pawnbroking, desiring that the license fee might be reduced to \$100, would respectfully report: That, in our opinion, the present fee is not too large, and barely compensates the city for the expense in-
curred in enforcing the ordinance regulating the business of pawnbroking. The business, unless it is carefully conducted, becomes a source of en-
couragement to theft and the necessity of strict police surveillance. If the question of increasing the fees was raised by the petition, we would have no hesitation in reporting favorably to the increase thereof; but we recommend that the prayer for a decrease be denied.

Respectfully submitted,

FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval the proceedings of your honorable body of the 16th, so far as they relate to the removal of the tree in front of house 350 Lafayette avenue. Said tree is a large maple tree, occupies about 18 inches on the outside of the walk, does not stand in the

center of sidewalk, a stone walk is already laid around it, and so long as it is not an absolute obstruction, in my judgment it should not be removed.

Very respectfully yours,

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:
GENTLEMEN—The Board of Public Works, to whom was referred the petition of Herman Genrow and others, remonstrating against constructing a lateral sewer in the alley between St. Antoine, Hastings, Alfred and Brewster streets, and of being assessed for its construction, for the reason that their premises are already sufficiently drained, respectfully report:

On examining the premises, the Board are satisfied that, as a sanitary measure, this sewer is much needed, and should be constructed. As regards the assessment for the cost of said sewer, the Board hold that, because one has been permitted to connect a private sewer with a public sewer, it is not a good and sufficient reason for exemption; and, therefore, recommend that the prayer of the petitioners be denied.

Respectfully submitted,

W. H. LANGLEY,
President pro tem.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:
GENTLEMEN—In accordance with a resolution adopted by your honorable body on the 9th inst., the Board of Public Works respectfully recommend that Orleans street, from the south curb line of Jefferson avenue to the north curb line of Atwater street, be paved 30 feet wide with wood and stone or cobble stone pavement.

To the Honorable the Common Council:

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of W. K. Coyle and a majority of property owners on Woodward avenue for repaving said avenue with wood and stone pavement, respectfully report as follows:

Woodward avenue as it now is is the most important thoroughfare in the city, and to change the material with which it is desired to be repaved will not only be doing injustice to the petitioners, but will result in great injury to those doing business thereon. The experience of the Board is that people will seek a smooth roadway in preference to a rough one, and this avenue if paved with stone, will, except with cumbrous vehicles, be avoided. Taking this view of the matter, the Board in deference to the wishes of those most interested, respectfully recommend that the prayer of the petitioners be granted and the avenue ordered paved with wood and stone.

Respectfully submitted,

W. H. LANGLEY.

President pro tem.

Accepted and laid on the table.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your committee to whom, with the Board of Public Works, was referred the petition of citizens protesting against the obstruction maintained by the Ferry Association at the foot of Woodward avenue, and also against the tardy and inefficient manner in which ferry boats are operated by said association, would respectfully report the following facts:

First—The erection of a toll-house on the dock is unwarranted by the terms of the lease, and is in direct violation of the charter.

Second—The framework and gate, as constructed, are permanent structures, and not such as were contemplated by the lease. This structure not only obstructs travel, but also the view of the river; added to which is the fact that it is not placed on the line of the slip, as required.

Third—The approach to the ferry is rendered inconvenient and dangerous, by the fact that but one way is provided for pedestrians and vehicles.

Fourth—The sidewalk on the easterly side of the avenue is effectually obstructed, to the manifest inconvenience of the public and of those citizens who have business offices and places on the adjoining docks.

Fifth—No apron has been built over the slip at the foot of the avenue, as the lease contemplated, and as the reasonable convenience of the public travel and traffic on said premises demand. Cattle, horses and other animals are led or driven through the gateway on the easterly side on and off the boats, instead of having a suitable way provided by means of the apron referred to, extending to the ferries in a line with the center of the street.

Sixth—The boats do not run as the lease requires, one in every six minutes, and scarcely average one in every twenty minutes, to the great annoyance and loss of those whose business necessitates a transit to and from the neighboring province. Such delays are not caused by unavoidable accidents or ice in the river. In view of these facts we submit for the consideration of your honorable body the following preamble and resolution.

Respectfully submitted,

JOHN C. JACOB.

THOMAS JACKSON,

THOMAS MANNING.

The following is the resolution:

Whereas, By the terms of a certain lease entered into by the city of Detroit with the Ferry Association so called, whereby the said association, in consideration of certain privileges to it granted in the matter of using and occupying the dock at the foot of Woodward avenue, and the practice of operating a ferry therefrom, did covenant and agree to and into said city through its Controller, duly authorized in the premises, amongst other things, that it would cause an open gate to be erected across said avenue on a line with the slip; also that it would cause its ferries to be so operated that one should leave the dock at the foot of said avenue every six minutes during the hours intervening between 7 A. M. and 7 P. M. of each day; and

Whereas, Said association has caused to be erected, in lieu of said open gate, a frame structure, not in the line of the slip, and obstructing both sight and travel; also a toll-house, without authority and in violation of the charter—and has so operated its ferries that but one departs from the dock every 30 minutes between the hours last mentioned; now, therefore,

Resolved, That by virtue of the power reserved to the Common Council of said city under the terms and conditions of the lease aforesaid in case of a failure to keep the covenants thereof on the part of said association, the Common Council elects to and does hereby declare said lease forfeited, and the franchises and privileges thereby conferred at an end.

Laid on the table for oneweek.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of Mr. James F.

O Neil, asking for permission to use the end of the old brick meat market to have a sign painted thereon, would report in favor of granting the prayer of the petitioner, provided the painting is done in an artistic manner.

Respectfully,

HENRY GROSS.
GEO. W. HERRICK.

Accepted and adopted.

LIQUOR BONDS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Liquor Bonds, to whom was referred the bond of the several parties named, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of Johann Mühleck, Andrew Koch, Christian Guth, August Goetterman, Franz Baumgartner, August T. Marschner, Conrad Miller, Adam Rossbach, Henry S. Diegel, Phillip Roos, D. Lagorio, Conrad Fey, Diederich and Brelsacher, Fred F. Bicker, Engel Maltz, Chas. Fregin, Peter Henkel, Chris. MICHAEL DALY.

Accepted and adopted as follows:

Yeas—Ald. Alter, Connor, Finney, Foster, Gies, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Warriner and the President—21.

Nays—None.

To the Honorable the Common Council:

GENTLEMEN—Your special committee appointed to examine into said report upon the condition of the paving on Michigan avenue from Thirteenth and a-half street to the city limits, have examined the same and report that the paving at some places is in fair condition, while at some places (especially where the water and gas pipes were laid since the street was paved) it is badly cut up, but all of which can be repaired without a great expense to the city. Therefore, we recommend that the Board of Public Works be directed to have the said paving repaired forthwith.

M. HALLER.
PETER J. RALPH.
HENRY GROSS.

Objected to and laid over.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom, with the City Counselor and City Attorney, was referred the communication of the Board of Public Works relative to the removal of obstructions in Chene street, northerly of Fremont, would respectfully report as follows:

From the records in the office of the Register of Deeds it appears that Chene street has been dedicated to the public as a highway northerly of Fremont street and extending to the rear of the Chene and Campan farm lines. It appears further that for many years the public has been permitted to use the space dedicated as a street for general purposes of travel.

Under instruction of the Board of Public Works the City Engineer surveyed the grounds and indicated the lines of the street by stakes placed thereon. From this survey it appeared that

property owners on the northerly side had encroached with their fences, varying from ten to twenty-five feet, on the line of the street, which fences constituted the obstructions referred to in the communication of the board. These fences are mostly built of rails and are of little value. The parties offending have been repeatedly notified to remove their fences, but have thus far failed to comply with the terms of such notice. Under all the circumstances we would recommend the adoption of the following resolution.

Respectfully submitted,
SIMON C. KARRER,
PAUL GIES,
F. A. BAKER.

City Counselor,

WM. C. MAYBURY.

City Attorney.

Resolved, That the Board of Public Works be and is hereby directed to take down all fences encroaching on Chene street, northerly of Fremont street, and to place the same on the line as surveyed by the City Engineer.

Accepted and adopted as follows:

Yeas—Ald. Alter, Connor, Finney, Foster, Gies, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Mitchell, Ralph, Raynor, Rousseau, Russell, Warriner, and the President—21.

Nays—None.

COMMUNICATIONS FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body without my approval your proceedings of the 20th inst., so far as they relate to the granting of the petition of Mr. Jas. F. O'Neil to use the end of the market building for sign or advertising purposes, and most respectfully refer you to chapter 36, section 12, page 222, of the revised ordinances of our city, which is in direct opposition to the prayer of the petitioner, and most probably was overlooked by your committee on markets.

Very respectfully,

GEORGE C. LANGDON.

Accepted.

Ald. Jacob moved to reconsider the vote by which the resolution was adopted.

Carried.

The resolution was then laid on the table.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—At your request I addressed Gen. W. T. Sherman on the 21st, tendering to him the hospitalities of our city. I have the pleasure of inclosing his reply.

The (general) pays our city the compliment that our citizens are personally so hospitable that he will probably desire no public demonstration.

Very respectfully yours,

GEORGE C. LANGDON.

The following is the communication:

HEADQUARTERS ARMY OF THE UNITED STATES,
WASHINGTON, D. C., May 24, 1879.

Hon. Geo. C. Langdon, Mayor, Detroit:

DEAR SIR—I beg to thank you for the kind proffer of hospitality on the occasion of my proposed attendance at the commencement exercises of the Military Academy at Orchard Lake, June 19, prox. I wish in that connection to inspect the post of Fort Wayne, now being occupied by the Tenth United States Infantry from Texas, and cannot therefore say how long I will be in your renowned city, probably not to exceed two days. I will probably stop at the Russell House, and be accompanied by an aid-de-camp and one of my daughters just out of school. From Detroit I think I shall go to Mackinac and Sault Ste. Marie, returning east by Goderich and Toronto. Should I need your proffered hospitality in any form I will with great pleasure call for it, but in Detroit, as I know from experience, every gentleman needs nothing more than is within the reach of all.

With great respect, yours truly,

W. T. SHERMAN.

Accepted.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, who were directed by your honorable body on the 80th ultimo to put up such fence around the hospital grounds in Grosse Point as is properly chargeable to the city, respectfully report that on visiting the grounds the Board found that the fences now on said premises are in a dilapidated condition and are insecure as regards protection against depredations by cattle, etc. For the protection of crops it is the opinion of the Board that the city should not only construct its portion of the division fence, but also the fence fronting the roadway. To do this the city will have to build 450 rods of fence in addition to the necessary gates, and it is estimated that the whole cost will be about \$450.

The Board respectfully recommend that it be authorized to advertise five days for proposals for furnishing the material and constructing the fence according to the plan and specifications on file in this office.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Ald. Jackson:

Resolved, That the Board of Public Works be directed to advertise five days for proposals for furnishing the material and constructing according to the plans and specifications on file in this office a fence around the hospital grounds in the township of Grosse Point.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, War-riner and the President—23.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of R. Hopson and others, for replacing the horse drinking fountain (recently destroyed by a runaway team) on the corner of Miami and Gratiot avenues; also the petition of Angus C. Ternus and others for a horse drinking fountain on Grand River avenue, respectfully recommend that the prayer of the former petition be granted; and as regards the latter petition, the board recommend that a fountain be placed at the intersection of Henry and Third streets, on the north side of Grand River avenue. To furnish these fountains and put them in complete working order, it is estimated that it will cost about \$120.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Alb. Jacob:

Resolved, That the Board of Public Works be directed to cause horse-drinking fountains to be erected on the corner of Miami and Gratiot avenues, in place of the one recently destroyed by a runaway team, and on the north side of Grand River avenue at the intersection of Henry and Third streets.

Adopted as follows:

Yeas—Ald. Alter, Connor, Daly, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph,

Raynor, Rousseau, Russell, Ryan, Warriner and the President—22.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of John Groshack, remonstrating against constructing a lateral sewer in the alley bounded by Campau, E. S. Campau and Chene streets and Campau avenue, for the reason that his premises are drained in Bloody Run, recommend that the prayer of the petitioner be denied, the reason assigned therefor not being considered sufficient.

Respectfully submitted.

WM. PURCELL,
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition John McKeown and others, for a lateral sewer in the alley between Elm and Butternut streets, from the alley west of Trumbull avenue to the alley east of National avenue, respectfully recommend that the prayer of the petitioner be granted.

Respectfully submitted.

WM. PURCELL,
President.

Accepted and Ald. Alter offered the following:

Resolved, By the Common Council of the city of Detroit, that it is deemed necessary to construct brick lateral sewers in the following alleys and streets, to wit: In the alley between Elm and Butternut streets from the alley west of Trumbull avenue to the alley east of National avenue.

Resolved, That for the purposes of assessment for defraying and paying the cost of said brick lateral sewers respectively, the lots and parcels of real estate embraced within the limits of each alley and abutting thereon, through which said lateral sewers are ordered to be constructed, shall be, and the same are hereby constituted and declared to be one local assessment district for each lateral sewer so constructed.

Resolved, That the City Engineer be and he is hereby ordered and directed to make an assessment on the lots and parcels of real estate within the limits of each lateral sewer respectively, according to the benefit said lots and parcels of real estate shall receive from said improvements.

Resolved, That the Board of Public Works shall and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Adopted as follows:

Yeas—Ald. Alter, Chene, Connor, Daly, Foster, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—23.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Francis Reilly and others, for a lateral sewer in Wayne street from the south line of Larned street to the alley between Larned and Congress streets, in order that the petitioners' lot may be properly drained, and thereby abate a nuisance, respectfully report:

The petitioner having divided and disposed of the south half of his lot which abuts on the alley in which there is a lateral sewer, is about the only property owner in that locality that would be benefited by this sewer. By obtaining permission from the owners of adjoining lots, he might construct a drain from his premises to the sewer in the alley, and thereby not only abate the nuisance complained of, but also relieve his neighbors from bearing the cost of an improvement by which he alone is benefited.

The board recommend that the prayer of the petitioner be denied.

Respectfully submitted.

WM. PURCELL,
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Hopeon and others, for the paving of the alley extending from Gratiot avenue to Grand River street, between Miami avenue, Center and Randolph streets, with cobble stone pavement, recommend that the prayer of the petitioner be granted.

Respectfully submitted.

WM. PURCELL,
President.

Accepted, and by unanimous consent Ald. Jacob offered the following:

Resolved, by the Common Council of the city of Detroit, that the alley extending from Gratiot avenue to Grand River street, between Miami avenue, Center and Randolph streets, be and the same is hereby ordered to be graded and to be paved with cobble stone pavement 30 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the city charter authorizing the Common Council to appropriate \$300,000 annually, without a petition of a majority of property owners.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading and paving said alley from the west curb line of Randolph street, to the south line of Grand River street, the lots and parcels of real estate embraced within said limits and abutting the portion of said alley ordered to be improved by said grading and paving, shall be, and the same is hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and is hereby ordered and directed to estimate and determine:

1. The quality of all grading, paving and other work on said alley within the limits ordered to be graded and paved, excepting those portions of the intersection of cross-streets and alleys.

2. The quantity of all grading and paving of each portion of said alley.

To the Honorable the Common Council:

GENTLEMEN—In accordance with a resolution adopted by your honorable body instructing the Board of Public Works not to advertise for or contract to pave any streets until specifications therefor have been prepared, respectfully report that they have caused the specifications for stone pavement to be so amended as to remedy existing evils, and herewith transmit the same for approval.

Respectfully submitted.

The following are the specifications for stone pavement:

Grading—First. The street is to be brought to its established grade under the direction of the Board of Public Works.

Where cutting occurs the street must be excavated to such a depth below the true grade as the Board may deem necessary for the purpose of receiving ballast for the roadway.

If the contractor shall excavate deeper than the grade specified by the City Engineer, then the back filling shall be of sand and gravel at the

expense of the contractor. In case of filling, the material shall be of sand, clay, earth or gravel, free from any animal or vegetable matter or any perishable material.

It shall be compactly put in, and well rammed and rolled with a roller weighing not less than 2,400 lbs, and be so firm and compact as to be secure from settling.

The filling or excavation, when brought to the proper depth below the true grade, shall be smoothly graded, shaped, and rolled with a roller weighing not less than 2,400 pounds, to conform to the crown of the pavement, so that the ballasting, gravel and sand will be of uniform thickness. The surplus earth must be disposed of by the contractor.

Ballasting—A bed of ballasting of bank sand and gravel not less than eight (8) inches in depth, six inches of which shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled, at least one block at a time, before being paved, with a roller weighing at least 2,400 pounds, and then the ballasting to be placed over the road bed, making a depth of six inches, preparatory to paving the street.

Wherever sand and gravel is specified it must be of the best quality, and be accepted by the board.

Quarry Paving Stones—The paving stones must not be more than four (4) inches nor less than two and a half (2½) inches in thickness and not less than six (6) or more than ten (10) inches in length and not more than eight (8) nor less than six (6) inches deep and must show a fair, smooth face on the top. All stones shall be dressed in the best and smoothest manner possible with the common breaking hammer, the top especially to have a smooth hammer cut or axed surface, the sides of stone to be split and dressed so as to give a close joint of not more than one-half (½), the end of stone to be dressed to a depth of not less than three (3) inches and the joint to be not more than one-quarter (¼) of an inch for at least one-half the depth of the stone.

The carriage way is to be paved with quarry stone equal in quality with specimens to be seen at the office of the Board of Public Works. Said stone shall be of uniform hardness, and of the best quality of the several kinds as the Board shall choose or direct, and all bids shall be for each kind separately. All the stone to be set in a bed of bank sand and gravel, sufficient in depth to measure sixteen (16) inches from top of stone when firmly pounded and set to top of excavation. No stone shall be received whose bed at full depth is less than seven-eighths (⅞) the area of the top. The paving quarry stone shall be selected, and must be laid in straight courses perpendicular, of even thickness at right angles across the streets, except at the intersections of streets, where the courses shall be diagonal, each stone breaking joints with the stone in adjoining courses not less than three (3) inches. The cobble stone shall not be more than eight (8) inches nor less than four (4) inches in diameter, and shall be laid with their greatest surface or face upward, and so as to break joints with the adjoining stone. The largest stones shall be laid next to the curb and the smallest in the center of the street, and shall measure fourteen (14) inches sand and stone when pounded and set. The pavement when laid shall be thoroughly rammed and pounded with a pounder, not more than 10 inches in diameter at least three times. The first parallel with the street and twice across the street, in a thorough manner, with a maul weighing not less than 75 to 85 pounds, and the unevenness of surface of the paving shall not be over one inch before it is pounded, and the whole surface of pavement, when finished, shall conform to the true grade and cross section, as directed by the board, and in no case to be altered unless by the written consent of said board.

All streets paved with stone shall not be covered with bank sand or gravel until the same is inspected by the board, and when inspected and accepted shall be covered with three-fourths (¾) of an inch of bank sand and gravel.

Curb Stone—Curb stone shall be of the best Medina, Berea or Lake Superior sandstone—as the Board of Public Works shall direct, and bids shall be received for each separately—not less than thirty (30) inches in length of a depth of eighteen (18) inches, and four (4) inches in thickness, and show a fair face above the paving. The stone must be set in a bed of sand and gravel, and incline one-half (½) inch from the street, and be top dressed to the level of the sidewalk. The joints must be dressed to the depth of fourteen (14) inches, and the bed end back filling to be of not less than four (4) inches of sand and gravel and firmly pounded. At all corners or intersections of streets the curb shall be set with a circle of two (2) feet radius, or otherwise, as the board may direct. The circle stone to be eighteen (18) inch. s in depth, with end joints dressed to the depth of fourteen (14) inches.

Crosswalks—Crosswalks are to be constructed across said street, and across all streets intersecting said street, of such width as the Board may direct. Said crosswalks to be of Medina stone, not less than six (6) inches in thickness, nor less than eighteen (18) inches in width, nor less than two and one-half (2½) feet in length laid in courses. The edges of said stone to be cut square and at right angles. The sand and gravel in which said crosswalks are laid to be thoroughly rammed before the stones are laid upon it. The center of crosswalk shall be at such height above the grade of the street as the Board may direct.

Culvert Platforms—“Wood” shall be of sound two-inch dressed pine plank, free from knots and sap, made of such width and length as the board may direct. On the under side of said platform, there shall be two strips of oak, four inches wide, and one inch thick, securely nailed and clinched by wrought nails, driven from the upper side next to the curb on which said platform rests. Wing stone two (2) feet in length and eighteen (18) inches in depth, dressed to the proper angle and notched, shall be set at the inner corner of all platforms.

Condition of Side and Crosswalks—All side and crosswalks to be left in as good condition as at the commencement of the work, and the contractor is to supply all deficiencies of material as may be necessary.

Ald. Jacob moved to suspend the rules in order to take from the table the specifications submitted by the Board of Public Works, and in the same connection offered the following:

SPECIFICATIONS FOR STONE PAVEMENT.

Grading.

First—The street is to be brought to its established grade under the direction of the Board of Public Works.

Where cutting occurs the street must be excavated to such a depth below the true grade as the board may deem necessary for the purpose of receiving ballast for the roadway.

If the contractor shall excavate deeper than the grade specified by the City Engineer, then the back filling shall be of sand and gravel at the expense of the contractor.

It shall be compactly put in, and well rammed and rolled with a roller weighing not less than 2,400 pounds, and be so firm and compact as to be secure from settling.

The filling or excavation, when brought to the proper depth below the true grade, shall be smoothly graded, shaped, and rolled with a roller weighing not less than 2,400 pounds, to conform to the crown of the pavement, so that the ballasting, gravel and sand will be of uniform thickness. The surplus earth must be disposed of by the contractor.

Ballasting.

A bed of ballasting of bank sand and gravel not less than eight (8) inches in depth, six inches of which shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled, at least one block at a time, before being paved, with a roller weighing at least 2,400 pounds, and then the balance to be placed over the road bed, making a depth of eight inches preparatory to paving the street.

Wherever sand and gravel is specified it must be of the best quality, and subject to the acceptance of the Board of Public Works.

Quarry Stone Pavement.

The quarry paving stones must not be more than four (4) inches nor less than two and a half (2½) inches in thickness, and not less than six (6) or more than ten (10) inches in length, and not more than eight (8) nor less than six (6) inches deep, and must show a fair, smooth face on the

top. All quarry stones shall be dressed in the best and smoothest manner possible with the common breaking hammer, the top especially to have a smooth hammer cut, or axed surface, the sides of the stone to be split and dressed so as to give a close joint of not more than one-half ($\frac{1}{2}$) inch, the ends of stones to be dressed to a depth of not less than three (3) inches, and the joint to be not more than one-quarter ($\frac{1}{4}$) of an inch for at least one-half the depth of the stone.

The carriage-way is to be paved with quarry stone equal in quality with specimens to be seen at the office of the Board of Public Works. Said stone shall be of uniform hardness, and of the best quality of the several kinds as the board shall choose or direct, and all bids shall be for each kind separately. All the stone to be set in a bed of bank sand and gravel, sufficient in depth to measure sixteen (16) inches from top of stone when firmly pounded and set to top of excavation. No stone shall be received whose bed at full depth is less than seven-eighths ($\frac{7}{8}$) the area of the top. The paving quarry stone shall be selected, and must be laid in straight courses perpendicularly of even thickness, at right angles across the streets, except at the intersections of streets, where the courses shall be diagonal, each stone breaking joints with the stone in adjoining courses not less than three (3) inches.

The largest stones shall be laid next to the curb and the smallest in the center of the street, and shall measure fourteen (14) inches sand and stone when pounded and set.

All sand and gravel shall be scraped and swept off the surface before being pounded. All pavement when laid shall be thoroughly rammed and pounded with a pounder, not more than 10 inches in diameter, at least three times, the first parallel with the street and twice across the street, in a thorough manner, with a maul weighing not less than 75 to 85 pounds, and the unevenness of surface of the paving shall not be over one inch before it is pounded, and the whole surface of pavement when finished shall conform to the true grade and cross section, as directed by the board, and in no case to be altered unless by the written consent of said board.

All streets paved with stone shall not be covered with sand or gravel until the same is inspected by the board, and when inspected and accepted shall be covered with three-fourths ($\frac{3}{4}$) of an inch of bank sand and gravel.

Ballasting for Cobble Stone Pavement.

A bed of ballasting of bank sand and gravel not less than six (6) inches in depth, four inches of which shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled, at least one block at a time, before being paved, with a roller weighing at least 2,400 pounds, and then the balance to be placed over the road bed, making a depth of six inches, preparatory to paving the street.

FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I most respectfully ask the assistance of your honorable body in abating the following nuisances which exist in our city, and on account of which numerous complaints are made to me:

First—The practice of distributing handbills to pedestrians on our streets, advertising different branches of business, which are by such means, in 99 cases out of every 100, thrown down almost as soon as thrust into their hands or pockets, thereby becoming a nuisance, littering up our streets, scaring horses, and adding additional expense to keep our streets in a cleanly condition.

Second—The custom of throwing the same class of bills into citizens' yards, hanging them on to door-knobs, or ringing of door-bells and thrusting said bills into the doorways of private citizens, and throwing them into stores, public hallways and other public places.

Third—The practice of tearing handbills from the walls of buildings and bill-boards and leaving them in the streets, one instance of which you will find to-day on the corner of Bates and Jefferson avenue, south side, of a large bill that has lain on the curb of Bates street for two weeks.

Fourth—The sweeping of loose papers into the streets from stores, offices and hallways.

Fifth—The high box (eight by ten) advertising wagons which perambulate our streets from morning to night, which, in some instances, have caused runaways and loss of property, and which, when not in use, are allowed to stand in front of their proprietors' places of business. An instance of this particular nuisance was evident to all our citizens on Decoration day, when one of these wagons joined in the procession of citizens and military who were endeavoring to observe the day as the general government have suggested and as their respect for the memory of the dead Union soldiers dictated.

Sixth—The filthy condition of numerous prominent places of business (front and rear) and the alleys adjoining, and whose proprietors should take pleasure in assisting us as their city officers in keeping our city in a healthy and cleanly condition. In connection with which I call your attention to two old mats which have lain on Jefferson avenue, southeast corner of Woodward avenue, since Friday last, and they lay there to-day.

The hot summer months are upon us, and it behooves not only the city officers who are expected to look after such matters but every citizen who has the health of his immediate family or the health of the city at large in view to assist each other as much as in their power to do away with any obstructions to cleanliness and health.

I most respectfully suggest whether it would not be wise to have the business portion of our city (particularly) districted, that a wagon at a given hour each morning may go around and empty from a box provided for that purpose by the citizen all sweepings and filth that may have accumulated during the previous day, making it mandatory upon the citizen to furnish the proper receptacle for such rubbish.

Please take such action in regard to the foregoing as to you seems for the good of our city and oblige.

Very respectfully yours,

GEO. C. LANGDON,

Mayor.

Accepted and referred to the Committee on Streets and City Attorney.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—In the case of Robt. C. Phillips and others against the city, which has been pending in the United States Circuit Court in equity since April, 1876, the court, in an able and exhaustive opinion by Judge Brown, has decided that the letters patent issued to Mr. Phillips for a round block pavement is null and void for want of novelty or invention. The case involved the question whether the city should pay the complainants a large amount of royalty for laying this pavement heretofore and for the right to lay it in the future. Whatever credit is due to counsel for bringing about a result so valuable to the city belongs entirely to D. C. Holbrook of this city and to Judge Bond of Chicago, who were employed as counsel in the case. The complainants will probably appeal to the Supreme Court of the United States.

F. A. BAKER, City Counselor.

Accepted and placed on file.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In accordance with your instructions the Board of Public Works have executed and herewith transmit for your approval and confirmation the following contracts:

With Eugene Robinson, for furnishing cedar paving blocks.

With Ostrowski & Hildebrandt, for constructing lateral sewer in the alley between Theo. Campau and E. L. Campau avenues, and Chene street

and Campau avenue; and in the alley running north and south between St. Antoine, Hastings, Ontario and Superior streets; and
With Whittaker & Schneider, for constructing a lateral sewer in the alley between Twelfth, Thirteenth, Linden and Mulberry streets.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and leave being granted, the following resolution was offered:

By Ald. Ewers:

Resolved, That the contracts executed by the Board of Public Works with Eugene Robinson for furnishing cedar paving blocks; with Ostrowski & Hildebrandt for constructing lateral sewers in the alley between Theo. Campau, E. L. Campau and Chene streets and Campau avenue, and in the alley between St. Antoine, Hastings, Ontario and Superior streets; and with Whittaker & Schneider for constructing a lateral sewer in the alley between Twelfth, Thirteenth, Linden and Mulberry streets, be, and the same are hereby approved and confirmed.

Adopted as follows:

Yeas—Ald. Chene, Connor, Daify, Finney, Foster, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—81.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the following resolution:

By Ald. Russell:

Resolved, That the Board of Public Works be and is hereby instructed to notify the owners of the property on the west side of Third avenue, between Grand River avenue and Fulton street, on both sides of Joy street, between Third avenue and Fourth street, and of the premises known as Nos. 540 and 566 on the east side of Third avenue, to construct new sidewalks in front of said property and premises forthwith, and in case of default thereof, that the City Engineer report the proper assessment rolls.

Referred to the Board of Public Works, respectfully report that so much of said resolution as respects the construction of a sidewalk on the west side of Third avenue, between Grand River avenue and Fulton street, is in the opinion of the Board causing an improvement which public necessity does not demand. Along the premises mentioned there are no houses, and it seems, while there are good sidewalks on the east side, a hardship to compel the owner to place the same there for ornament, and therefore recommend that that part of the resolution be non-concurred in. As regards the balance of the resolution the Board recommend that it be adopted.

Respectfully submitted,

WM. PURCELL,

President.

Laid on the table for one session.

FROM THE SAME.

To the Honorable the Common Council:

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending May 24, 1879, respectfully report that we have examined the same and believing them to be correct, excepting the reports of the Poundmasters, recommend their approval.

We return without approval the reports of the Poundmasters, because they both show that said officers released animals contrary to the provisions of the ordinance. The present Poundmasters however have only a small extent followed the precedents of their predecessors and their reports are not now disapproved with any purpose of reflecting upon them.

Respectfully submitted,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR,

Accepted and adopted.

Respectfully,

M. HALLER,
W. H. CONNOR,
GABRIEL H. CHENE.

By Ald. Haller:

Resolved, That the Controller be directed to draw his warrant on the contingent fund for \$14 15 in favor of James C. Cobb in full for balance of moneys paid in by him on sidewalk assessment on the south 32 feet, lot 20, Governor and Judges' plan, section 9.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Mary C. Drawery in regard to the sale of lot 22, block 94, Cass farm, for a paving assessment, respectfully report that on examination we find the petitioner paid part 1 and the interest on parts 2, 3, and 4, but by mistake the payment of the interest was not noted on the roll, and the property was sold for the whole of parts 2, 3, and 4 a year before part 2 was due. We therefore recommend that the City Treasurer be directed to cancel the sale and to accept the amounts due, with interest from maturity.

Respectfully submitted,

M. HALLER,

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom, with the Counselor and Attorney, was referred the pay-roll of the members of the Board of Review and the secretary of said board, would respectfully report that the allowance claimed is similar in amount to that paid in former years, so far as the members of the board are concerned. The approval of the Controller was withheld on account of the allowance claimed by the secretary of the board, viz.: five dollars per day. In view of the peculiar character of the work performed by the secretary of the board and the experience required of one filling that position, your committee do not consider the amount claimed unreasonable, and therefore rec-

ommend that the pay-roll be approved as presented.

Respectfully submitted,

SEYMOUR FINNEY,
WM. E. WARRINER,

WM. C. MAYBURY,

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The matter of consenting to a lease by your honorable body of a portion of Center Park to the Detroit Scientific Association having been referred back to your special committee for further consideration, we beg leave to submit the following report and recommendations:

As intimated in our former report, we believe that no proper building could be located upon Center Park without disfiguring the grounds and to some extent interfering with the future growth and extension of the Public Library. We have considered the availability of East Park for the purposes of the association, and in view of the facts that it is proposed to connect with this corporation the Historical Society, and possibly an art association, and that this ground may be required in the future for market or other public purposes, we are satisfied that said park is not desirable or large enough for the association, and that the city should not at present consent to any lease of it.

Your committee had an extended meeting today, which was attended by a full representation from the said association. After much consideration the unanimous conclusion of all parties was that West Park is the most suitable location for the erection of the building proposed. This park is centrally located; the Cass Avenue Street Railway runs along State street directly in front of it, the Michigan Avenue Railway within one block of it, and the Grand River Avenue Railway across its northern apex; it is sufficiently large so that any suitable building can be constructed upon it without materially interfering with the fine shade trees growing upon it; the sides of the triangle being respectively 326, 291 and 182 feet. The fountain can be set forward or back and all the park features practically retained. We believe that associations like these should be encouraged; their purposes and privileges are largely public, and when maintained without expense to general taxpayers, the city cannot suffer by giving them the use of a piece of public ground that under the provisions of law seems to have been intended and dedicated for such purposes. Your committee believe the erection of a proper building and successful maintenance of the association upon the park named would have a good effect upon the surrounding property and considerably increase its value.

In conclusion we recommend that the City Controller be authorized to lease West Park to the Detroit Scientific Association for the period of 50 years, but upon the following express conditions, to-wit:

1. That it shall erect a building which, when completed, shall cost not less than \$10,000.
2. That the plans and construction of said building shall be approved by the Board of Public Works.
3. That no trees shall be removed excepting what may be necessary to furnish room for said building.
4. That said association shall keep the sod, trees and grounds generally in good order, and re-locate the fountain in said park if the space will permit therein.
5. That the building of said association, its museum and privileges generally, shall be open

and free to the public at least one half day and two evenings in each week.

6. That the lease to be executed shall bear the approval of the City Counselor and City Attorney, and not in any part be assignable without the consent of the Common Council.

7. That at the termination of the lease all buildings erected thereunder and upon said ground by said association or its assigns shall belong absolutely to the city of Detroit.

Very respectfully,

F. G. RUSSELL,
A. H. RAYNOR,
M. HALLER,
F. A. BAKER.

City Counselor.
WM. C. MAYBURY,
City Attorney.

Objected to and laid over under the rules.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom, at the last session of the Council, was referred the petition of H. P. Bridge, Controller, George S. Swift, Recorder, Wm. C. Maybury, City Attorney and other city officers, asking that the hours for holding the city offices open to the public be fixed at from 9 o'clock A. M. to 4 o'clock P. M. continuously each week day, respectfully report: We find this petition to be signed by every city officer whose office is located in the City Hall building, and that the views of the petitioners, as set forth in their petition, are of a nature to command the careful consideration of the Council.

The hours universally set aside for business in large cities are such as are suggested in the petition, and the recent action of the federal and municipal courts, state and county offices, banks and many of our large business houses in adopting similar hours, all indicate that Detroit has reached that position of importance and of population which would seem to warrant the adoption of such municipal hours. As is well said by the petitioners, the closing of the doors of the office does not, or is not intended to mean, the immediate termination of the duties of the officers, but is really to afford the occupants of the various offices time to examine the work of the day; to put the same in proper order and to correct any errors which may have been made during the hurry of the business of the day, when such errors, if made, are fresh and easily rectified.

In this connection we call attention to the able report of the Committee on Claims and Accounts and City Controller, made to the Council March 1, 1878, which report was occasioned through their examination of a claim against the city of \$214.25 which became a charge against the city by reason of certain errors made in the office of the Receiver of Taxes in the year 1873. The report referred to read as follows: "Your committee have been thus explicit in their report of these errors in order that they may demonstrate to the Council the absolute necessity for a more strict and careful examination on the part of the city officers in charge of such matters. Your committee have examined but eight assessment-rolls and found nearly as many errors, through which not only contractors, but also the city, in its sinking fund, has suffered considerable loss. We are of the opinion that there is but one way out of the difficulty, and that is to require each department to properly check its receipts and disbursements with each of the other departments at the close of each day. Had this system been in operation these errors could not have occurred; they would have been discovered on the day of their occurrence and been corrected. To check with a colored pencil, at the close of each day, the receipts or the day of all general and special taxes is a laborious task, and requires time. This can only be obtained by closing the various city offices to the public at an earlier hour of the day."

In view of the facts above mentioned, and further, since we believe that by the change suggested the public will be the gainer, since they will have the noon hour for public business—

which under the system just adopted by the banks, courts, etc., will become regular business hours—and the laboring class will also be able to avail themselves of an unoccupied hour each day for the transaction of business pertaining to their interests, and for various other reasons which we have not the space or time to enumerate here, but which will readily occur to your honorable body, we recommend that from and after this date the city offices be opened to the public each week day continuously from 9 A. M. to 4 P. M., and that the city officers be permitted to close their offices at the latter hour in order to enable the occupants of the office to properly examine the work of the day, and that this system of examination and checking be considered a part of the day's work. And we herewith present the proper resolution to accomplish this end.

A. H. RAYNOR,
DANIEL GUINEY,
CHAS. M. ROUSSEAU,
THOMAS JACKSON,
W. H. CONNOR.

By Ald. Raynor:

Resolved, That from and after this date the city offices be held open to the public for the transaction of business each weekday continuously from 9 o'clock A. M. to 4 o'clock P. M., and that the various city officers be authorized to close their office doors at 4 o'clock P. M., to enable them to properly and without interruption examine and check over the work of the day; and this system of examination and checking be hereafter considered part of each day's work.

Ald. Russell moved to amend by making the hours from 8.30 A. M. to 4.30 P. M.

Lost.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN: In reply to a resolution of Ald. Connor, adopted at the last session, instructing the Controller to report to the Council relative to the contract between the city and W. A. Hendrie, of Chicago, Ill., for a clock to be placed in the tower of the City Hall building, also the amount of money paid him and balance if any due him, I have the honor to submit the following:

Mr. W. A. Hendrie, of Chicago, Ill., having been found to have submitted the lowest proposal, on the 1st day of November, 1870, the city, by William Purcell, Controller, entered into a contract with said Hendrie for furnishing and placing in the tower of the City Hall a suitable clock, to be constructed according to certain specifications, which specifications were made a part of the contract, said clock was to be completed and in position and running order by the 1st day of April, 1871, for which clock the city agreed to pay the contractor the full sum of \$2,850, as follows, to wit: the sum of \$2,492 50 upon the completion and acceptance of the clock, and the balance, the sum of \$427 50, in six months thereafter.

This contract was extended until July 1, 1871, and on the 25th of July a notification of the completion of the work was received from the contractor. On the 18th day of August, 1871, the Common Council, by resolution, directed the Controller to pay Mr. Hendrie, as the first payment under the contract, the sum of \$2,500, which payment was made on the 25th of August by warrant No. 1198, leaving a balance of \$350, which, under the contract, was to be held by the city for the period of six months.

On the 18th of October following His Honor Mayor Wheaton transmitted to the Council a letter received from Mr. Hendrie, stating that he had lost everything by the great fire in Chicago and was in destitute circumstances, and requesting the balance due him for the tower clock be sent him at once. Accordingly a resolution was adopted directing the immediate payment of \$350 87, amount due Mr. Hendrie as the balance on his contract and some extra charges. In accordance with this resolution, on the 28th of Octo-

ber payment was made by warrant 1896 as follows to wit:

For balance on contract for clock.....	\$350 00
For C. C. Moody, bill for floor.....	75 24
For G. Phillips, bill of lumber for floor.....	106 68

Total.....\$529 87

For which Mr. Hendrie gave his receipt in full. It would seem from the above statement of the proceedings of the Common Council that there can be no balance due Mr. Hendrie for the clock, yet from the resolution adopted it would seem that a claim of \$132 11 was made "for extras," which claim was referred to the Controller. After a careful examination of the records I have failed to find any further report from the Controller—then Mr. Garfield—on the subject.

Respectfully submitted,

H. P. BRIDGE,
Controller

Accepted and placed on file.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—I respectfully call your attention to section 12, page 14, of the new charter amendments in regard to the rate of interest to be charged on property sold for non-payment of taxes. FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In consequence of laying an additional track on Woodward avenue by the Detroit City Railway Company the roadway has been somewhat contracted and barely affords sufficient space between the track and curb for a carriage to pass without being subjected to accident. Along the avenue several receiving basins, extending from two and a half to three feet in the roadway, are located, and form a formidable obstruction, and in passing in close proximity thereto when a car is passing it would be difficult to drive a spirited horse along the narrow roadway without coming in contact with the receiving basin. The board, therefore, in order to provide against accident occurring on said street, respectfully recommend that it be authorized to remove said basins and place them inside the curb.

Respectfully submitted,

WM. PURCELL,

President.

Accepted and the following resolution was offered.

By Ald. Mitchell:

Resolved, That the Board of Public Works be directed to transfer the receiving basins along the line of the double railway track on Woodward avenue from their present location to a point inside the curbstone.

Respectfully submitted,

To the Honorable the Common Council:

GENTLEMEN—In accordance with your instructions, the Board of Public Works respectfully submit the following statement, showing the actual cost of repairing the pavement on Michigan avenue, between Thirteenth and a-half and Fourteenth streets:

Material, cedar blocks, new, 29½ cords.....	\$ 215 35
\$7 30.....	
Material, gravel, 8 loads, \$1 75.....	14 00
Material, sand, 4 loads, \$1 12½.....	4 50
Material, fine sand, 10 loads, 30c.....	3 00
Labor and teams.....	58 66
	<hr/> \$385 51

The above block is 331 lineal feet in length, and with 10 feet of intersections repaired makes the whole length 341 feet, or 943 square yards of pavement repaired, which cost 86½ cents per lineal foot, or about 31½ cents per square yard. President.

On motion of Ald. Haller, the communication was accepted, and the Board instructed to proceed with the work.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending June 7, 1879, respectfully report that, with the City Accountant, we have examined the same and believing them to be correct, recommend their approval. The account of the Poundmaster of the Eastern District shows one animal unaccounted for.

At your last session you referred to the committee the matter of furnishing the City Accountant a room in which to discharge his duties. The reference should have been to the Committee on Public Buildings and your committee.

Respectfully, etc.,

F. G. RUSSELL,
HENRY GROSS,
A. H. RAYNOR.

Adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 10th June, 1879, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

STREETS AND BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets and the Board of Public Works, to whom was referred the petition of Hugh Moffat for the privilege of extending the width of the cedar block pavement on Fort street so as to afford easy access to the Moffat building, so-called, said extension to be within the two curbs on said street, respectfully recommend that the prayer of the petitioner be granted on condition that the improvement be

made under the supervision of the Board of Public Works and without expense to the city.

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING,

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of parties desiring that a track might be permitted to be laid on Front street, from the Michigan Central depot to Second street, would respectfully report that we have considered the matter contained in the petition, and inasmuch as the street is narrow and much traveled we do not believe in encumbering it with a railroad track, and would therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted,

JOHN CHR. JACOB,
THOMAS JACKSON,
THOMAS MANNING.

Adopted.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Public Buildings, to whom was referred the petition of many citizens desiring that an elevator might be put in the City Hall building, would respectfully report that we have given the matter careful consideration and find that the lowest sum for which an elevator can be built is five thousand dollars. The appropriation made for the Public Building Fund for the current fiscal year is but two thousand dollars, all of which is designed for necessary improvements and repairs on our public buildings. From the foregoing figures it will be seen that however desirable the construction of an elevator might be, it cannot be done at present. At the time of making the next annual appropriations the matter might be taken into consideration and the necessary money appropriated, if deemed advisable. Under the circumstances, we are compelled to recommend that the prayer of the petitioners be denied.

Respectfully submitted,

DANIEL GUINEY,
PAUL GIES,
W. H. CONNOR.

Accepted and adopted.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned of your Committee on Ordinances, to whom were referred the petitions of John Considine and five others for, and of George E. Nye and 46 others against amendment of the ordinance relating to the use and occupation of alleys, beg leave to submit that we have considered the matter, and are of the opinion that the ordinance should not be changed. In our judgment alleys less than 30 feet wide are not of sufficient width in which to permit the storage of lumber wagons and other articles.

Respectfully,

F. G. RUSSELL,
GABRIEL H. CHENE.

Laid on the table.

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Catherine Ryan, praying that an erroneous assessment on lot 38, Wesson's section of Mullett farm, in the Eleventh Ward, be corrected, report that on examination we find that owing to a blot being made on the book of the Assessor, that the valuation was made to appear as \$1,590, whereas it should be \$560. We, therefore, recommend that the City Treasurer be and he is hereby instructed to receive \$6 69 in full settlement of the tax which is the proportionate amount due.

COMMUNICATIONS FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I respectfully inform you that I have neither approved or disapproved the proceedings of your honorable body of June 13 so far as they relate to certain contracts for repaving Fort street and Woodward avenue, for the reason that it appears that a certain resolution offered by Hon. Alderman Jacob and adopted at your session of May 13, requiring the specifications to be submitted before any contracts for paving should be entered into, does not appear to have been since acted upon. If I am correct in this statement, and I take the record of your proceedings for my guide, would it not be prudent to defer making any contracts until the required specifications have been presented, considered and adopted?

Very respectfully,

GEO. C. LANGDON, Mayor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval the proceedings of your honorable body at your session of the 13th inst., so far as they relate to the Committee on Streets and the Board of Public Works in granting the petition of Hon. Hugh Moffat to extend the pavement on Fort street to

afford easy access to the Moffat building, so called, for the following reasons:

First—There is an alley on the south side of the said building, a court on the west side, constructed for the accommodation of said building when it was built.

Second—At the time Fort street was repaved the Common Council was petitioned by a prominent citizen, and a property owner on Fort street, in the same block upon which the Moffat building is situated, to have said Fort street widened in said block as has been done for the Moffat building; the prayer of the petitioner was denied.

Third, In my judgment we have no right morally or legally to grant similar privileges, or favors if you please, to one citizen which we deny to another or others.

Fourth, This work has been done illegally and without proper authority, and the city officers of the board whose duty it is to see to it that the ordinances in regard to streets are enforced, are culpable in the extreme, and should be held accountable for their neglect of duty.

Fifth, While respecting the petitioner in this case as a citizen and a gentleman, none other should better know the laws and ordinances in matters of this nature. The indecent haste with which he caused this work to be commenced and finished should be conclusive evidences to a candid mind that he had some doubt as to the approval of the proceedings of your honorable body granting his petition, and in view that the proceedings in his case might not be approved he took the law into his own hands and completed his work before the action of your honorable body was approved.

Sixth—Such violation of what he well knew to be the plain letter of his duty is an outrage upon his fellow-citizens (and if committed by a citizen of medium wealth and standing would not be tolerated for a moment), an insult to those of the city government who desire the rigid and equal enforcement of all rights, and a disgrace to those who should but do not enforce them, and if permitted by wealthy men must be granted to all.

Seventh—The work is completed. With your honorable body I leave the facts in the case, adding that I notified the proper board of officers of the city, verbally and in writing, and also the contractor verbally, that the proceedings of your honorable body in this case had not been approved—such notices being entirely unheeded. I respectfully submit that such a precedent is a dangerous one to establish, as by virtue thereof moneys of the city may be paid out or other obligations incurred within an hour after the session of the Council has terminated and before the proceedings have even been prepared for presentation to the Mayor. If such a course of proceeding is tolerated the executive approval or disapproval becomes a useless formality.

Very respectfully,

GEO. C. LANGDON,

Mayor.

Accepted.

Ald. Jacob moved that the vote by which the resolution was adopted be reconsidered.

Carried.

Ald. Jacob then moved that the resolution pass notwithstanding the objections of His Honor the Mayor.

The same prevailed as follows:

Yeas—Ald. Boydell, Chene, Connor, Finney, Foster, Gross, Herrick, Jackson, Jacob, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President—18.

Nays—Ald. Alter, Gies, Griffin, Guiney, Haller, Karrer, Monaghan—7.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully transmit for your consideration the accompanying claim of John Cosgrove for plumbing in Central Market, to the amount of \$40 10.

I cannot approve of this claim for the reason that it is not approved by the Board of Public Works, under whose supervision the work properly belongs.

The Clerk of the Market informs me that a serious leak in the hydrant took place, which required immediate attention, and he at once ordered the repairs without seeking the proper au-

thority, though with no intention of assuming authority which did not belong to his office.

Respectfully, etc.

H. P. BRIDGE,

Comptroller.

Accepted and referred to the Board of Public Works.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In the paving of Fort street a question as to the requirements of the Fort street and Elmwood Avenue Railway Company in furnishing the labor in paving two feet and four inches outside of the railway track has been raised. The railway company claim that the ordinance only requires it to furnish the labor for paving inside the track and between the switches, while it is claimed by the city that the ordinance requires the company to furnish the labor for paving inside the tracks and two feet four inches outside. To settle this difference it is proposed to apply to the Supreme Court for a mandamus to compel the company to comply with the ordinance as construed by the city, and the board respectfully recommend that the City Counselor be directed to make such application at the present session of the Supreme Court.

Respectfully submitted,

WM. PURCELL,

President.

Accepted, and the following resolution was offered:

By Ald. Jacob:

Resolved, That the City Counselor be directed to apply to the Supreme Court for a mandamus compelling the Fort Street and Elmwood Avenue Railway Company, contemporaneously with the paving of Fort street, to furnish the labor for paving the same inside the track, two feet four inches outside the track, and between the double tracks.

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets, to whom was referred the following resolution,

Resolved, That the Board of Public Works be and they are hereby instructed to rearrange the culverts on Woodward avenue when the double street car track is being laid, so as to enlarge the roadway,

respectfully report that the platforms over the culverts are so constructed as to project in the roadway from eighteen inches to two feet, thereby forming a formidable obstruction on that part of the avenue where they are laying a double track. As these culverts are not a necessity, the

committee can see no objection to their removal, and recommend that the resolution be adopted.

Respectfully submitted,

SPECIFICATIONS FOR STONE PAVEMENT.

Grading.

First—The street is to be brought to its established grade under the direction of the Board of Public Works.

Where cutting occurs the street must be excavated to such a depth below the true grade as the board may deem necessary for the purpose of receiving ballast for the roadway.

If the contractor shall excavate deeper than the grade specified by the City Engineer, then the back filling shall be of sand and gravel at the expense of the contractor.

It shall be compactly put in, and well rammed and rolled with a roller weighing not less than 2,400 pounds, and be so firm and compact as to be secure from settling.

The filling or excavation, when brought to the proper depth below the true grade, shall be smoothly graded, shaped, and rolled with a roller weighing not less than 2,400 pounds, to conform to the crown of the pavement, so that the ballasting, gravel and sand will be of uniform thickness. The surplus earth must be disposed of by the contractor.

Ballasting.

A bed of ballasting of bank sand and gravel not less than eight (8) inches in depth, six inches of which shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled, at least one block at a time, before being paved, with a roller weighing at least 2,400 pounds, and then the balance to be placed over the road bed, making a depth of eight inches, preparatory to paving the street.

Wherever sand and gravel is specified it must be of the best quality, and subject to the acceptance of the Board of Public Works.

Quarry Stone Pavement.

The quarry paving stones must not be more than four (4) inches nor less than two and a half (2½) inches in thickness, and not less than six (6) or more than ten (10) inches in length, and not more than eight (8) nor less than six (6) inches deep, and must show a fair, smooth face on the top. All quarry stones shall be dressed in the best and smoothest manner possible with the common breaking hammer, especially the top surface, the sides of the stone to be split and dressed so as to give a close joint of not more than one-half (½) inch, the ends of stones to be dressed to a depth of not less than three (3) inches, and the joint to be not more than one quarter (¼) of an inch for at least one-half the depth of the stone.

The carriage-way is to be paved with quarry stone equal in quality with specimens to be seen at the office of the Board of Public Works. Said stone shall be of uniform hardness, and of the

best quality of the several kinds as the Board shall choose or direct, and all bids shall be for each kind separately. All the stone to be set in a bed of bank sand and gravel, sufficient in depth to measure sixteen (16) inches from top of stone when firmly pounded and set to top of excavation. No stone shall be received whose bed at full depth is less than seven-eighths (¾) the area of the top. The paving quarry stone shall be selected, and must be laid in straight courses perpendicularly, of even thickness, at right angles across the streets, except at the intersections of streets, where the course shall be diagonal, each stone breaking joints with the stone in adjoining courses not less than three (3) inches.

Cobble Stone Pavement.

The cobble stone shall not be more than eight (8) inches nor less than four (4) inches in diameter, and shall be laid with their greatest surface or face upward, and so as to break joints with the adjoining stone. The largest stones shall be laid next to the curb and the smallest in the center of the street, and shall measure fourteen (14) inches sand and stone when pounded and set.

Pounding and Finishing Pavement.

All sand and gravel shall be scraped and swept off the surface before being pounded. All pavement when laid shall be thoroughly rammed and pounded with a pounder, not more than ten inches in diameter, at least three times, the first parallel with the street and twice across the street. In a thorough manner, with a maul weighing not less than seventy-five to eighty-five pounds, and the unevenness of surface of the paving shall not be over one inch before it is pounded, and the whole surface of pavement, when finished, shall conform to the true grade and cross section, as directed by the Board, and in no case to be altered unless by the written consent of said Board.

All streets paved with stone shall not be covered with sand or gravel until the same is inspected by the Board, and when inspected and accepted shall be covered with one and one-quarter (1¼) inch of bank sand and gravel.

Ballasting for Cobble Stone Pavement.

A bed of ballasting of bank sand and gravel not less than six (6) inches in depth, four inches of which shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled, at least one block at a time, before being paved, with a roller weighing at least 2,400 pounds, and then the balance to be placed over the road bed, making a depth of six inches, preparatory to paving the street.

Wherever sand or gravel is specified it must be of the best quality, and subject to the acceptance of the Board.

Curb-Stone.

Curb stone shall be of the best Medina or Lake Superior sandstone—as the Board of Public Works shall direct, and bids shall be received for each separately—not less than thirty (30) inches in length, of a depth of eighteen (18) inches, and four (4) inches in thickness, and show a fair face above the paving. The stone must be set in a bed of sand and gravel, and incline one-half (½) inch from the street, and be top-dressed to the level of the sidewalk. The joints must be dressed to the depth of fourteen (14) inches, and the bed and back filling to be of not less than four (4) inches of sand and gravel, and firmly pounded. At all corners or intersections of streets the curb shall be set with a circle of two (2) feet radius, or otherwise, as the board may direct. The circle stone to be eighteen (18) inches in depth, with end joints dressed to the depth of fourteen (14) inches. Wing stone shall be four (4) inches thick, two (2) feet in length and eighteen (18) inches in depth, and dressed to the proper angle; the stone shall be of the same material as the curb-stone used on the street.

Crosswalks.

Crosswalks are to be constructed across said street, and across all streets intersecting said street, of such width as the board may direct.

Said crosswalks to be of Medina stone, not less than six (6) inches in thickness, nor less than eighteen (18) inches in width, nor less than two and one-half (2½) feet in length, laid in courses. The edges of said stone to be cut square and at right angles. The sand and gravel in which said crosswalks are laid to be thoroughly rammed before the stones are laid upon it. The centre of crosswalk shall be at such height above the grade of the street as the Board may direct.

Condition of Side and Crosswalks.

All side and crosswalks to be left in as good condition as at the commencement of the work, and the contractor is to supply all deficiencies of material as may be necessary.

COMBINATION PAVEMENT.

The pavement to be composed of cedar blocks, cut the length specified, and placed upon a bed of sand or gravel, laid in that part of the street known as the driveway, and in connection with stone pavement, composed of any desired stone, for the sides and gutters of the said streets, as hereinafter described. The width of each kind to be varied and determined upon to suit the different widths of streets. The two kinds of pavement to be laid across the streets at the same time, forming a combined pavement of wood and stone, and to be known as "Combination Pavement."

Grading.—Said street to be graded to its established grade under the direction of the Board of Public Works, and must be excavated to such a depth below the true grade as the board may deem necessary for the purpose of receiving ballast for the roadway. The bottom of excavation when completed shall conform to the section or crown of the street as furnished by the City Engineer. If there are places in the street which are not firm or properly settled, caused by trenching for connections of sewers, gas, or water pipes, it must be taken out, refilled and pounded to make it solid. Before placing the ballast thereon the road bed in each block shall be well rolled with a roller weighing not less than 2,400 pounds. If the contractor shall excavate deeper than the grade specified by the City Engineer, then the back filling shall be filled with bank sand and gravel. The surplus earth, if any, must be disposed of by the contractor, the board reserving the right to direct the contractor to remove any earth it may require for the purpose of filling up any low lots, alleys and sidewalks to the proper grade within the assessment district.

Ballast.—A bed of bank sand and gravel, not less than six (6) inches in depth, after being well rolled as hereinafter required, shall be placed upon the road-bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the street, and shall be well rolled at least one block at the time before being paved, with a roller weighing at least 2,400 lbs., after which the same shall be well rolled with a hand roller weighing not less than 800 lbs. The roller to be used before paving to keep the bed of the street smooth. Whenever sand or gravel is specified it must be equal in quality to the specimens in the Board of Public Works Office, and approved by the board.

Curb-stone.—Curb-stone shall be of the best Medina, Lake Superior or Berea sandstone—as the board shall direct, and bids shall be received for each separately—not less than thirty (30) inches in length, of a depth of eighteen (18) inches, and four (4) inches in thickness, and show a fair face above the paving. It must be set in a bed of bank sand and gravel, and incline one-half (½) inch from the street, and the top dressed to the level of the sidewalk. The joints dressed to the depth of fourteen (14) inches, and the back filling to be of not less than four (4) inches of bank sand and gravel, and firmly pounded. At all corners or intersections of streets the curb shall be set with a circle of two (2) feet radius, or otherwise, as the Board may direct. The circle stone to be eighteen (18) inches in depth, and faced on the ends not less than fourteen (14) inches. In case the curb-

stones shall come above the natural surface of the ground, they must be backed with earth flush with the top and at least three (3) feet in width.

The setting of the curb-stones must be done by experienced workmen, and will not be accepted unless they are set to the true line and grade.

Blocks.—Blocks (stripped of the bark) of octagon shape, sawed from cedar timber. All blocks shall be cut from good, sound, live timber, free from loose or rotten knots, or other defects, and shall not measure more than ten (10), nor less than four (4) inches square on top, and not less than seven (7) inches in depth, and so placed as to make, as near as possible, the spaces of uniform size.

Before the spaces between the blocks are filled with gravel, the blocks shall be pounded with a pounder weighing not less than eighty (80) pounds, and to be twelve (12) inches in diameter, flat at the bottom, and the blocks brought to a level surface.

No teaming shall be permitted over the pavement until the spaces are filled in with gravel.

Spaces.—The spaces between the blocks to be filled with screened gravel, not to exceed seven-eighths of an inch square in size, free from sand or dust, and swept off with a coarse broom, the blocks then pounded with a pounder weighing not less than eighty (80) pounds, and to be twelve (12) inches in diameter, flat at the bottom, and the blocks brought to a level surface.

Top-Dressing.—The cedar block pavement shall be left uncovered until the same is inspected by some person or persons authorized by the board, and when inspected and accepted the whole surface shall be covered over with cement, composed of hot coal tar two (2) parts and pitch one (1) part, boiled so as to exclude all moisture, which cement shall be required to penetrate to the bottom of the blocks, and then covered with gravel and sand to the depth of three-fourths (¾) of an inch.

Stone.—The paving stones must not be more than six (6) inches, nor less than three (3) inches in thickness, and from six (6) to ten (10) inches in length, and not more than eight (8) nor less than seven (7) inches deep, and must be faced on top. The quarry stone used in paving the sides of the street shall be equal in quality to specimens to be seen at the office of the Board of Public Works; said stone shall be of uniform hardness, and of the best quality of stone. All the stone to be set in a bed of sand and gravel sufficient in depth to measure thirteen (13) inches from top of stone when firmly pounded and set to top of excavation. No stone shall be received whose bed at full depth is less than seven-eighths (¾) the area of the top. The pavement must be laid in straight courses across the street, breaking joints with the blocks (except at the intersection of streets where it will be laid with cedar blocks), each stone breaking joints with the stone in adjoining courses at least two inches. All stone shall be set perpendicular.

Pounding.—The stone pavement when laid for the gutters shall be thoroughly rammed and pounded at least three times. The first parallel with the street, even with the surface, and twice across the street, in a thorough manner, with a maul weighing seventy-five to eighty-five pounds, and the unevenness of surface of the paving shall not be over one inch before it is pounded, and the whole surface of pavement, when finished, shall conform to the true grade and cross-section, as directed by the board, and in no case to be altered unless by the written consent of said board.

All sides of streets paved with stone shall not be covered with sand or gravel until the same is inspected by the board, and when inspected and accepted shall be covered with three-fourths (¾) of an inch of sand and gravel.

Crosswalks.—There shall be crosswalks at all intersections of streets, walks to be made of the required width, and to be raised three (3) inches higher than the paving, of either cedar blocks or stone, as the board may direct.

Culverts.—The culverts shall be open and of such width as the board may determine, to be

formed of 3x14 inch timber, eight (8) feet long, with the ends rounded off to conform to the grade of the pavement.

Connections with Paved Streets.—When the pavement connects with any other street paved with either wood or stone, a sufficient amount of the same shall be taken up and relaid to conform to the crown of the street, as established by the City Engineer.

Connections with Unpaved Streets.—When the pavement intersects any unpaved street, there shall be laid across said unpaved street a piece of timber three (3) inches thick and fourteen (14) inches deep, set at the same grade, for the purpose of holding the cedar blocks in place.

Stone Paving.—Where required to be taken up and relaid, must conform with the crown of the cedar blocks, and laid in accordance with the specifications for stone paving.

Lumber and other Material.—The lumber used shall be sound, and the mode and manner of the performance of the work shall be subject to the examination and approval of the Board, or such person or persons as the board may appoint.

Condition of Sides and Crosswalks.—All side and crosswalks to be left in as good condition as at the commencement of the work, and the contractor is to supply all deficiencies of material that may be necessary.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom, at the last session of the Council, were referred—

First—The resolution of Ald. Ryan, "that the Clerk of the Market be directed to notify the keepers of eating stands in the Central Market to discontinue the use of charcoal or wood for cooking purposes in said market," respectfully report that in our opinion the use of such material for such purpose is a nuisance, and therefore a detriment to the other occupants as well as the public who frequent the market, and we therefore report in favor of the adoption of the resolution.

Second—We have considered the petition of A. Sheley, J. Calnon and 11 other citizens, requesting that the fish-mongers be permitted to clean fish sold on the market on condition that they remove daily, after the close of the market, all offal and other cleanings occasioned thereby, and report in favor of the prayer of the petitioners on the conditions as set forth in their petition. We also recommend that the Clerk of the Market make it his daily duty to see that this condition is strictly observed and report to the Controller, promptly, any neglect of the same.

Third—We have also had under consideration the petition of Charles Boost, representing that the passage-ways on the outside of the regular market benches are frequently obstructed by wagons, flower stands and stools to the inconvenience of purchasers of market produce, and recommend that the Clerk of the Market be instructed to at all times keep the passage-ways in the market free from obstructions of any kind, All of which is respectfully submitted.

GAS LIGHTS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Gas and City Controller, to whom were referred the various proposals for illuminating the City Hall building, the public markets and street lamps of the city, have examined the same and respectfully report as follows: Public opinion, as far as we have been able to ascertain, seems to be decidedly in favor of lighting our street lamps, as far as possible, with gas. The action of the Board of Estimates, in making the annual appropriation for this purpose, would seem to indicate that it was also the opinion of that body that gas should be used in street lamps adjacent to gas mains. We therefore report in favor of the acceptance of the proposals as submitted by the gas companies of the city for illuminating the City Hall, public market, for which they are the only parties bidding, and also with parties submitting proposals for illuminating the street lamps, connected with gas mains, with gas for the year ending June 30, 1890. On the subject of lighting the street lamps which are not connected with any gas mains we are, as yet, not ready to submit our recommendations as we are in an unfinished correspondence with the parties bidding and we therefore request further time on this portion of the subject.

Inasmuch as the question of illuminating some of our public squares, parks, etc., with the electric light is now under discussion and examination, we further recommend that the City Controller, in making any contract for lighting street lamps with gas, reserve the right for the city to discontinue the lighting of any street lamp, which in the judgment of the Common Council may be deemed expedient to be discontinued, if the electric light shall be used in any portion of the city.

In connection with this report we herewith submit the proper resolution to carry out the suggestions of your committee.

GEO. W. HERRICK,
THOMAS MANNING,
JOHN B. RYAN,
Committee on Gas.
H. P. BRIDGE,
City Controller.

Accepted and the following resolution was offered:

By Ald. Manning:

Resolved, That the City Controller be and he is hereby directed to enter into the following contracts for lighting the City Hall, public market and street lamps of the city with gas for the year ending June 30, 1890:

With the Detroit Gas Light Company for illuminating the City Hall with gas at \$2 per 1,000 cubic feet.

With Messrs. Fitch & Benham, for illuminating the central market with gas at \$3 25 per 1,000 cubic feet.

With the Detroit Gas Light Company, for lighting the street-lamps adjacent to their gas mains with gas, 16-candle power, with four-foot per hour burners, and on the basis of 2,500 hours for each post per year, at the rate of \$1 50 per 1,000 cubic feet; and with Messrs. Fitch & Benham, for lighting the street-lamps of the eastern district of the city adjacent to gas mains with gas, 16-candle power, with four-foot per hour burners, and on the basis of 2,500 hours per annum for each lamp, at the rate of \$1 50 per 1,000 cubic feet: Provided, That the City Controller shall, in making such contracts for lighting such street-lamps, reserve for the city the right to discontinue the lighting of such number of street lamps as the Common Council may deem expedient to discontinue, if the city should at any time during the life of said contract decide to use the electric light in the public squares or parks of the city. Also, that Messrs. Fitch & Benham, contractors for lighting the street lamps of the Eastern District of the city, adjacent to gas mains, be required to make connection with the City Hall building, in order that the Gas Inspector may make the proper test of the quality of gas furnished. Also.

Resolved, That further time be granted the committee to report on the subject of lighting such street lamps of the city as are outside of the mains of the city gas companies.

Laid on the table for one session.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, appointed to look into the matter of lighting the city or its public places with electric light, beg leave to report as follows:

In the first place we visited the workshop of Charles Vanderpoel of this city, who claims to be the inventor and proprietor of an electric light, which he believes will, upon a trial and test soon to be made, prove superior to any other. Mr. Vanderpoel succeeded in greatly interesting your committee. His light is produced practically upon the same principle as the already celebrated Brush light; it is very intense and, if it can be as economically and effectually operated as the inventor claims, it will become generally and satisfactorily useful.

We visited Cleveland last Thursday, and carefully investigated the process of manufacture and operation of the Brush light. The manufacturers cheerfully answered the many questions asked concerning their light, showed us through their extensive and finely managed establishment, explaining minutely the entire machinery and mechanical apparatus necessary in the construction and operation of their light, and gave us the fullest opportunity for reaching conclusions as to its merits.

At present the city of Cleveland is operating 12 lights, and these in Monument Square only, but is now considering a proposition to place them on Superior street, from the square to the westerly end of the viaduct. These 12 lights take the place of 106 gas lamps, and illuminate the square brilliantly and with fine effect.

The light is said to be much more intense than from the gas lamps displaced, but the expense is about the same.

Since our return Mr. Brush has visited Detroit and with a portion of your committee has gone over some of the public spaces in which the electric light could be most satisfactorily introduced and maintained. He expressed the opinion that the Campus Martius and streets about the City Hall could be finely illuminated with seven lamps

and the Grand Circus Park with seven, as well as Monument Square in Cleveland.

The Telegraph Supply Company, who manufacture the Brush light, have made the following proposition, viz.: To furnish one No. 7 Brush Dynamo Electric Machine arranged for sixteen lights, seventeen Brush Electric Lamps, double carbon rods, burning from fourteen to sixteen hours, sixteen ornamental lamp posts and hoods similar to those in Cleveland Park; the necessary No. 8 English gauge copper wire with insulators, etc., erect the whole apparatus, pay all freight and expense and place everything in perfect working order for the sum of \$4,100, the city to furnish the necessary engine power.

The entire expense of furnishing and operating the light for the first year would be as follows, viz.:

Furnishing and putting the electrical apparatus in working shape as above stated.....	\$4,100
Fifty horse-power engine and boiler sufficient to be used for elevator and other purposes.....	1,700
Carbon rods, fuel and necessary attendance for one year.....	1,500
Total.....	\$7,300

It should be understood that the sum estimated for engine and boiler is more than is necessary to furnish the power for operating an electric light, 18 horse power being sufficient for that purpose. In case your honorable body see fit to cause the electric light to be used in Detroit, as a new engineer will be required, we believe it will be economy to purchase power sufficient to operate an elevator and meet other future needs of the city.

After the machinery and apparatus above mentioned are procured, the annual expense of lighting 16 lamps will not exceed \$1,500, according to our best estimates. Your committee do not believe that, as at present developed, the electric light is practicable for ordinary street purpose, but we have seen enough of it to be satisfied that it is effective and desirable for large halls, public parks and large open spaces.

We believe the light would give general satisfaction in the Council Chamber, the Campus Martius, Grand Circus Park and at the intersection of Woodward and Jefferson avenues, and feel justified in recommending that proposals be invited for furnishing the necessary machinery and apparatus to operate 16 lamps.

We submit for your consideration the accompanying resolution.

Respectfully yours,

F. G. RUSSELL,
JAMES I. MITCHELL,
THOMAS JACKSON,
THOMAS MANNING,
CHARLES M. ROUSSEAU,
H. P. BRIDGE.

City Controller.

Resolved, That the City Controller be and he is hereby authorized and instructed to advertise once a week for five successive weeks for proposals for furnishing the necessary machinery and apparatus to effectually operate an electric light for 16 lamps, such proposals to be according to specifications and details agreed upon by the City Controller, Gas Inspector and Engineer of the City Hall and approved by the Common Council.

Laid on the table and ordered printed in the proceedings.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was again referred the matter of leasing to the Detroit Scientific Association one or any portion of the public parks, beg leave to report as follows:

Opposition on the part of residents and property owners adjacent to every park seriously proposed has been made excepting the one occupied by the Public Library. We appreciate the propriety of the city co-operating in the encouragement and maintenance of said association, if it can be without injury to the public. The Li-

brary Park is very accessible, and the location of the association building upon it would be appropriate. In view of these circumstances and the fact that the building proposed to be erected would eventually be available for an extension of the Public Library, we recommend that the lease agreed to by the Board of Education be consented to and approved.

F. G. RUSSELL,
A. H. RAYNOR.

I would cheerfully approve of the foregoing recommendation if satisfied that it was not a perversion of the uses for which the park was originally intended.

WM. C. MAYBURY,
City Attorney.

Accepted and laid on the table and ordered printed in the proceedings.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—The State Legislature at the sessions of that body during the years 1869, 1871, 1872, 1873, 1875, 1877 and the last session, 1879, amended the city charter to such an extent that it is with difficulty that the laws governing and regulating the corporation can be ascertained without a very laborious consultation of the session laws of the past 10 years. But few copies of the last edition of the charter, imperfect as it is, are now in existence, and the city officers oftentimes find themselves uncertain as to their duties under the charter in very important matters.

The members of your honorable body and the various city officers who have, almost daily, to consult the charter in reference to matters of the greatest importance, recognize the necessity of having the laws pertaining to the city government in such a shape as to be readily consulted and furnished with an index so complete as to afford a speedy and sure way of finding the subject sought.

I therefore recommend that the city charter and the acts of the Legislature relative thereto be recompiled and furnished with a complete

and suitable index, and that a suitable sum be appropriated for that purpose, the whole work to be done under the direction of the City Attorney.

Respectfully, etc.,

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Printing.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The following approved account is respectfully submitted:

Pay roll of aldermen and messenger of Council for the months of April, May and June, \$1,013 50.

Respectfully submitted

H. P. BRIDGE,

Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The attention of the undersigned has been called to the provisions of section 12 of the charter of the Detroit and Grand Trunk Junction Street Railway Company, wherein it is required that at the expiration of five years from the acceptance of such charter the company shall make an annual statement of its gross earnings, and shall pay at the rate of one (1) per cent. thereof into the city treasury. This charter was accepted in 1873, the first five years expiring on the 18th day of June, A. D. 1878. The city is entitled to one per cent. of the gross earnings of the company for the year ending June 18th, 1879. I would recommend that the Controller be directed to request of the company the statement required by the foregoing provisions of its charter.

Respectfully submitted,

WM. C. MAYBURY,

City Attorney.

Accepted and the communication was concurred in.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—Some time since the attention of the Council was called to the worthless balances of the fire, marine, life and accident insurance taxes of 1871 and 1873. I would suggest this matter be referred to the chairman of the Committee of Ways and Means, Controller and City Attorney, with power, and if found as represented to instruct the City Treasurer to make the necessary entries on his ledger to balance and close up said accounts.

I would also respectfully call your attention to a number of special assessments made under the old street opening law, which are worthless, and I think those should be closed out also, and to that end ask that this matter be referred to the same committee as above mentioned.

Signed,

WM. PARKINSON,

City Treasurer.

Accepted, and the communication was concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I respectfully call your attention to the unsatisfactory and unbusinesslike manner in which the laborers employed by the Board of Public Works are paid off. Briefly this present system (?) is as follows: These laborers are employed by the Board directly or indirectly, and are made up—as perhaps every member of your honorable body is well aware—of representatives of nearly every nation on the globe. They are composed largely of Poles, Germans, Irish and a sprinkling of French and Americans. The pay rolls are made out by clerks in the office of the Board, and every Saturday are paid off by the Treasurer. They come here a score or more at a time with no means whatever to identify them, and are not infrequently obliged to travel up and down stairs from this office to that of the Board in order to establish their identity—owing perhaps to the wide difference between the name on the roll and the name as given by them. Further—

more we are obliged to look over the rolls from Alpha to Omega, inasmuch as these poor unfortunates in very many instances haven't the slightest idea in which ward they worked, or who was their foreman. They are thus kept waiting a needlessly long time.

With a view to modifying somewhat these ill effects, I some time since requested the board to adopt a system of "ticketing," that is, to number each man's name on the roll, and before he called for his pay present him with a duplicate number-ticket, ward, etc. By this means a great deal of time would be saved and no risk incurred. In lieu thereof, however, Messrs. Chapoton, Purcell and Mitchell sent one of their clerks, who was familiar with the names and rolls, to assist me in paying off every Saturday morning. This plan was certainly an improvement on the old method, and as I was very anxious—both as a matter of security to myself and to the laborer—to accept of any such improvement I let the matter drop, still convinced, however, that the ticket system was the best. On Saturday last (June 14), however, one of the clerks, a very accommodating and obliging young man, after remaining with me in the office a short time said he wished to go down to his own office but would return again in a few minutes. Not returning, however, at the time specified, and after waiting some time, I went to see him and he politely referred me to the board. The only member in at that time was Mr. Ruehle. I requested him to allow me this clerk's assistance (which was by no means unusual nor establishing a precedent) and was flatly informed by said Mr. Ruehle that the clerks in that office were for the Board of Public Works and not for the Treasurer's office. Now, I do not need any of Mr. Ruehle's men to run the Treasurer's office, but I do hold that it is not only a matter of security, but of economy and charity, that these poor laborers should be paid as speedily as possible and by the most approved method. Mr. Ruehle claims that rolls are made out in plain English, and that he can pay these men without any trouble. To this statement I answer perhaps he can; so can I. But I ask you, gentlemen, is it policy, is it business, to unnecessarily consume so much time every week at the expense of two or three hundred poor men?

In order to convince you of the propriety of this change I respectfully invite your honorable body, or any number thereof, to inspect the workings of the present method next Saturday morning.

Very respectfully,

WM. PARKINSON,
City Treasurer.

Accepted and referred to the Committee on Ways and Means.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the communication of the Controller, together with the account of John Cosgrove, for plumbing in the Central Market, respectfully report that on the presentation of the bill to the board for approval the same was not approved, for the reason that the work was not done under its supervision, and at a sum much larger than was deemed just. Mr. Cosgrove waited on the board, and after due consideration concluded to reduce the aggregate amount to what the board deemed just, \$38 35, instead of \$40 as it was originally. The board therefore return the voucher and recommend that Mr. Cosgrove be paid \$38 35 in full of all demands for said work.

Respectfully submitted,

WM. PURCELL,
President.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Julia Godfrey and others, remonstrating against constructing a

lateral sewer in the alley between Benton, Grove, Beaubien and Antoine streets, respectfully recommend that the prayer of the petitioners be denied, the sewer in said alley having been let and contracted for. Also, as a sanitary measure, it is much needed.

Respectfully submitted,

WM. PURCELL,
President.

Accepted and the communication was concurred in.

FROM THE SAME.

FROM THE HEALTH OFFICER.

To the Honorable the Common Council:

GENTLEMEN—Permit me to call the attention of your honorable body to the existence of a nuisance, and one constantly becoming worse, in the ravine on Howard between Thirteenth and Fourteenth streets, or rather what would be Thirteenth-and-a-half street if opened through to Fort street.

We have examined these premises and find that every description of filth is being deposited here, viz., the sweepings of streets, offal, garbage, kitchen slops, human excreta, etc., to the great detriment of the health of the citizens in the aforesaid locality.

I am informed by the complainants that the Board of Public Works is committing this nuisance. Whether this be true or not, the evil should be stopped at once, and the offenders made to correct it. I should hope, for the credit of that highly respected board, that the charges are incorrect. If it be an offense in the private citizen, it is a doubly aggravated one in the city's officials, who are supposed to protect her interests and look after the welfare of the private citizen.

This subject was discussed in our annual report for the year 1878 and submitted to the retiring Council of that year, and by that body referred to the Common Council of 1879.

Respectfully submitted,

E. LEACH, M. D.

Health Officer.

Accepted and referred to the Committee on Health.

COMMITTEE ON STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Attorney, was referred the communication of the Mayor relative to the driving of vehicles in the streets, used for advertising purposes, and having a tendency to frighten horses, would respectfully report that we have examined the matter carefully and would recommend the adoption of the annexed ordinance.

Respectfully submitted,

JOHN CHR. JACOB,
THOMAS MANNING,
THOMAS JACKSON,
WILLIAM C. MARYBURY,
City Attorney.

The following is the ordinance:

AN ORDINANCE to amend section 12, of chapter 86, of the Revised Ordinances of 1878.

It is hereby ordained by the Common Council of the city of Detroit.

SECTION 1. That section 12, of chapter 86, of the Revised Ordinances of 1878, be and the same is hereby amended so as to read as follows:

SEC. 12. No person shall himself, or by another, post, attach, place, print, paint or stamp, any placard, show bill or advertisement of any description whatever (except such as may be expressly authorized by law) on any street or sidewalk, or any other public place or object in the city, or on any fence or enclosure belonging to the city, nor shall any person drive through the public streets of the city any vehicle used for the purposes of advertising and having thereon placards, hand-bills, posters or other bills or signs so constructed or displayed as to have a tendency to frighten teams and horses. This section shall not apply to vehicles driven in public processions.

SEC. 2. This ordinance shall take immediate effect.

Read twice by title and ordered printed in the proceedings.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Public Buildings to whom, at the session of the Council held June 13, was referred the resolution of Ald. Rousseau directing the Board of Public Works to provide some suitable covering for the floors of the offices of the City Controller and City Treasurer, respectfully report:

We have examined the floors of the city offices in question and find them in a very rough and splintered condition, and the carpet in the private office of the Controller to be the original carpet laid when the City Hall was first furnished, and now very much worn.

We are of the opinion that these offices should be properly furnished, and recommend the adoption of the resolution, and that the material used for such purpose should be linoleum for the public offices for the space outside of the counters, and Brussels carpet for the private office of the Controller.

Respectfully submitted,

DANIEL GUINEY,
W. H. CONNOR,
PAUL GIES.

Adopted as follows:

Yeas—Ald. Alter, Boydell, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Warriner and the President—51.

Nays—None.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Jeremiah Connors, praying that the rebate of taxes allowed him under the recent decree of the Supreme Court might be paid, would respectfully report as follows: The petitioner filed a bill to enjoin the sale of his property for default in the payment of his taxes for the year 1876, claiming that the levy thereof was illegal. On an appeal to the Supreme Court the levy was sustained, but the court ordered a rebate to the complainant of the excess over one per cent of the amount levied for the purposes of certain funds mentioned in the charter as coming under that rule. Such excess, with the legal costs, amounts to \$114, which we would recommend be paid to the petitioner in accordance with such decree.

Respectfully submitted,

M. HALLER,
W. H. CONNOR,
WM. C. MARYBURY.

City Attorney.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the contingent fund in favor of Jeremiah Connors for the amount of \$114 24, to liquidate his claim against the city under the decree of the Supreme Court in the case of Jeremiah Connors vs. the city of Detroit.

The resolution was then adopted as follows:

Yeas—Ald. Alter, Boydell, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Her-

rick, Jackson, Jacob, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Warriner, and the President—*Si*.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Daniel Anderson, praying that the sale of lot 8 and the west 10 feet of lot 9, for construction of lateral sewer, be canceled, assessed in 1880, in block 56, Labrosse farm, report that on examination we find the petitioner has paid the amount of tax justly due from him, and that he was erroneously assessed \$1, which, in our opinion, should be canceled. We submit the proper resolution.

Respectfully submitted,

M. HALLER,
W. H. CONNOR.

Resolved, That the City Treasurer be and he is hereby instructed to cancel tax sale on lot 8 and west 10 feet of lot 9, in block 56, Labrosse farm, amounting to \$1, erroneously assessed against Daniel Anderson in 1880.

Adopted as follows:

Yeas—Ald. Alter, Boydel, Connor, Daly, Finney, Gies, Griffin, Gross, Guiney, Haller, Herrick, Jackson, Jacob, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Warriner and the President—*Si*.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your committee on taxes, to whom was referred the petition of the Second Congregational Society by its trustees, praying that the tax levied against lot No. 6 and the southerly 14-100th feet in width of lot No. 7 of the sub-division of Park lots No. 76, 77, 78 and 79 in the city of Detroit, and occupied by a house of public worship, etc., report, that on examination we find at the time the assessment was made it was not used or church purposes, but was private property.

We therefore report adversely to the prayer of the petitioner.

Respectfully submitted,

M. HALLER,
W. H. CONNOR.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your committee on taxes, to whom was referred the petition of Henry Maybury, praying to be refunded tax paid on a mortgage, for the reason that, in the year 1874 he sold east $\frac{1}{4}$ of lot 14 in block 66, Woodbridge farm, north of Howard street, and received a mortgage on the same in part payment therefor; that he has paid the tax on said real estate, and the property has since been transferred to him by the mortgagor, and he has had to pay the tax on the mortgage which was given as part purchase money for the uncompleted sale of real estate hereinbefore stated, and therefore asks to be refunded the tax on the mortgage, report, that under the law of the state, mortgages on real estate, and the real estate itself are both subject to taxation, and we see no reason why the relief prayed should be granted.

We therefore report adversely to the prayer of petitioner.

Respectfully submitted,

M. HALLER,
W. H. CONNOR.

Adopted.

GAS LIGHTS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Gas and City Controller, to whom were referred the proposals for illuminating the City Hall, markets, and street lamps, having at the last session of the Council submitted our report covering the City Hall, markets, and such street lamps as are adjacent to the gas mains now laid in the city, herewith submit our report and recommendations for illuminating such street lamps as are outside of or not adja-

cent to any gas main. We have carefully considered all the proposals submitted.

The proposal of C. B. Davis of Cincinnati, Ohio, at \$11 per post, is the lowest, but Mr. Davis failed to state in his proposition the attachment and burner he proposed to use, and letters written by your committee, inquiring as to this important point, have not been answered.

The next lowest proposal submitted was by Mr. Curtis Woodhull, for the Buffalo Gas Light Company, at \$12 per post. Mr. Woodhull exhibited to your committee a very desirable burner, but on application to the Buffalo Gas Light Company for further information, we received the reply that that company did not know Curtis Woodhull nor had they authorized him or any other party to present proposals for lighting any street lamps.

James L. Ryman, of Cincinnati, Ohio, submitted a proposition at \$12 25 per post, but as the committee know nothing of the attachment he proposed to use, and as the proposal was not received until after the hour advertised as the limit of time during which proposals would be received, your committee did not think it proper to take the bid into consideration.

The Globe Gas Light Co., of Cincinnati, Ohio, and the Michigan Gas Light Co., of this city, presented proposals, the former at \$18 75 and the latter at \$18 95 per post per annum.

The proposition of the Globe Gas Light Co. is twenty cents per post per annum lower than that of the Michigan Gas Light Co., but as your committee are without experience in the attachment used by the former company, and the light furnished by the Michigan Company, the present contractors, has proved to have been entirely satisfactory for outside lamps during the past year, and, especially, since we believe a change of contractors would occasion an expense per post of an amount fully equal to the difference in the two propositions, we are of the opinion that the contract should be awarded to the Michigan Gas Light Co., at their proposal, \$13 95 per post per annum.

Other proposals were received from Mr. J. Q. Dudley of Detroit and the Ohio Gasoline Company of Cincinnati, both of which were at a higher figure than all other bids. We submit herewith the proper resolution, in accordance with the views of the committee.

Respectfully submitted,

GEO. W. HERRICK,
THOMAS MANNING,
JOHN B. RYAN,
Committee on Gas.
H. P. BRIDGE,
City Controller.

By Ald. Herrick:

Resolved, That the City Controller be and he is hereby directed to contract with the Michigan Gas Light Company of Detroit for illuminating all such street lamps as are now, or which may be, during the life of such contract, erected on the streets of the city which are outside of or not adjacent to any gas main; said contract to be for one year from July 1, 1879, and at the rate of \$13 95 per post per annum, and in all respects to conform with the present regulations for lighting naphtha lamps and with the terms of the advertisement inviting proposals for the same.

Laid on the table and ordered printed in the proceedings.

LIQUOR BONDS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Liquor Bonds, to whom was referred the bond of the several parties named, have carefully examined the same, and are satisfied as to the accuracy of their execution and the sufficiency of the sureties, and would therefore respectfully recommend the acceptance and approval of the bonds of Mrs. Ann Barry, D. L. Van De Worken, John Jeup, Patrick H. Gleason, Louis Greisenger, Mary Feys, John F. Moloney, John Thorp, Henry Dunlap, Thomas Mathews, H. & I. Guthard, William H. Respectfully submitted,

JOHN CHR. JACOB,
MICHAEL DALY.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee appointed to examine the new city map, beg leave to report as follows:

The map as now published is not an entire new map, but is a revised edition of the map of 1871, showing the new and extended limits of the city, together with what new sub-divisions there have been made, and is in accordance as was ordered. The dock lines are the same as were formerly shown on the map of 1871, and while there are a few omissions we find the map generally satisfactory, and recommend that it be accepted.

COMMON COUNCIL.

(OFFICIAL.)

DETROIT, Tuesday, June 24, 1872.

The Council was called to order by the President, Hon. CHARLES EWERS.

Present—Ald. Alter, Boydell, Connor, Daly, Finney, Gies, Griffin, Haller, Herrick, Jackson, Jacob, Karrer, Manning, Monaghan, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner, and the President.

CORRECTION OF THE JOURNAL.

Ald. Jacob moved to correct the journal of the last session so that a resolution offered by himself should read "lot 36" Labrosse farm, instead of "lot 21." Carried.

The journal, as corrected, was then approved.

SUSPENSION OF THE RULES.

Ald. Russell moved that the rules be suspended for the purpose of reading a communication from his honor the Mayor and City Controller. Carried.

The following are the communications:

FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I have approved the resolution adopted at your last session authorizing the issue of the bonds of the city for the sum of \$300,000 for the purchase of Belle Isle, but I respectfully suggest to your honorable body that said resolution be amended so as to make the rate of interest four instead of five per cent., and the interest payable semi-annually. I am informed by a number of our prominent bankers and capitalists that a four per cent. bond of the city of Detroit to run twenty years can be sold at par and probably at a premium. It is certainly for the interest of the city to make this loan at the lowest possible rate. Four per cent. bonds of the city of Philadelphia have recently been sold at par, and the credit and standing of the city of Detroit are equal to that of Philadelphia or any other city in the Union. I have no doubt four per cent. is sufficient, and I earnestly recommend that, before the resolution finally goes to the Board of Estimates, this reduction will be made.

Very respectfully yours,

GEO. C. LANGDON,
Mayor.

Accepted and placed on file.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I desire to call your attention to what I believe to be serious mistakes in the resolutions directing the issue of \$300,000 bonds of the city for the purchase of Belle Isle. The resolution provides for the issue of 30-year bonds, in sums of not less than \$500 each, with interest at 5 per cent. per annum.

It was my hope that the resolution might, at the last session of the Council, be amended so as to read at an interest not to exceed 5 per cent. Had this been done proposals could be called for at 4 per cent., $4\frac{1}{2}$ per cent. and 5 per cent. interest, and I am strongly of the opinion that our bonds will sell at par bearing an interest certainly at $4\frac{1}{2}$ per cent., if not at 4 per cent. Should the bonds bear $4\frac{1}{2}$ per cent. interest it would, at simple interest, be a saving of \$30,000 in the 30 years, and if sold at 4 per cent., a saving of \$60,000 over bonds bearing 5 per cent. interest. It would be unreasonable to expect these bonds, if issued at 5 per cent., would command a premium to any such amount as the difference in interest. Government 4 per cent. bonds are selling at a premium. I believe Detroit city bonds will sell as well; besides, it would add greatly to our credit to sell bonds at so low an interest as 4 or $4\frac{1}{2}$ per cent. interest. The resolutions also contemplate an annual rather than a semi-annual interest, which would operate unfavorably in the sale of the bonds. My ideas as to the rates of interest are corroborated by the best financiers of the city, and should not be construed as in any way in opposition to the purchase of

this property. I therefore earnestly recommend a reconsideration of the resolutions, that they may be so amended as to read, at an interest not to exceed five per cent. per annum, payable semi-annually. This action should be taken before the question is submitted to the Board of Estimates for their approval.

Respectfully submitted,

H. P. BRIDGE,
Controller.

Accepted and placed on file.

RECONSIDERATION.

Ald. Russell moved to reconsider the vote by which the resolution offered by himself at the last session relative to the purchase of Belle Isle was adopted.

Carried.

Leave being granted the following resolution as amended was then offered.

By Ald. Russell:

Whereas, The owners of Belle Isle have offered to sell the same for the sum of \$300,000, as more fully appears by a communication made to the Common Council by John J. Bagley, Bela Hubbard and four others, bearing date April 8. A. D. 1870.

And whereas, The Legislature of the State of Michigan has since passed an act entitled "An act to authorize the city of Detroit to establish and regulate a park."

Therefore, Resolved, That, subject to the approval of the Board of Estimates of the city of Detroit, the Common Council accepts the aforesaid proposition.

Resolved, That the bonds of the city for the sum of \$300,000 be issued for the purpose of providing money for the payment of the purchase price of said island; that said bonds be issued in sums not less than \$500 each; bear interest at a rate not to exceed five per cent. per annum from the date of issue, be payable 30 years from date, not be negotiated at less than their par value, and the interest thereon be payable semi-annually.

Resolved, That a meeting of the Board of Estimates be held on the 30th day of June, 1872, at 7.30 o'clock P. M., to consider the question of purchasing said island and the issuing of said bonds.

Ald. Ryan moved to amend by striking out the words "semi-annually."

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully return to your honorable body without my approval the resolution adopted at your last session, directing the Controller to enter into contract with the Detroit Gas Light Company and with Messrs. Fitch & Benham for lighting the street lamps with gas. My objections to said resolutions are as follows:

First—The additional expense of lighting the streets with gas is too great to make it advisable. At the rates mentioned in this resolution the expense will be between nineteen and twenty dollars per post. There are 1,780 lamp posts adjacent to gas mains, and at nineteen dollars per post the total expense for the year will be \$33,440. Naphtha light for the same posts, according to the bid of the Michigan Gas Light Company, (\$11 95 per post) would cost \$31,085, or a saving of \$2,355. But this is not all. There are about 400 posts that are not adjacent to gas mains, and 500 more are to be erected. These are necessarily lighted with naphtha. To light these alone the bid is \$13 95 per post (\$13 95), or two dollars per post more than where the contract for the whole city is let to the naphtha company, so that the changes from naphtha to gas will cost the city upwards of \$14,000. In my judgment gas is not sufficiently superior to naphtha to warrant us in going to this expense. I have yet to learn that the use of naphtha has resulted in any public inconvenience and I can discover no reason why the city should at this time cease to use it. Second—The litigation

still pending in the courts between the city and the Mutual Gas Light Company prevents the city, for obvious reasons, from entering into contracts with that company or any of its representatives. Messrs. Fitch & Benham have never been authorized by the Council to use our streets for the distribution of gas, and are only able to take the contract in question because of their connection with the Mutual Gas Light Company, or its illegitimate successors, the Mutual Gas Company. The case involving the right of the first named company to use the streets of our city has been appealed to the Supreme Court of the United States, and a suit has been commenced in the Supreme Court in chancery to determine whether the new Mutual Company has any such rights.

Pending this litigation it would be very bad policy for the city to pursue such a course as would enable the gas companies for the time being to reap all the benefits they sought to derive from the division of the city between them.

The Detroit Gas Light Company was organized for the purpose "of supplying the citizens with gas," and for years this company did supply the whole central portion of the city. The Mutual Gas Light Company was organized as a competing company and for the purpose of occupying the same territory.

Both of these companies violated the object and purpose of their organization and existence by their agreement dividing the city. They have both acted in bad faith toward the city, and the city cannot in justice to itself give them the contracts for lighting the streets.

I have no doubt that it is very important to the companies to have these contracts, but, for my part, and having only the interests of the city and its citizens in view, I am in favor of adhering to the use of naphtha until the electric light comes into general use, or the gas companies are willing to enter into an agreement which will permanently protect the city and its people from their rapacity. I hazard the prediction that if any compromise is tendered the gas companies in the contest now being waged between them and the city (in behalf of its citizens) it will not be long before they will again become arrogant and ignore the rights of the people, and we shall be forced to begin another contest to assert the rights of our citizens. If these gas companies in good faith desire an honorable truce and any further recognition by the city, let them admit the errors of the past and seek new contract relations with the city which will mutually conserve their interests and ours alike.

GEO. C. LANGDON, Mayor.

Accepted.

Ald. Jacobs moved to reconsider the vote by which the resolution was adopted.

Carried.

Ald. Haller moved to lay the communication on the table.

Ald. Jacob then moved that the resolution be adopted notwithstanding the objections of the Mayor.

The same prevailed as follows:

Yeas—Ald. Alter, Boydell, Connor, Daly, Finney, Gross, Herrick, Jackson, Jacob, Manning, Mitchell, Ralph, Raynor, Rousseau, Russell, Ryan, Warriner and the President—18.

Nays—Ald. Gies, Griffin, Guiney, Haller, Monaghan—5.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I herewith respectfully submit the pay roll of the Board of Health for the months of April, May and June, 1879. I cannot approve of this roll for payment without special instructions from your honorable body so to do, for the reason that on the 1st day of April last the legal officers of the city communicated to the Council their opinion that the Board of Health "as now constituted has no legal existence." I therefore submit the pay roll that the question may receive the definite action of your honorable body for my future guidance.

Respectfully, etc.,

H. F. BRIDGE,
Controller.

COMMUNICATION FROM SILAS FARMER.

To the Honorable the Common Council of the city of Detroit:

GENTLEMEN—In the course of my researches during the last four years, for information to be used in my forthcoming illustrated history of Detroit, I have collected a number of facts concerning Belle Isle, and in view of the public interest now felt in regard to it, I have thought you would be pleased with the following extract from my manuscript:

Belle Isle.

During the French occupancy of Detroit this island was treated as an appendage of the garrison and used as a place for pasturage. Fuel was also obtained from it. Under the early years of English rule it continued under the control of the garrison, and on May 9th, 1763, when Pontiac found that his conspiracy was discovered, a party of Indians crossed to the island and, finding Sergeant James Fisher, his wife and two children there in charge of 34 cattle belonging to the garrison, the family and the cattle were both alike killed. During the subsequent siege the most of the wood for the fort was obtained from the island by sending large parties to obtain it under the protection of armed schooners.

On May 4, 1768, King George III. and his council gave Lieut. Geo. McDougall permission to occupy the island temporarily, so long as the military establishment was continued at Detroit, provided that he could do so without causing dissatisfaction to the Indians, and that the improvements he made should be of a character to be of service in supplying the wants of the fort and garrison. On June 5 of the following year he bought it of the Ottawa and Chippewa Indians for five barrels of rum, three rolls of tobacco, three pounds of vermilion and a belt of wampum, an additional three barrels of rum and three pounds of paint to be delivered when possession was taken. The whole value of the island was estimated at \$194 10s.

Lieut. McDougall had it surveyed by a Mr. Boyd in 1771, who reported that it contained 704 acres.

The same year McDougall built a dwelling house and out-buildings and his tenant, one Cassidy, cultivated about 30 acres. After a few years John Laughton leased the island of Cassidy, there being then two farms with 80 acres of cultivated land, together with houses and barns, one of the farms being cultivated by a man named Ridley. In 1776, during the Revolutionary war, Laughton was ousted by Col. De Peyster, the commandant at Detroit, and it was used as a place for the detention of Americans, or as they were then called, rebel prisoners, captured by the Indians during their western and southern forays.

Meantime McDougall had died, and Wm. McComb, guardian of his heirs, petitioned Sir Frederick Haldimand, the Governor General, for redress as against De Peyster, who then offered 800 guineas for the island, but this was rejected and he was compelled to restore the island, erect a barn and furnish a sloop as compensation for the use of it.

An old ledger of McComb's shows that he was in possession of the island on August 30, 1780, and that on that date he sent 36 cattle there to be pastured.

On November 11, 1793, the heirs of McDougall sold it to Wm. McComb. Like all titles originating prior to American occupancy the claim to this island was passed upon by the U. S. commissioners; the deed from the Indians was of but little force, as neither the British or American governments recognized deeds from Indians to private parties; but as the McCombs were in possession before the Americans came the commissioners on November 6, 1809, confirmed the island or 640 acres of it to the heirs of Wm. McComb. No one claim at that time was allowed to include any more than 640 acres, and it was then, and even as late as 1832 (when surveyed by J. Mullett), considered doubtful about the island containing even that amount of land, but it is now generally conceded to contain about 700 acres. On January 7, 1817, the Register of Probate and a committee assigned the island to D. B. McComb as one of the heirs of Wm. McComb.

On March 8, 1817, D. B. McComb conveyed it to B. Campan for \$5,000, which tradition says was paid in bills of suspended Ohio banks, and on November 1, 1833, the United States commissioners on claims recommended that the entire island be confirmed to B. Campan.

In July, 1833, the island served as a sort of quarantine. A vessel on her way to Chicago with troops for the Black Hawk war arrived at Detroit, and being found to have a case of cholera on board, was ordered to lay at Hog Island as a measure of safety.

The island has borne no less than four different names, originally called Wah-nah-be-zee, "the swan," by the Indians. It was renamed by the French "Isle au St. Claire," and was so overrun with rattlesnakes that a number of hogs were allowed to run at large in order to destroy them. Eventually the hogs became so numerous that it soon came to be known as "Isle au Cochons," or Hog Island. During the years just previous to 1845 the island became a very popular place of resort for picnic parties, and just prior to July 4, 1845, it was announced in the daily papers that a picnic party on the "Fourth," would give it a more euphonious name. Accordingly, about 5 o'clock P. M., a large number having assembled on the island, Morgan Bates was called to the chair and Wm. Duane Wilson selected as secretary; and on motion of Mr. Goodell it was resolved that the island should hereafter be known as "Belle Isle" in honor of the ladies who so frequently patronized it on picnic occasions.

Respectfully submitted,
SILAS FARMER.

Accepted and ordered printed in the proceedings.

FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I have neither approved or disapproved the proceedings of your honorable body at your last session ordering the contract with the Michigan Gaslight Company for lighting with naphtha certain portions of the city through which gas mains have not been extended. I should have disapproved of the proceedings if it were not for the serious inconvenience which would result there-

Very respectfully yours,
GEO. C. LANGDON, Mayor.

FROM THE CITY ATTORNEY.

Respectfully submitted,
WM. C. MAYBURY,
City Attorney.

It will be seen from the above figures, which are based on authentic sources, that wood and stone pavement combined can be laid at a cost of very near one hundred per cent. less than Abbott asphalt, which, in a business point of view, is not only worthy of grave consideration as a source of great economy, but also as a satisfactory reason for not too hastily abandoning that which we now enjoy, a good and inexpensive pavement. The subject of street pavement has been a source of agitation for years, not only elsewhere but in this city, and in no other class of public improvements is there such a diversity of opinion, as has been fully demonstrated by the innumerable patent pavements introduced. For the past fifteen years this city has been the center of attraction for patents of every conceivable description, each vying with the other for supremacy, and claiming merits unforeseen by others competing for popular favor. Under this state of affairs the board some three years since adopted the combination pavement, so called, consisting of cedar blocks and stone combined, and has continued its use for this purpose up to the present time, and it is believed with the approval of the public at large. This pavement, notwithstanding it was claimed to be patented, was laid without royalty and with a great saving to the taxpayer. After the decision of the United States Circuit Court dissolving the injunction against laying cedar block pavement in this city was had, it was believed that our business relations with patentees had come to an end and the city would be left the alternative of laying a pavement free of royalty.

The cedar block pavement, when properly laid and permitted to remain undisturbed, is found equal in every respect to the most sanguine expectations of its advocates, and as regards economy in its preferment it will be seen, by referring to the numerous petitions therefor, instead of dreading the cost and the distress arising from pavements of this nature, as was formerly the case, the middle classes as well as the rich now wish to enjoy the benefits derived from a paved street in front of their premises.

As regards Abbott asphalt or Medina stone as a material to be substituted for cedar blocks, if petitioned for by a majority of property-owners on any particular street, the board can see no reason why their preference should not be complied with.

Michigan Grand avenue is now paved with Medina stone, and that in order to conform therewith, it is believed by the Board that the open space should be paved with the same material.

Under the present specifications it is estimated that it will cost \$1 75 per square yard for paving and 25 cents per cubic yard for grading, making an aggregate cost of \$4,065.

The Board respectfully return the resolutions to your honorable body for such action as may be deemed for the interest of the public.

Respectfully submitted.

WM. PURCELL, President.

Accepted and ordered printed in the proceedings.
